LOMA HALL READY FOR FRESHMEN

by Greg Albrecht

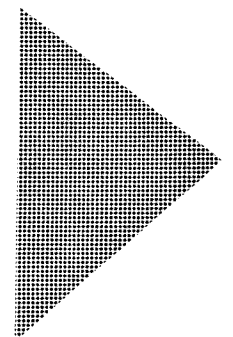

"This college is not finished with its building programme yet," said Chancellor Herbert W. Armstrong during the dedication of the just-completed women's dormitory. He pointed out that a further building programme with such projects as an Auditorium, a Faculty Building (Administration Building), and a Student Centre is on the drawing boards.

Beginning the dedication Mr. Raymond McNair greeted the assembled throng and introduced the architect of Loma Hall, Mr. Herb Jones. Mr. Jones commented on the notable achievements of the Ambassador College building programme through the years. According to Mr. Jones no more than 10 athletic facilities were chosen to represent England in an athletic facilities' display at the Olympics in Mexico City. A noteworthy achievement of

SALLY BARKDOLL

Sally was born in Chicago in 1950 and moved with her family to San Diego in 1952. A real outdoor girl, Sally likes camping, sailing, and cycling. She is an Honour's Graduate of Grossmont High School and is thrilled with her first sight of Ambassador, Bricket Wood.

ERNA BARNARD

Born in Krugersdorp in the Transvaal, Erna should prove to be a fine asset to the Freshman Athletics team. She is the present holder of an inter-school javelin record set in 1966, and has played basketball for over seven years. When you can't find Erna, a good place to look would be under a car - as a spare time activity she tinkers with engines!

NEVILLE BENWELL

Neville, from Seeford, Sussex, is a golf and soccer enthusiast. After finishing school with five "A" levels, he worked in a plastics factory. "Apart from that, I've done nothing and been nowhere," he shrugged. You won't be able to say that long at Ambassador, Neville.

ANNE BONESS

Twenty year old Anne comes from Chesterfield in Nottingham. After completing her education she worked for one year as a mother's help and also a clerk in the Civil Service, Anne enjoys dabbling in art and she has won a prize for her painting.

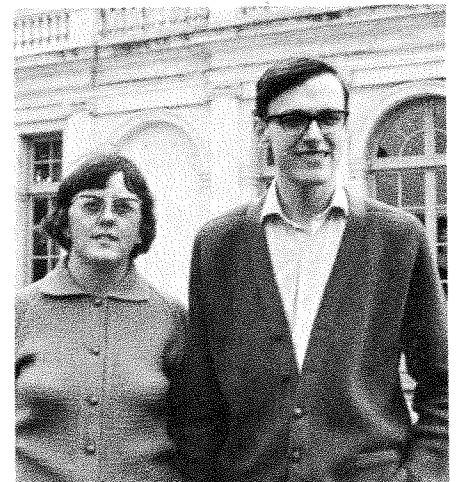

Welcome to Ambassador College Anne!

JONATHAN BUCK

"My hobbies? None - I've never had any leisure time!" So says Jonathan Buck from Guildford, England. After Grammar School, he went to Epsom Art School for a year. "That was good fun," he says. But now he's come to work hard at Ambassador. "And travel. I've always wanted to travel, don't forget to add that!"

CAROL BURMAN

Australian-born Carol comes to us with one year of business college and two years of secretarial work

Erna and Neville

behind her - a busy life for a 19-year-old. Her hobbies include dress-making and sports. She is working for Mrs. Silcox now, so all the best with your chickens, Carol!

RITA CAMPBELL

Represented among the Canadian delegation this year is Rita Campbell. All through school Rita was involved - in school activities. She was a member of her school's Student Council, worked on the school yearbook for three years, was Girl's Sports Editor and Graduates Editor. Welcome and we hope to see you with the Portfolio staff soon!

KATHI COATES

From Ohio, U.S.A. comes Kathi - giving Bricket Wood a trio of Coates sisters. Kathi, who comes from a

KEN AIME

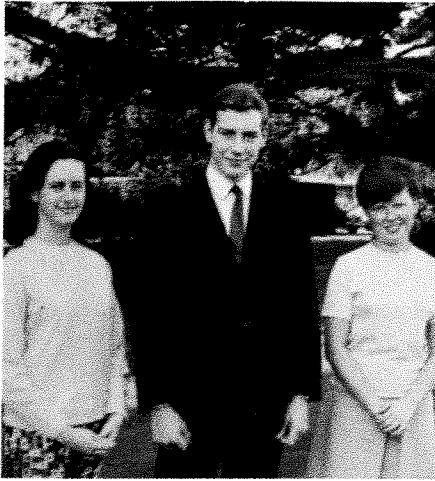

Ken Aime worked in a mental hospital back in Selkirk, British Columbia, Canada. He'd never heard of Bricket Wood when he applied, but he says it's a pleasant surprise to be here. His main interest is agriculture. And for leisure - any sport, but particularly field events. You've come to the right campus for that Ken!

BARBARA ARNOLD

After spending a couple of months with her aunt and uncle in London, Barbara from Kalamazoo, Michigan decided that Ambassador College was the college of her choice. In August she came out for an interview and was accepted. Salutatorian of her graduating class, she maintained her academic standard and was on the Dean's List at Western Michigan University. In her spare time she was editor of her High School Year Book and participated in Drama Club.

farm, spent some of her time working at a drive-in restaurant. Two of her favourite activities are sewing and cooking. In spite of all she had heard about the English campus, "the beautiful gardens did take me by surprise," says Kathi.

ANDREW COOKSON

Nineteen year old Andrew Cookson is the first Swiss-janitor to come to Ambassador College for many years. Prior to this he attended Southport Technical College. Besides an interest in swimming, Andrew wrote for his high school paper and year book. Why not try our Portfolio class next?

TOM CRAWFORD

The Irish have made another contribution to Ambassador College by sending Tom Crawford. Tom's home town was Mossey in Northern Ireland. Unfortunately, Tom's first day on

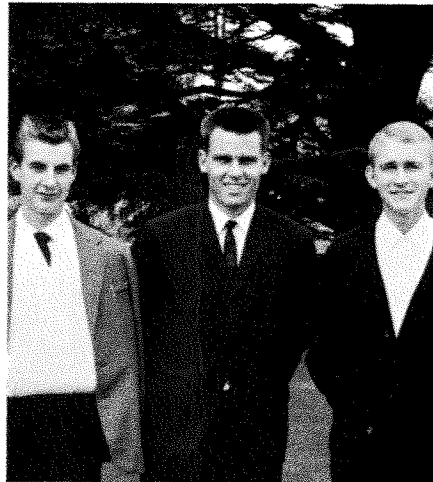

Kathi, Andrew and Rita

the job proved rather disastrous. While loading a trailer of hay, he slipped and broke his arm. (Some people would do anything for attention!) While his arm is mending, Tom has a little "tamer" job, working in the micro-filming department.

GAVIN CULLEN

Gavin comes to Ambassador from Maungaturoto High School. (How's that for a tongue-twister?) He was born in Paparua, New Zealand, but his last address was in Auckland. At present, Gavin is gaining experience working for Mr. Sutcliffe on the Farm Programme.

Tom, Gavin and Palle

PALLE CHRISTOPHERSON

"Jer er glad for at vaere her!" That was Palle's way of telling everyone that he "is very happy to be here," in his native tongue, Danish. Palle, aged 23, came in contact with

Ambassador College through Radio Luxemburg in 1962. At that time he decided that he wanted to live the Ambassador way, and what better way to learn that way, than to become an Ambassador College student? That was a decision he feels he will never regret!

LLOYD DROVER

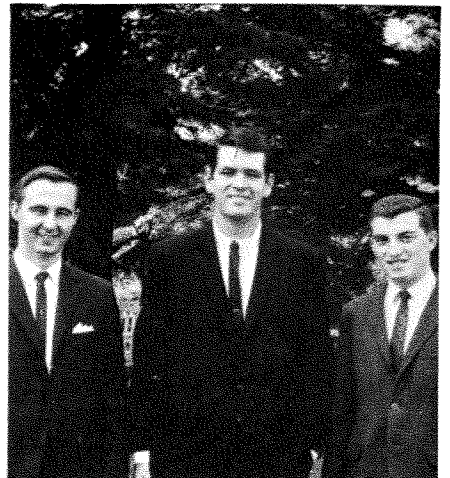

From Newfoundland, Canada comes Lloyd Drover. He was the Headmaster of a school of 350 children. After learning about Ambassador College through a local radio station, he decided to apply. He likes weight lifting and badminton. Lloyd's reaction after a few weeks of college? "Wonderful!!"

RON DUNCAN

From the humblest state in the nation comes Ron Duncan. Ron studied journalism at South Texas before being accepted for Ambassador. He is a keen photographer and plays bass trombone in the band. After applying to Big Sandy, he was delighted to be sent to Bricket Wood, and we are glad to have him.

NEIL EARLE
