

AMBASSADOR COLLEGE BRICKET WOOD, HERTS.

Vol. 11. No. 3

13th November, 1969

Freshman Class Interviews 1969

Faculty Welcomes Tenth Freshman Class to AMBASSADOR'S COSMOPOLITAN CAMPUS

by Peter Butler

Already the 10th College Year at Bricket Wood is in full swing. On Friday, 12th September, 71 new students from all corners of the earth registered for classes – the final step in a week of initiation into another way of life. A new, a totally different way of life. And 25 of them had left behind almost half a century of previous College and University education in preference for this, the Ambassador way!

For all, the week had been full of activity. The previous Sunday, we enjoyed a party. The name of the

game? – "Get Acquainted"! But names aren't easy to memorise when they are thrust upon you 200 at a time!

Monday and Tuesday kept the First Years busy with Entrance Examinations, and then on Thursday, at Orientation, Mr. Herbert W. Armstrong told something about the history, principles, purposes, and the goals of Ambassador College.

That same evening came the first big social highlight of the year. The Faculty Reception in floodlit Memorial Hall, followed by the Fac-

ulty Dance in the Gymnasium. Both were resplendent events. Furnishings and carpets were moved en bloc from the International Lounge to provide a plush and comfortable setting for the dance. Handsome young men in dark suits and tuxedos escorted charming young ladies in long and colourful formals. And dancing was to the lively and selective music of the Frank Harwood Band.

After such an evening who among our new students could fail to be convinced that Ambassador College is the place to be!

assistant librarian in the Veterans Hospital. Now she is a coder in Mailing. We hope your stay here will be successful, Kae.

BERRY BURGESS

An English lassie whose parents live in the midst of the beautiful Surrey hills twenty minutes from Guildford, Berry enjoys horse-riding, and she has a strawberry roan called Brackin. She also enjoys roller skating and playing the piano. She likes to sew and Domestic Science is one of her favourite classes. Now Berry looks forward to plenty of travel opportunities.

BOB CAMPBELL

Another one of those Aussies from Sydney, Bob has had quite a full life for a 20 year old. He majored in law-arts in the University of West Australia. He was also a television studio technician in Perth, a legal clerk for a magistrate, and a dancing instructor. Now he dances with a Dixon polishing the floors here at College! Let's hope he becomes quite a polished personality! Have a good year, Bob!

CHRISTINA CAMPBELL

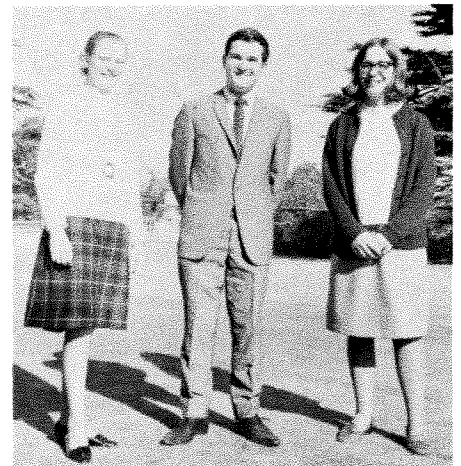

Tina is an 18 year old Canadian from Nova Scotia. She likes music and has played the piano for six years. Tina also enjoys snow-skiing and swimming. Now she looks after the girls' locker room and mends torn laundry. For those that didn't know it, Rita is her sister.

VERNA CAMPBELL

Verna is a Southern belle from Richmond, Virginia. She has been to Orr, Minnesota for SEP three times - '65, '66, and '68. She likes reading and basketball. Verna works in Files, otherwise known as A.C. Archives.

LINDA CLAPP

From Cheshire and the Warrington Church comes Linda Clapp. Linda is accomplished in many artistic endeavours - folk singing, painting, writing, and dancing. Now she adds her voice and her charms (and chimes) to the Ambassador Chorale.

Berry, Bob and Tina

JOHN COMINO

John Comino, pronounced "Commo-ner" to an untrained ear, is also an Australian from Sydney. He's 20 years old and attended the University of New South Wales, taking one year of Pre-med and one year of Arts. Now he works for Ambassador's Agricultural Research Department - on the farm! Before John came to Bricket Wood, he had a rather close call with the draft. He left the country and avoided its clutches by just one day.

SHAYNE COX

Twenty-one year old Shayne is another Aussie from the prolific Sydney area. Shayne first heard about Ambassador a few years back through her aunt and uncle. After finishing secondary school, she worked in accountancy for a year with National Cash Register. She puts her previous training to good use in our IBM department.

TORIN ARCHER

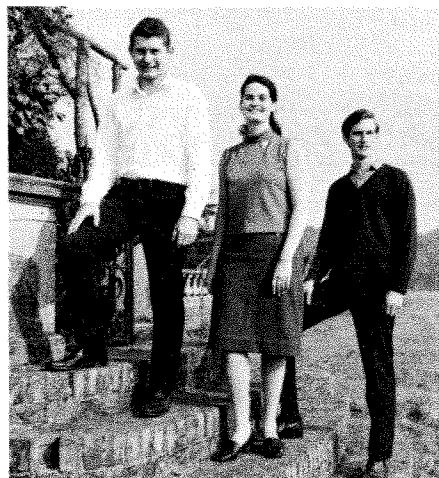

Torin has what you might call a split personality - he was born in America but his parents are English! Torin has lived in Los Angeles, Chicago, Arizona, and now his parents live in Richmond, Surrey. We hope he can hit the mark here at Bricket Wood.

MEARL BOND

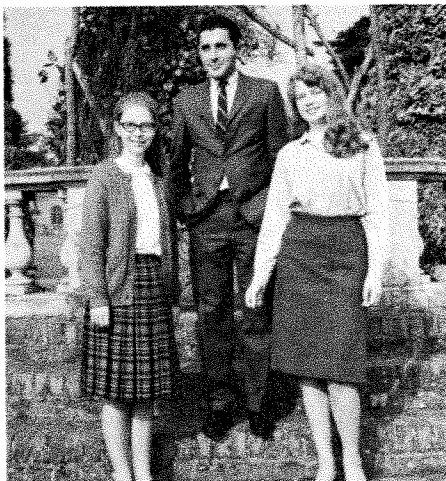

Howdy! is the greeting you will hear if you happen to pass by our Texan from Big Sandy. Mearl went to Imperial for nine years and in his last year of school was Student Body President. He was a ski instructor and boat operator at SEP in Orr for three years. Now he's a laundry and soap operator at the gym.

KAE BOYCE

Kae comes from "spud growin' country" - Boise, Idaho! Since she was 14, Kae has wanted to come to Ambassador. Five years later and 5,000 miles from home she finally made it. Back in Boise she worked as an

Mearl, Kae and Torin

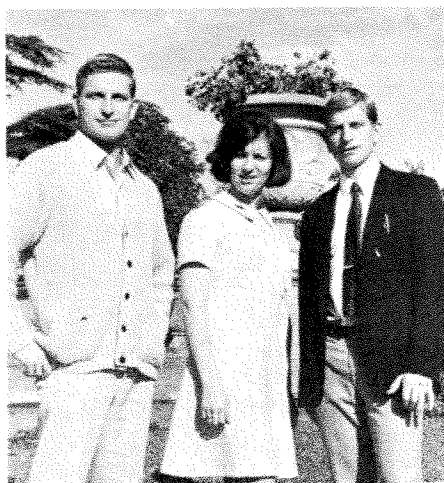

Verna, John and Linda

ALLAN DEAN

From Sydney, Australia, come the Dean twins. Allan is a typically enthusiastic Australian sportsman, but he managed to take time out from his handball and surfing to earn an Accountants' Certificate from Sydney Technical School. Welcome to Ambassador, Rodney.....er, Allan!

RODNEY DEAN

Twenty-one year old Rodney loves to travel – especially when the itinerary included Pasadena, California, and Bricket Wood, England! After graduating from New South Wales University with a B.Sc., Rodney really looks forward to an Ambassador education. He is a rugby enthusiast but hopes to master basketball soon enough to play in the College tournament.

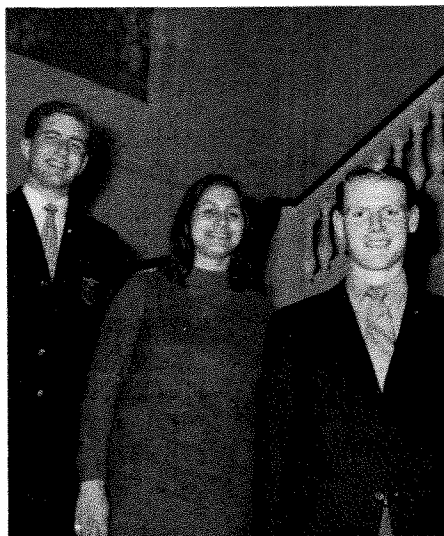

Rodney, Shayne and Allan

SUSAN BELABAT

Nineteen year old Susan is from Kingston in Surrey. She first heard about Ambassador College through the WORLD TOMORROW Broadcast. Susan worked for a year as a Civil Servant before coming to Bricket Wood. Here, she is a neighbour to her sister who attends nearby Hendon College in Hertfordshire.

RANDY DICK

Following his brothers Bob and Ron to Bricket Wood comes Randy Dick! Randy attended Imperial Schools at all three campuses but his last address was Jerusalem, Israel – quite a varied background for a 17 year old.

Randy, Susan and John

In addition to basketball, photography and writing, Randy plays folk guitar and has already helped lead the College sing-alongs.

JOHN ELLIOT

Straight from Imperial Schools in Pasadena comes John Elliot! A basketball and track enthusiast, John has also been able to pursue his passion for electronics in the Radio Studio. "Oh, yes, and I messed around on the drums a bit too," adds John. In addition to adding his bass voice to Chorale, John has made his debut at

the Student Talent Show and the Hatters Ball.

ROY EVERETT

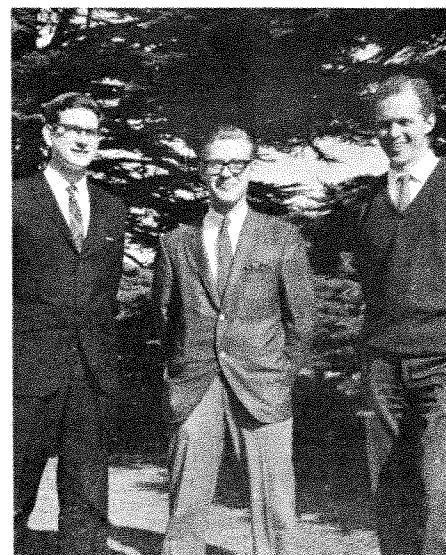

English-born Roy has lived for the past six years in New Zealand. After two years studying Physics at Auckland University, he returns home-ward to join us here at Ambassador. Swimming and cycling are his interests, and he "likes to go places". Welcome Roy, think you made it!

HERMAN FICKEWIRTH

Eighteen-year old Herman was born in Germany and enters Ambassador via Buffalo, New York, where he has spent the last eight years of his life with his parents. His pursuits include Economics and History. Ultimately he hopes to use his native language in the German Work. "Willkommen" in Bricket Wood.

GORDON GRAHAM

After 32 years of life in Australia, Gordon starts back to college the Ambassador way, here in Bricket Wood. Coming from a farming background in Queensland, Gordon worked for three years in Fiji before moving to Canberra where he was involved in Computer work for an Industrial Research Organization.

Roy, Herman and Gordon

Margaret, Rene and Linda.

RENE GRUTER

As you might guess from the name, Rene's background is Dutch, but he spent the last seven years in Australia. Reading, music, track and geology are among his varied interests. And his reaction to College? "FATASTISCH OM HIER TE MOGEN STUDIEREN!!" (It's fantastic to study here.) Yes, we agree, Rene.

MARGARET HALFORD

"When are you going to interview me?" asked effervescent Margaret Halford. Nineteen year old Margaret follows her brother John's footsteps to Ambassador College, though she is no stranger to our Campus since she is an Imperial graduate! A voracious reader, Margaret easily digests books, like *The Case Against Eichmann*, before bedtime.

LINDA HALL

After five years' clerical work in the Civil Service, we welcome Linda back to a study desk - Ambassador style! She has swimming, ice-skating, and ballroom dancing high on her list of activities. Now she works in the kitchen helping prepare those delicious meals we all enjoy.

GARY HARVEY

Twenty-one year old Gary is an Aussie from Perth. He was introduced to the PLAIN TRUTH by a friend in school. They parted a while

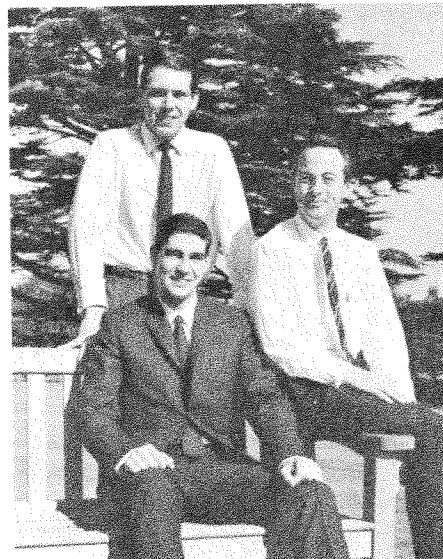

later, but met again years after in the Perth Church! Gary is interested in agriculture and thinks Ambassador is "fair dinkum"!

GEORGE HENDERSON

For 24 year old George, the University of London was a "wash-out". Five years ago he started listening to the WORLD TOMORROW Broadcast as a diversion from his studies. After subscribing to the PLAIN TRUTH, he soon made Ambassador College his goal.

BARRY HICKFORD

Barry, 22, is from Suffolk and graduated from the University of Loughborough. He studied to be a mechanical engineer but came to Ambassador for an all-round education. His interests? He likes all food except melon and broiled tomatoes!

George, Barry and Gary.

ROY HICKFORD

Roy is the younger edition of the Hickford Bros. by three years. "I started school when I was three, so by the time I was five I had a little empire built around me." He is interested in science, but recognized the need for a balanced education. He likes Ambassador and finds the students more "human" than he expected! Thanks, Roy.

ANITA HOFFMANN

If you haven't met Anita yet, ask our College Barber, Mr. Hoffmann, to

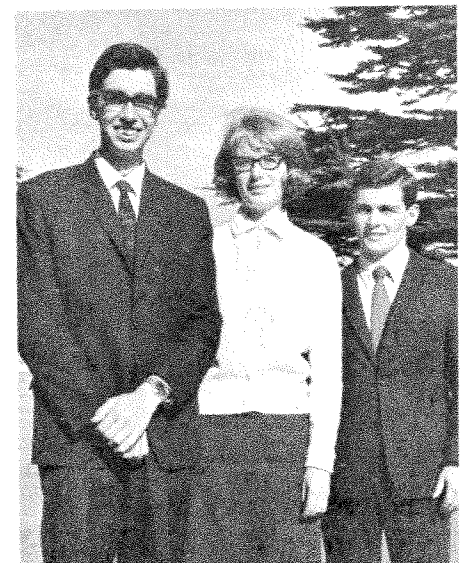

introduce you. She has lived in the Bricket Wood area for some years now and has just graduated from Imperial School. Anita's musical abilities include the saxophone and she hopes to play in the band in the near future.

GARY HOPKINS

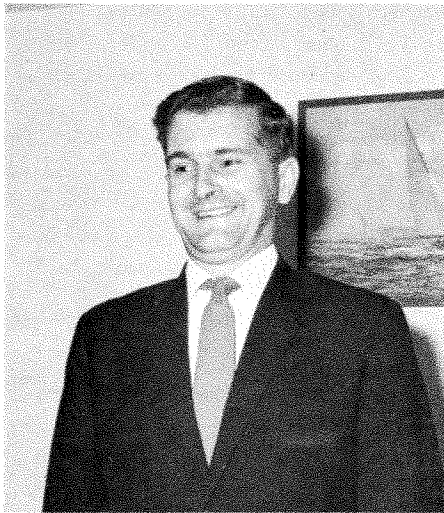

From New Jersey, U.S.A. we welcome Gary Hopkins. He became interested in Ambassador after a summer vacation spent working with two Church members. Gary is 20 and completed two years of Physics at Ursinus College, Pennsylvania, before being accepted here at Bricket Wood.

MR. DAVID HOUSE

One freshman few of us have seen on Campus as yet, is Mr. David House. The reason is simple. Before he can become a full-time student here, Mr. House must complete his 19th year of service with the Royal Air Force. Nineteen years! - a full time cycle! "But the only significance in that number," he insisted, "is that it makes me exactly 19 years older!" Three years as a fighter pilot and many more as a flying instructor have given him a wealth of experience to draw from. At the moment, because of commitments with the Ministry of Defence, he has to commute daily to London. Mr. House now looks forward to the end of these tedious, time-consuming journeys.

Roy, Anita and Gary.

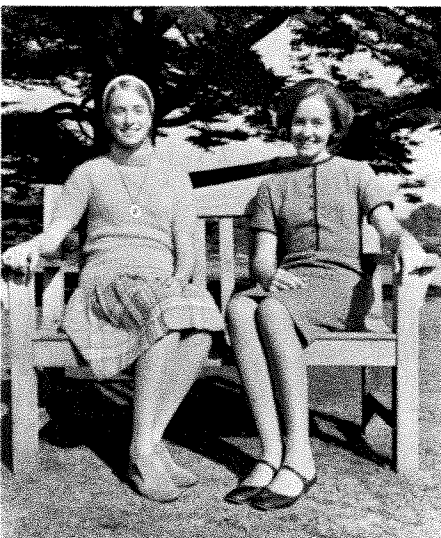

Mr. David House.

SIDNI HUNTING

Another person who is no stranger to College is Imperial graduate, Sidni. Outstanding at basketball, she will also exercise her ability on the flute, by playing in the band. When asked for the story of her life, Sidni replied, "Ten years in California, nine in Bricket Wood, and tremendous travel opportunities in Central and South America, West Indies, and Europe!" Where next, Sidni?

SUSAN JOHNSON

Straight from high school in Georgia, U.S.A., Susan starts her 18th year of life here in Bricket Wood. It's the outdoor life for her as two years of Summer Camp and a passion for horse-riding and water-skiing indicate. Oh, and by the way, remember, it's Susan - not Sue.

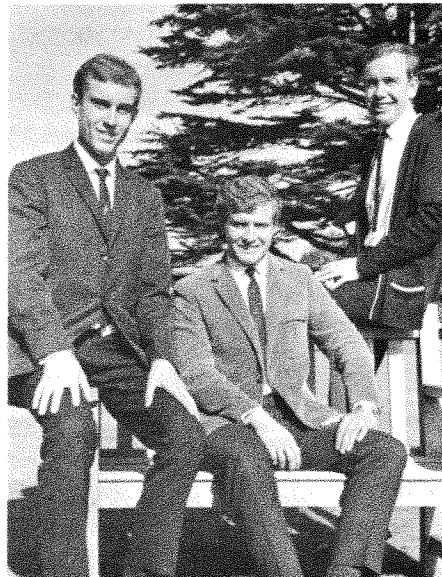

Sidni and Susan.

BRUCE KENT

Bruce, 20 years old, and from Surrey, comes to Ambassador after a very diversified career. Besides studying psychology at West Ham College, Bruce worked as a garbage collector for several months! One of his chief interests is talking to people. You've come to the right place for that, Bruce.

ROD KING

Rod hails from Wollongong, Australia. His interests? Rod loves spear fishing, surfing, skiing and car designing. An unusual combination, perhaps, but a profitable one! Rod won three prizes for car design before deciding that Ambassador was the career for him.

Bob, Rod and Bruce.

BOB KLYNSMITH

Our next freshman comes to us from South Africa. Bob spent the first eleven years of his life in the bush country and tropical forests of the East African nation of Kenya. His father was a major in the Kenyan regiment during the Mau-Mau campaign! After two years in Uganda, he finished school in South Africa before working for a time in the Durban Branch of Barclays Bank. In his leisure time back at home, Bob became an experienced skin diver. After twenty-one interesting and eventful years in Africa, you have an equally interesting and eventful four years ahead of you here, Bob.

DAGMAR KREUZER

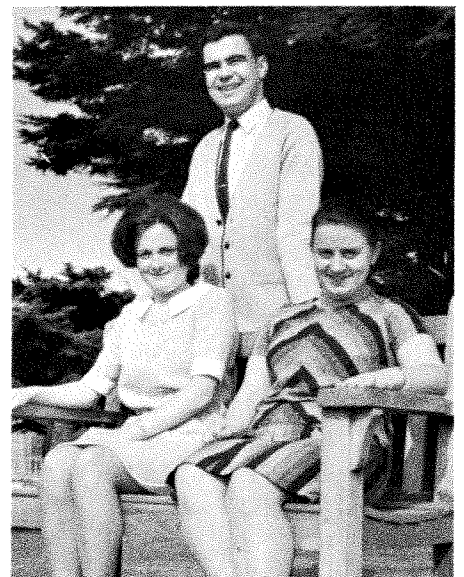

Born in Munich, but coming to Ambassador from New Zealand, 21 year old Dagmar is a graduate from Wellington Teacher's College. "But I never got to teach because six weeks before graduation I found out I was allergic to chalk!" So she worked in a library instead. A.C. was just what Dagmar expected only better.

VIVIENNE LE GAC

Nineteen year old Vivienne found out about Ambassador College from reading LA PURE VERITE. She was studying at the University of Nantes as a chemist major, but found her studies were not in accordance with what she had read in the magazine. So she made Ambassador College her aim and she has found the aims of Ambassador very inspiring! BIENVENU A L' AMBASSADOR COLLEGE, Vivienne.

BRUCE LEHMANN

After working a year and a half with computers, Rex's brother, Bruce, comes to Bricket Wood from the Australian metropolis of Ferry Creek. At age nineteen Bruce has developed a liking for baseball, surfing, and table tennis. Now working on the grounds, he recalls his acceptance, which arrived only *four* days before the deadline for the arrival of the freshmen. We're glad to see you here, Bruce.

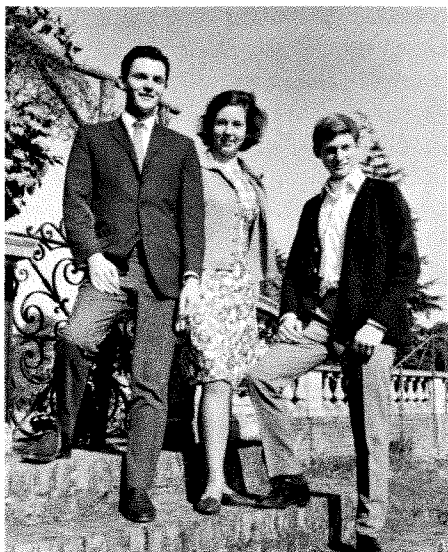

Vivienne, Bruce and Dagmar.

JAMES LEIGH

Born in Sydney, James describes his life in Australia as nomadic. In his twenty short years he has served as an electrician's apprentice, a clerk and has attended Technical College and University. James arrived earlier than any other freshman - 28 May - due to Australian draft complications. After an eventful summer, including some time on the Continent, James is ready to "hit the books".

GARY LOCK

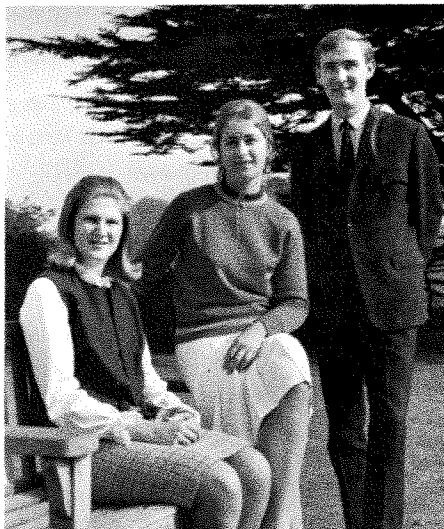

From far corners of the earth two brothers meet again. Gary comes from Brisbane, Australia, to join brother Russ, who has just returned from Pasadena to spend his third year of College back in Bricket Wood. Eighteen year old Gary is a water sports enthusiast. He worked in heavy construction for a time after graduating from high school, and now he has an opportunity to try his hand working on the College grounds.

James, Julie and Gary

JULIE LORIMER

To Julie, Ambassador College is quite different from milking cows, driving a tractor and chopping corn. But she loves it all the same! Julie is another Australian from the Melbourne Church. She saw an Envoy and wanted to come to College because she knew she would get a right education here. Julie has done a bit of writing before, and she loves to play the piano.

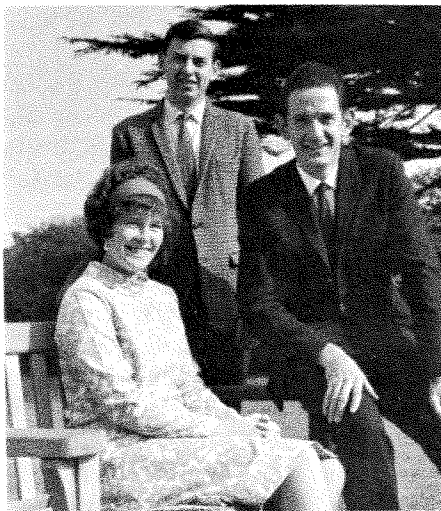

Cathy, Diana and Andrew

DIANA LOVE

Australian globetrotter Diana has been to practically every country in Europe since January! She came to England with hopes of coming to Ambassador. And she did! Her interests are golf and hockey, and she used to do a little painting. She loves England, and we love to have her here.

CATHY McCARTHY

Born in Capetown, South Africa, our Student Body President's daughter comes to College after two years of Imperial School. Believe it or not, before she came to this country less than three years ago, Cathy couldn't speak a word of English! Watch out for her on the basketball court when the season starts - last year she was a member of the all-conquering Imperial girls team!

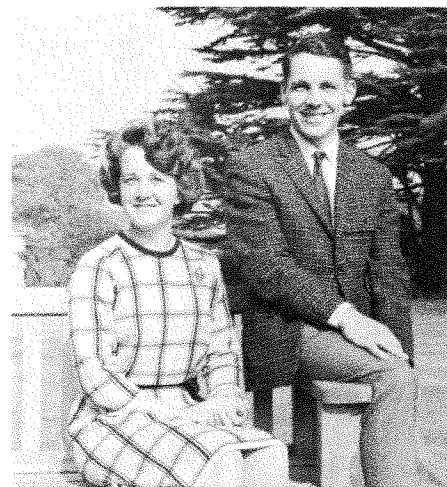

Janice, Gordon and Ted

ANDREW McCOOEY

An Englishman from Belvedere, Kent, 21 year old Andrew has worked as an assistant to a solicitor for five years. He likes farming and enjoys working on cars. He is also keen on tennis. After spending five weeks on the Continent he considers he has come to the happiest place on earth.

JANICE McKELVIE

Eighteen years of age, Australian-born Janice is a keen horse rider. Before applying for Ambassador she hoped to become a teacher and had completed a year's training at Perth Teachers Training College. Janice became enmeshed in College life from the word go and really enjoys her work in microfilming at the Radlett Press building.

Pam and Rodney

GORDON McKILL

While convalescing in hospital from a soccer injury, 19 year old Gordon learnt to play the accordion. A Glaswegian, Gordon is the latest in a line of Scots to cross the border to study at Bricket Wood. His musical ability has already been demonstrated on I.T.V. and in the Student Talent Show.

EDWARD MANN

Education is no new thing to 26 year old Ted. He spent the last six years teaching in Perth, Australia, at Primary School level. Athletics, basketball, and horse riding are all pursuits of this active Aussie. His request of the Library? "Please publish that book of Australian idioms!"

RODNEY MATTHEWS

Rodney is another Aussie from the Melbourne Church area. He first found out about Ambassador College from the PLAIN TRUTH. His father received a copy of the magazine one day, and he hadn't even asked for it! Before coming to join his sister, Helen, at College, Rodney worked with the Commonwealth Scientific and Industrial Research Organization, Division of Meteorological Physics! (WHEW!)

NICOLA MEADOWS

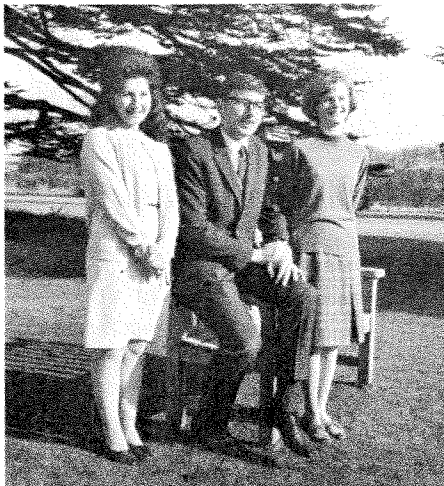

From one year of work in a local government office to the Ambassador kitchen comes 17 year old Nicola. As a school-girl, her big hobby was breeding animals. Bricket Wood is home-away-from-home for Nicola since her parents both attend the Bricket Wood Church.

JANET MILLMAN

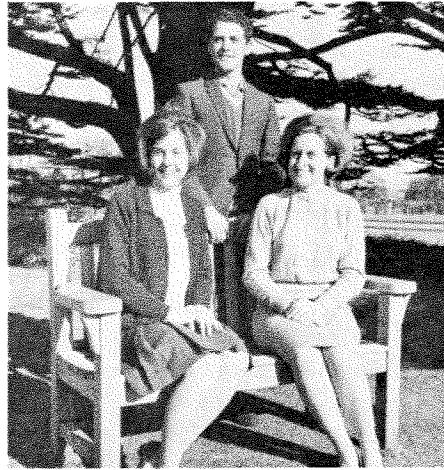

Seventeen year old Janet joins sister Wendy to maintain the "campus quo" of Millmans! There were two last year until Janet's cousin Bob was transferred to Pasadena. The Millman family hail from Bristol where Janet completed a year of invaluable secretarial training before acceptance to College.

PAM MORTIMER

There's a new teacher at Imperial School and what's more, she's a Freshman! Pam, from Sydney, Australia, has already graduated once - from Wollongong Teacher's Training

Nicola, Peter and Janet

Rosemary, Kerin and Lorraine College. Pam is proud of her ancestry - her great grandfather was sent to Australia for rabbit poaching! Now at long last she has ended her family's exile.

PETER NATHAN

From Christchurch, New Zealand, comes Peter, a company secretary and part-time commerce student at the University of Canterbury. Peter loves outdoor activities - especially mountain climbing. He admits he has done "quite a bit" in the N.Z. Alps. He is also a keen photographer.

LORRAINE NELSON

From - you guessed it - Brisbane, comes a young lady with a wide variety of interests. Lorraine, now working in IBM, enjoys books, theatres, dancing, and squash. Travel? - she has been round the world once, and this is the outstanding experience of her life so far - besides Ambassador College!

ROSEMARY NICKSON

You haven't met any Freshmen from Australia this year? Then, here's your chance! Rosemary's 17 years have been full and eventful. She plays the piano and trumpet - but listen to this - her favourite sport is fencing and apparently she is quite proficient at it! Languages? She has studied and can speak Indonesian. Look out for Rosemary in the kitchen - particularly when she handles the knives!

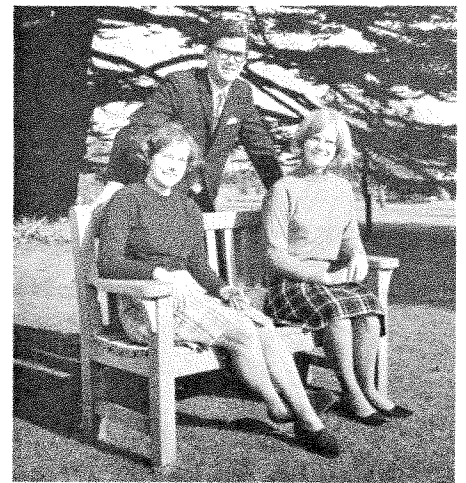

KERIN NOLLER

Another Aussie on the scene is Kerin Noller. For many years he has been

working on his father's farm at Kingaroy, Queensland, growing peanuts and canning beans (used in making "baked beans"). Kerin is keen on sports and outdoor life, especially hunting, mining and prospecting.

DAVIS NORTHNAGEL

Dave hails from Green Lane, Pennsylvania. His father is an electrical designer. He has a younger brother and two younger sisters. After graduating from high school in June he worked on an aerosol assembly line during the summer before coming to College. His interests include canoeing and water skiing.

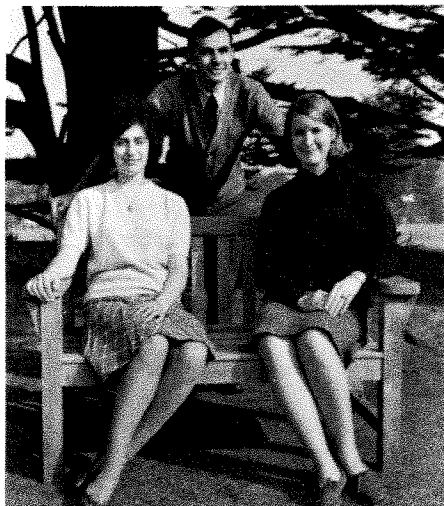

Annie, Dave and Meribeth

ANNIE PIETON

Annie is a 19 year old mademoiselle from a little village near Lille, France. She has been an *au pair* girl for a Guildford family for the past five months. Before she came to England, Annie's schooling was cut short after her mother's death. She eventually finished her education by correspondence course. She enjoys reading, art and housework. "Bon arriv ", Annie!

MERIBETH PROUTY

Beth's family, consisting of "four kids, two cats, and two fish," have travelled all over the United States. She lived in Washington State before her move to Bricket Wood. She loves to sew and spent her entire summer doing just that. Beth summed up her motives for coming to Ambassador by saying, "I came to learn how to live."

Jennifer, Victor and Carol.

CAROL RAMSEY

After one year at Steven F. Austin State University, Carol has now chosen an Ambassador education. From Houston, Texas, Carol brings with her a love for sailing, canoeing, camping, and, in general, the outdoors. Back in Texas she worked for a while in a restaurant. This isn't her first time in Bricket Wood. She visited the Campus in 1967, and she has also been to both the Big Sandy and Pasadena Campuses. Her sister is a Junior at Pasadena this year.

VICTOR ROOT

Meet Victor, a man with a very interesting background! His father is American - his mother, Russian. He has lived in Japan, the States, and Germany. After working for a manufacturing firm, and one year of College in Heidelberg, Vic has come to Ambassador. Although eager to study, he is already involved in basketball and Chorale.

JENNIFER SANDERSON

Jennifer comes to College from Sheffield, where she has lived all her life. After taking her G.C.E.'s, she worked for a year in a typing pool for a Sheffield steel company. Jennifer is an ardent football supporter, and also likes sketching.

MELVIN SCHUETZ

If Astronomy is your line, Melvin is your man. Aged 18, Melvin has been through Imperial School at Pasadena

and spent his spare time rock climbing and acting. His greatest feat - he scaled the 10,000 ft. San Antonio peak in California. And the Astronomy? Melvin built his own telescope at 12, and has been a keen enthusiast ever since.

KAREN SILVERNAIL

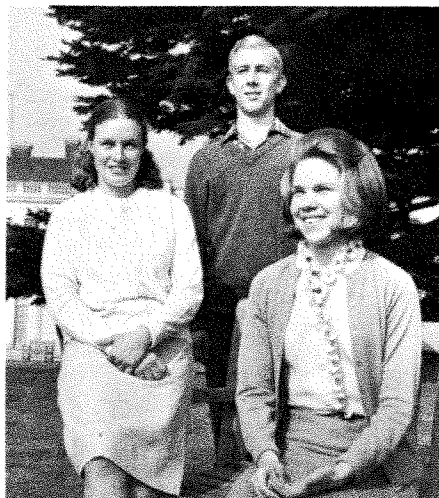

Swimming, cooking, and dog training are among the interests of Karen. She originally lived in England with her parents, and then moved to Florida, U.S.A. Next she lived for a year in Pasadena and two years ago returned to Britain. Karen has attended Imperial School in both Pasadena and Bricket Wood.

MIKE SMITH

They say A.C. students are not millionaires' children. Well, try this for size. A career of five years at sea including time on Lord Walston's yacht, then from diamond mining to directing a business - this is Mike Smith! Twenty-five year old Mike might well have stayed in South Africa had not Mr. Dart suggested he apply to College. That was over a year ago. Now Mike's here and working in Transport, where he "least expected to be."

PAT SMITH

Dilemma! A second Pat Smith on Campus! But this Pat comes from Simons Town, South Africa. After matriculating in 1967, Pat worked at the Veterinary Research Centre at Onderstepoort (ask her how to pro-

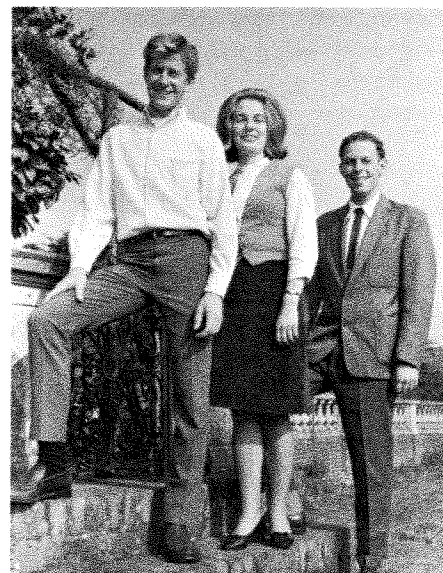

Pat, Melvin and Karen

nounce it!). Then the South African Navy employed her as a clerk. Her interests include "obedience training and working trials for dogs." Welcome to A.C., Pat.

GILLIAN SUTCLIFFE

Following in the footsteps of her father and sister, Gillian is the third member of her family to attend College. Originally from an Australian cattle station, Gillian came to Bricket Wood in 1963. Once here, she became a pioneer student of Imperial School. She also spent six months on the Texas Campus in 1967.

Peter, Gillian and Mike

PETER TENTY

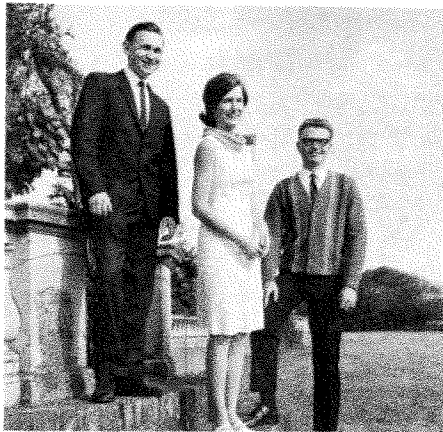

Dutch-speaking Peter has not seen his homeland since his family emigrated to California when he was five. How come he still speaks Dutch? Peter's parents wisely continued to speak the language in their new home. Peter enjoys sports and is something of an architect for he has designed his own home! As for England, it's like he expected - drought!

NANCY THORNTON

Washington State was for 18 years the home of all-American girl Nancy. She comes to Bricket Wood straight from high school. Nancy modestly claims, "Nothing exciting ever happened to me." Just hang on here for a year, Nancy. Her first view of the U.K. - "I love it here!"

GERALD VAN DER WENDE

"I was always ready to take a dare," smiled Dutch-born, Australian Gerald van der Wende, aged 20. If it's adventure you fancy, listen to Gerald. He could tell you of the time he was prospecting for gold and the roof caved in. Or when the car he was in rolled at 65 m.p.h. Or when he was nearly eaten alive by a bush fire! Or...After such a life, Gerald's journey to Ambassador was a quiet affair - though he did find time to drop off at the Pasadena Campus on the way.

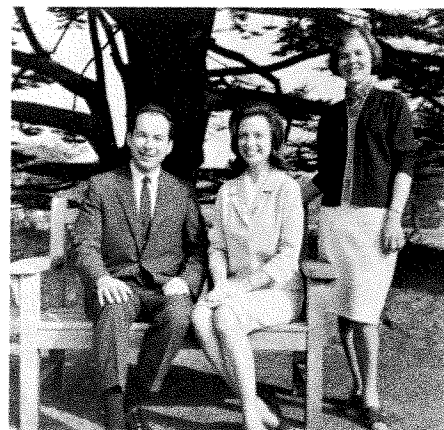

Gerald, Nancy and Glen

GLEN WEBER

Glen is the real outdoors type! A life of farming in the rich cattle and wheatlands of Wyoming helped make horse-riding his favourite hobby. This year he hopes to be able to use his training to an extent working for Mr. Silcox on the grounds.

MR. AND MRS. WRIGHT

Mr. and Mrs. Wright are from Dallas, Texas, where Mr. Wright worked for Texas Instruments, an electronics company. Neither of them find England at all strange since they have lived here since 1966, when Mr. Wright took a management position in his firm's English plant. Surprisingly, it was not until they arrived in England that they first heard the WORLD TOMORROW Broadcast over one of the off-shore stations. Mr. Wright's sports are golf, baseball, and football. He should not find College too strange as he has had three years of University education. And Mrs. Wright? She is very excited about College. In her own words - "I feel like a kid again!"

Mr. and Mrs. Wright and Helena

HELENA ZAJAC

Six years ago 22 year old Helena visited England for a holiday and was adopted by her uncle. Poland's loss was England's gain, for she stayed. Although the language was difficult at first, Helena has not only mastered English but has gone to "A" levels. After schooling, Helena trained as a student nurse for a year. She has also worked in a jewellery factory. So girls, you know where to come to have those priceless pearls valued.

MEET OUR TRANSFER STUDENTS

RICHARD ELFERS

Senior transplant Richard comes to us via Pasadena and a summer at the "Big Dig" in Jerusalem. He likes to travel and now exercises his flair for writing as a member of the Portfolio staff. He also enjoys basketball and will be a welcome addition to the Senior team.

MIKE GHOORDJIAN

Mike is a second-year Senior from Pasadena. Graduating from St. Louis University with a B.Sc. in Aeronautics, Mike's hobby is anything with a motor. He was impressed with the student-faculty relationship here at Bricket Wood because of the small student body, and so came to England straight from the "Dig" in Jerusalem! We're glad to have you, Mike.

MELVA MICHELSON

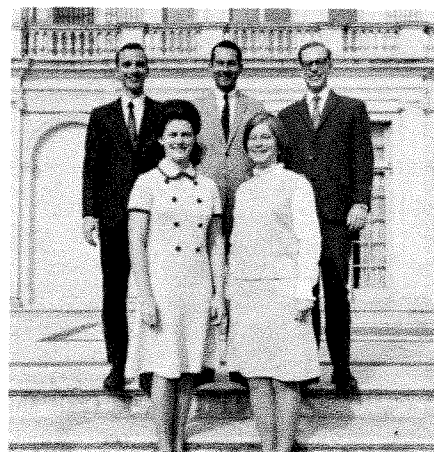

After three years of College in Texas, a summer at Jerusalem, and a lightning eight-day trip home, Melva joins us for her Senior year. Fond of the outdoor life, she attended Summer Camp in Orr, Minnesota, for two years and enjoys water-skiing, horse-riding, and canoeing.

VIRGINIA HOWELL

New York, San Diego, Pasadena, Big Sandy, Jerusalem - 20 year old Virginia has finally made it to Bricket Wood! At Big Sandy she assisted Mr. Bogdanchik and also found time for art work for the Spanish PLAIN TRUTH. Then at the end of her Sophomore year, she had the opportunity to participate in the "Big Dig" at Jerusalem. An artist, a painter, an all-round athlete - Big Sandy's loss is our gain.

JIM WISEMAN

Tennessee-born Jim transferred to Bricket Wood from Pasadena for his final year of study. He wasn't planning to stay in England, but at the Jerusalem Dig this summer Dr. Martin offered interested American students

Richard, Mike, Jim, Virginia and Melva

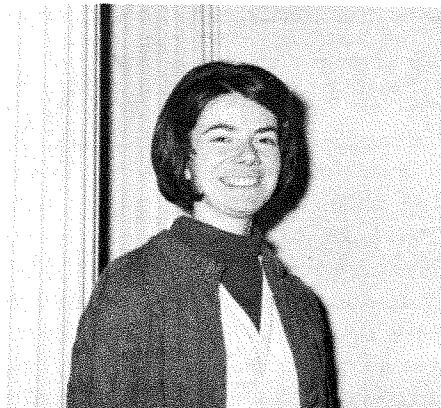

the possibility of transfer here. And, of course, Jim took the invitation. So here he is from the green hills of Tennessee to Ambassador's "Green Campus."

BOB GERRINGER

From Modesto (modest in Spanish) and Pasadena, California, Bob didn't know he was to be a member of our Bricket Wood Campus until the day Mr. Herbert Armstrong called him in! On his second night here at Bricket Wood, Bob took a trip to the pub and from then on has *loved* England! Bob likes singing, basketball, water-skiing, living on bread, cheese and wine, and peanut butter. Jolly good to have you with us, Bob.

TOM HARRISON

Tom is a Junior who came from Headquarters - Pasadena - this year. His hometown is Marysville, California, near Sacramento. Tom lived in France for two years when he was very young. This summer he returned there during a three week tour of Europe. If you want to know how to see as much of Europe as you can

Laura

and grow a beard on the way, Tom's the man!

MARCIA KEITH

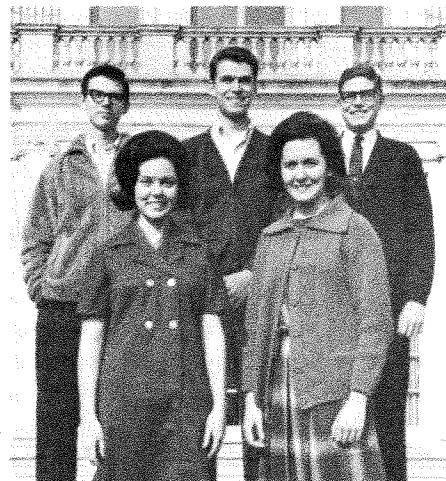

May 15th, 1969, is a day Marcia will not soon forget. That is the day she was called to Mr. Herbert Armstrong's office - and told she was being transferred to Bricket Wood after one year in Pasadena. Marcia loves sewing, dancing, cooking, singing, and especially eating. She lived in Sacramento, California, but had travelled throughout the States before entering Ambassador College. After an eventful summer and an exciting trip through Europe, she declares, "I love it here!"

TOM LAPACKA

Half American - half Polish, Tom has exchanged homes - Bricket Wood for Richmond, Virginia. Transferred from the Big Sandy Campus at the end of his last school year, Tom has already made the most of exciting travel opportunities. This summer he toured the length and breadth of Germany and worked in the Dusseldorf office for six weeks. Now that he's back with us again let's give him a warm Texan HOWDY!

ZENDA SHANKLES

Having spent most of her 21 years in New Mexico and Texas, Zenda thought green was only a shade of brown... until she came to Bricket Wood. Her first two years in Pasadena, Zenda worked as Receptionist and also, she says, served a stint as "miscellaneous." Now in her Junior year here at Bricket Wood she is working as an assistant secretary to Mr. Jewell.

Tom L., Tom H., Bob, Marcia and Zenda.

LAURA WRIGHT

Welcome - Texas transfer, Laura Wright! Originally from Indiana, Laura spent her first two college years at Big Sandy before coming to our Campus. She has one brother, who is also in College - in Texas. "I like the Campus very much and so far the weather has been better than I'd expected," commented Laura.
