

AMBASSADOR COLLEGE ----- PASADENA CALIFORNIA

Volume IX, Number III

OCTOBER 8, 1959

World Tomorrow Hits All-Time High

"Cry aloud! Spare not! Lift up your voice like a trumpet!"

The voice of a trumpet — *nine million watts strong* — sends radio waves reverberating and echoing around the world.

HEAR O ISRAEL!

Yes, God is sending His *last warning* to Israel.

Australia is part of Israel, and Australia is in the spotlight as the climactic year, 1959, draws to a close. With the eyes of an over-populated, communist Asia looking hungrily at the huge land mass of sparsely populated Australia — even while the people cry "populate or perish" — God says the time is NOW to warn His people "down under."

The door is open! The time is now! The job is ours!

Every day broadcasts — across the board — on the "Amalgamated Wireless" networks in Australia have laid a new challenge before us. Mail receipts will skyrocket! Requests for literature, the Correspondence course, and the Plain Truth will multiply overnight. Hundreds will be seeking personal advice, counsel and churches.

A work of this magnitude cannot be handled over 3000 miles of ocean. An office in Australia is needed *immediately!*

Mr. Armstrong, aware of the urgency, has authorized the office to be established soon after the Feast of Tabernacles.

Leaving from Los Angeles International on November 9 by Pan Am Jet, Mr. Garner Ted Armstrong, Mr. Gerald Waterhouse and Mr. Frank Longuskie will rocket over the vast Pacific via Honolulu to Sidney, Australia.

Here, in the population center of Australia, the team will immediately begin jam-packed busy days securing office space, and making the many contacts and arrangements vital to the work there.

By November 25th, the office will be *established and operating!* Mr. Frank Longuskie, with much experience in the London office behind him and months of preparation here at headquarters handling the Australian mail, will be left in charge of this vital new responsibility.

With the Office functioning and well in hand, Mr. Ted Armstrong and Mr. Waterhouse will fly, on November 26, to Manila in the Philippines to meet Mr. Ortiguero and coordinate the work there. Mr. Waterhouse will remain in Manila working with and confirming the Churches in that area for several weeks — until he is fully familiar with the needs. He will then return to Australia to coordinate the entire Australian and South-East Asian work.

Joining the office staff in January 1960 will be Mr. Charles Hefner from the mail reading staff here at headquarters. This three man team will have the responsibility of opening an entire new frontier — a new continent! What a challenge! What an opportunity for those who may qualify to serve there in the future.

Who will be qualified when God next calls? Are you ready?

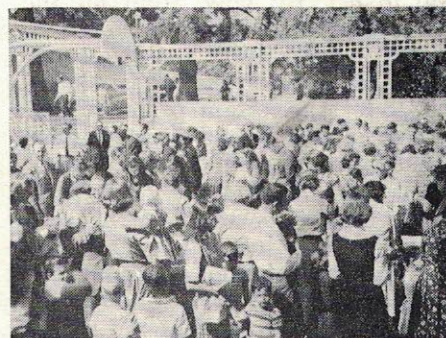

After leaving Mr. Waterhouse in Manila, Mr. Ted Armstrong will return to Los Angeles via Taipei, Taiwan and Tokyo. Mr. Armstrong's jet-flight will depart from Tokyo at 1:00 p.m. Saturday, December 5, Tokyo time. He will arrive at Los Angeles International Airport at 9:35 the morning *before* the afternoon he left and be in Pasadena to give us all the news on Sabbath afternoon — the same day.

OVER 900 ENJOY FEAST

By Ron Kelly

For the first time the Shakespeare Club was **FILLED TO CAPACITY** by the members of God's church. This memorable event took place on the Feast of Trumpets — Oct. 3. As **THE CHURCH OF GOD** continues to grow, the need for order and co-operation increases.

Even with such an increase, it seems everything has improved, though. In only one half an hour all of the 900 hungry men, women, and children had been through the serving line — a line which provided nearly everyone with his fill of fine *delicious food*.

Large turnout for Feast shows home expansion also.

And do you realize the entire congregation was able to leave the hall, drive to Ambassador campus, set up tables and serving lines, have such a scrumptious meal, and return to the hall for afternoon services in *just two hours*? It was done! Now these same 900, along with nearly *5000 more* from all over the United States, are preparing to travel to Gladewater to observe God's Holy days and learn more of His ways.

* * * *

Count that day lost,
Whose low descending Sun
Beholds from thy hand
No worthwhile thing done.

See You In Texas!

By Bill McDowell

The FEAST OF TABERNACLES — A joyous occasion to some; an enigma to others! As the PORTFOLIO goes to press for the last time before this feast, the members of God's Church as well as most of the college students are planning their journey.

We have all had sermons, articles, directions, talks, encouragements and exhortations on what to take, what to eat, where to go, what to do, and *how to act*. By now, from all the instruction we've had, we should be able to do everything just about perfectly. But experience has shown that at least a certain percentage of us is absolutely bound to make some mistakes in spite of our best intentions!

The reason for most of the mistakes made is just plain *forgetfulness*! Once we become accustomed to the Truth (which *so few* really understand), we *forget* that the people we meet on the way to the feast know nothing about this Way of life and probably care *less*! We forget that, at one time or another in our lives, we felt this to be a crazy, fanatical idea not worth listening to! It is because of this "forgetfulness" that the Feast actually becomes an *enigma* to some people!

Those people not in the Church and not listening to the WORLD TOMORROW broadcast don't want to hear the Truth . . . *about the sin of serving pork in restaurants . . . the abominable eating habits of our people . . . our national sin of Sabbath-breaking . . . etc., etc., etc.* Nor do they understand why anyone would want to *condemn* them verbally for their actions! But we *forget*

DOWN MEXICO WAY

Mr. Benjamin Rea will be leaving immediately after the Feast of Tabernacles for Saltillo, Mexico and the Universidad Interamericana. There he will pursue several courses in Spanish, adding to his Master's degree some of the required hours needed for a *doctorate*; and to begin his thesis for that high degree.

Mrs. Rea and Rafael will be staying with her parents in Georgia during Mr. Rea's six week course. May God be with and strengthen them all while they must be apart.

Sometime before the close of the first semester at Ambassador, about the 25th of December, Mr. Rea will return. He will be richer by many hours of study, many interesting experiences in a foreign country.

God's work grows as each member of His body grows individually.

God's speed, and come back safely, Sr. Rea.

Appreciation

By Ken Fischer

In a recent trip to Los Angeles, I was struck by a scene that was sickening. People were hungrily eating from a huge garbage can. A mere crust of bread, a bone with a little meat, or piece of cookie — all from the scrap barrel — was greatly appreciated.

Silently I thought about Ambassador College and all the happy lives filled with a *purpose*. I wonder if we appreciate the things that God has provided for us? The experience of observing people in such a condition and the results of it, instilled in my mind the need for a deeper appreciation for the wonderful blessings that we are privileged to share. Cast out the grumbling and complaining attitude that we usually generate. Let's show our appreciation the right way — by our conduct.

* * * *

The only thing wrong with the present "Beat Generation" is that they aren't beaten long or often enough!

* * * *

If you have trouble reading the numerals on your wrist watch — it is later than you think!

this, and wonder why they act strange when we tell them they shouldn't be serving that abominable pork in their restaurant!

These are only a few of the myriads of things which we "forget" that others don't understand. This year, let's REMEMBER that it is our *works* — *not what we SAY* — that serve as a light to the world!

"Israel's Watchmen"

By Gerhard O. Marx

Our excellent system of gathering news keeps us constantly aware of every-day happenings around the globe.

The Ambassador News Agency receives and covers the major newspapers and magazines of the world.

We must know a people before we can deal with them. Before God's Truth pierces and shakes these nations, the political, economic and social conditions must be studied.

England, France, Germany and the Scandinavian countries are covered by those who know their respective languages. Magazines and newspapers, such as the *Scandinavian Times*, the *Manchester Guardian*, *Paris Match*, *Der Spiegel*, *Frankfurter Allgemeine*, and others are the *tops* in these countries.

The foreign coverage is not limited to Europe. Israel, the Union of South Africa, Argentina, Brazil, Mexico, Canada — countries in all parts of the world — are closely observed through their own respective news services.

With these world-wide sources at our disposal, we can afford to *speak with authority*. We *watch* news events throughout the world, and explain their prophetic meaning. We are able to discern future events because we follow Christ's instruction to "WATCH and pray!"

AND STILL CHAMPIONS

By Ron Kelly

The court was filled! The *assumed championship* Monday night Ambassador Club was playing the challenging Thursday night "B" club. Midst the cheering and spiking and hustle of the Monday night club, the Thursday "B" club played as though they were not there — they weren't. For that reason the champion Monday club retains its crown and energetically prepares to defend a robust Tuesday night club after the Feast of Tabernacles.

Throughout the remainder of the year the Ambassador clubs hope to be the medium through which "get together" events can be held. Perhaps every other Sunday an exciting volley ball game will be held — championship will be at stake. Your Ambassador clubs will also be carrying on other special events and meetings for the benefit of the ladies and faculty. *Support* your club and *prepare* to use this tool for get togethers.

Procrastinator: One who puts off forever what he plans to do tomorrow.

Meet Mr. Clark

By Allen M. Goyette

The North Korean moon cast a dull glow across the corpse-strewn battlefield. For five days the area had been ripped and torn by constant shell fire from Chinese Communist artillery batteries. For five days the Chinese had churned and wrecked the mourning earth with death and destruction. For five days the American 1st Marine division had held 78,000 Chinese at bay along the icy shores of the Chosin Reservoir. But tonight, everything was quiet and still as haggard bloodstained Marines tried to catch their first sleep in a week.

Suddenly, the stillness of the night was disturbed by the eerie whine of a lone artillery shell; the only round fired that night. It exploded among the sleeping Marines with an ear-shattering roar. A young Marine groaned in pain; his head, arms and shoulders ripped with shrapnel; his boots and gloves torn off by the concussion. Medics rushed to the scene and administered first aid. He was then shipped to the Field Hospital at Yong Dong Poo where he was told he would never again be able to use his arms and legs. He was paralyzed from the neck down — a quadriplegic! He spent seven years in a wheel chair, unable to move his limbs; three years of that time he spent learning to read and write all over again.

Today that Marine is a student at Ambassador College — Mr. Howard Clark. He was anointed by God's ministers on the day of Pentecost last year and was healed the next day. Today he walks this campus as a living proof that God does heal!

GERMAN CLUB

"Der Deutscher Klub" held its largest meeting on Sept. 23, with an attendance of 52. Gerhard Marx gave a speech telling why there is a German Club. "It is here for the purpose of learning to speak so that later on we can help others to learn the truth of God in the German language."

Robert Neitsch is the president and Mr. Hoeh is the club sponsor. The club had an excellent start and since there is no such a thing as a German who doesn't like a good song, they ended with three!

* * * *

"Three-fourths of the world is under water, and the rest is all wet!"

* * * *

Many people are lonely because they build walls instead of bridges.

SNACK BAR NEWS

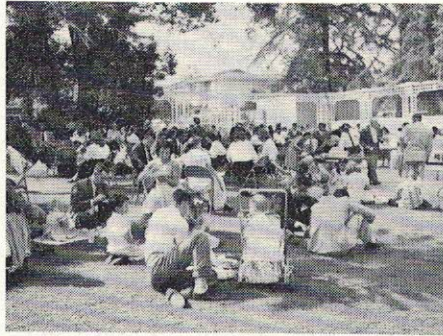

Ambassador Hall is *your place* for recreation! It is a wonderful place to help you gain a well-rounded personality. Here you can become better acquainted with many of your fellow students. You can enjoy playing your favorite game or singing those special songs with others while gathered around the piano.

You can relax with your favorite flavor of malt, sundae, or even a delicious hamburger made to order. Does your mouth begin to water? Just think how it feels when such snacks soothe the pains of hunger as you joyfully converse with those around you.

What happens to the juniors and seniors on Saturday nights? Where do you hide? Ambassador Hall is *your place* also!

Needed — records for taping some good music of fox trots, jitterbugs and waltzes! Don't worry we won't keep the records. If you do have some, please see Kelly Barfield as soon as possible. With your help the dancing will be in full swing at Ambassador Hall soon.

See you there!

Campus provides ample space for enjoyable Feast.

Feast Tips

By Karen Kunkel

Tips from Mr. Ted Armstrong might be of help for an enjoyable and practical stay at the Feast. Mr. Armstrong suggested taking your skates — there might be a skating party. Next, remember your bathing suit — you may go swimming. Have that fishing rod handy 'cause there are a few good lakes around. Take your gun — there's huntin' in "them thar woods!" TAKE THE PRACTICAL THINGS OF LIFE!!

Take your raincoat and plenty of warm clothing. That Texas weather is unpredictable! Girls, be sure and take your party dress — dinner and dancing may be on the agenda. And remember, you're only going for a WEEK!

Broadcast Growth

God has again opened new doors to His Work. The "little strength" has been augmented once more by the addition of thousands of more watts of broadcasting power.

The *number one* mail pulling station, WCKY, Cincinnati. The time is 5:30 A.M., across the board. Early you say? Yes, but God's own Word tells us that he sends His prophets to shout their warning message to this world . . . "rising up early!"

WSM, Nashville, will bring the WORLD TOMORROW thundering in on the heels of "Grand Ole Opry" at 12 midnight. No matter when, from the dawn to the deepest darkness, God's message blasts its trumpet warning over the air waves of this nation Israel.

Oklahoma City also joins the ranks with KBYE and Miami, Florida, finally fills in a gap in that area with WMIE. Both of these stations have given us time straight across the board — seven days a week!

FRENCH CLUB

Sounds of laughter, joy and French phrases issued from the Oak Room of Mayfair, Wednesday night at 6 p.m. It was September the 9th, the first meeting of the "Club Francais." There were games of educational value and entertainment. Conray Jennings organized the evening's activities and was master of ceremonies. The "Cafe au lait" was accompanied by music.

Mr. Apartian, sponsor of the French Club, welcomed the new students of the French language and encouraged the older ones. He said that all should strive in their French to serve and glorify God. After an evening of enjoyment and the singing of "Reste Avec Nous Seigneur," the meeting was dismissed by the president, Tom Blackwell.

* * * *

A person who always carries a chip on his shoulder usually has wood higher up.

* * * *

Men are born with two eyes, but with one tongue in order that they may see twice as much as they can say.

* * * *

Even if you are on the right track, you will get run over if you just sit there.

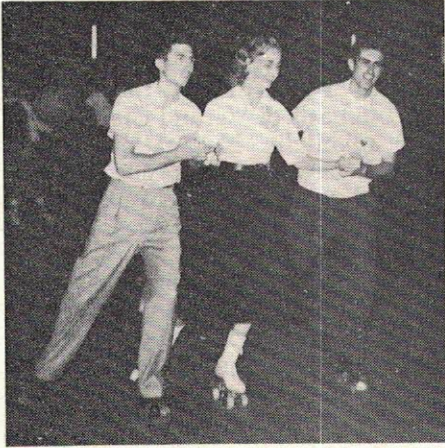

* * * *

While we often grumble because we can't have what we want, we should be thankful that often times we don't get what we deserve.

CARAVAN OF CHAIRS

The janitor crew of Ambassador College has "gone modern." Instead of seeing chair-laden janitors you now see a caravan of chairs being rolled about on new carts.

The new carts have cut the transportation time considerably. These carts are another example of the growth in all departments of God's College.

Can three stand — lest they roll together?

AMBASSADORS ON WHEELS

The wheels of joy spun merrily to the movement of 400 happy feet as Ambassador College invaded the Moonlight Skating Rink for an evening of fun and relaxation. Approximately 200 happy students joined hearts to make the party a resounding success.

Commencing Monday, September 28, at 8 P.M. and lasting for three hours, beginners, average skaters, and a few skaters of exceptional talent kept the roller rink whirring as they circled the floor. The old adage "Experience is the best teacher" received a thorough workout as several skaters found out that wood floors are not the softest things on which to fall. The steady whir of roller wheels was occasionally punctuated by a dull thud as old hands as well as inexperienced skaters bit the dust — proving that splattering the splinters is not an experience reserved only for novices.

However, in spite of falls, collisions, and traffic jams, everyone had a good time and left with their visages marred only with contented smiles.

Doctor, to Cockney patient — "Now, my man, what about this ear?"

Patient — "This 'ere wot?"

Alex Dreier.

TV — Good or Bad?

By Ken Fischer

Ever wonder what it takes to implant wrong thoughts and motives in a person's mind? With the nation's crime rate growing by leaps and bounds, something must be the cause. The cause may be various things. It would be interesting to notice a recent survey conducted by the National Association for Better TV. I think you will begin to understand a little better on what TV offers.

It was learned that in one week big city viewers watched 223 killings of human beings. They included:

- 161 murders
- 60 justifiable homicides
- 2 suicides
- 192 attempted murders
- 83 robberies
- 15 kidnappings
- 24 conspiracies to commit murder

Add this up for one year and you can see how good TV is to the average mind. The only real good thing that will ever appear on TV — God willing — will be the WORLD TOMORROW. This would be something to remember in your prayers.

* * * *

Ray Lading is so tall he has to stand on a chair to brush his teeth.

SPANISH CLUB

The first meeting of "El Club de Espanol" resulted in great interest for the students of the Spanish Language. The president, Mr. Al Portune, read a comic dialogue to stimulate interest.

A tape of the Spanish broadcast, "El Mundo de Manana," by Sr. Benjamin Rea, was heard and when the tape was finished, Sr. Rea, as Club Sponsor, gave a few words of food for thought: "God has given the Spanish Department and the Club to the students as a gift — and as a gift, it should become a living part of your lives to be used at all times." The club ended with the singing of several songs, the last of them being "Cancion Mixteca."

Australia Bound

By Joey Davis

Charles Hefner is headed for the land of kangaroos! Charles is eagerly awaiting the end of the semester when he'll be on his way to work in the new Australian office to help handle incoming mail.

Charles plans a trip back home to West Virginia before his 4000 mile trip to the land down under. The PORTFOLIO and the entire student body heartily congratulate your achievement, Charles Hefner!

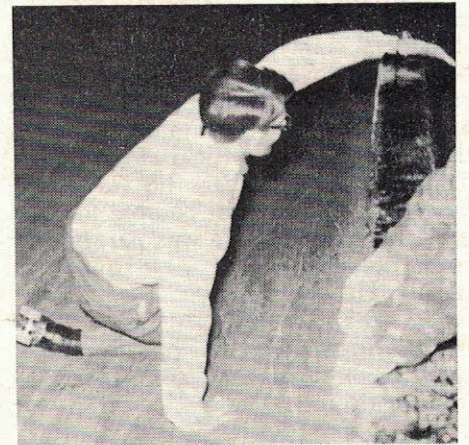

EUROPE VIA SLIDES

"I just couldn't resist shooting this one!" exclaimed Mr. Ted Armstrong. He wasn't speaking of his favorite sport, but giving the narration for the magnificent color slides shown during the last assembly.

Once in 1956 and again this past summer Mr. Armstrong spent several weeks in Europe. While he was there, fortunately for us, he found more than one sight he couldn't resist capturing on film.

These trips strengthen the work abroad and let us see and hear about the famous landmarks from Paris to Rome! The way the grand mountains and picturesque little villages drew exclamations of approval — it is no wonder Switzerland is the land of tourists.

Maybe one day we will again travel across Europe via Mr. Armstrong's camera.

David was excused from exercises for next three days.

SLURP — SLURP — SLURP

By Joey Davis

SLOW DOWN! Next mealtime, use this valuable time for chatting with your neighbor. Worthwhile conversation builds character and helps you to have a greater understanding of people. So *slow down* next meal and chat with your neighbor — see how much you both will benefit.

* * * *

"Traveled all over the world, eh?"

"Went up the Rhine, I suppose?"

"Yep, clear to the top!"

"Saw the Lion of St. Mark?"

"Fed it."

"Visited the Black Sea?"

"Sure did — filled my pen there!"

* * * *

Leroy C.: "In class Mr. Herrmann disproved evolution. To generate thought he queried, What would be your response to your small child's question, 'Daddy, why does a monkey have ears like mine?'"

Guy A.: I'd wonder why the child called me "Daddy."
