

AMBASSADOR COLLEGE ----- PASADENA CALIFORNIA

Volume XI, Number 2

October 26, 1961

TABERNACLE FEAST WORLD WIDE

FIVE NEW CHURCHES

Kansas City

The Kansas City Church opened on October 7 with a RECORD SETTING ATTENDANCE of 270—150 children and 120 adults! Mr. Meredith expressed his appreciation for such an "enthusiastic start." Mr. Bryce Clark, the Pastor, brought the sermonette and Mr. Meredith spoke on what the church should be like. Membership is expected to stay about 200.

Oakland

Mr. Ron Kelly opened the church in Oakland on the first Sabbath following the Feast. With the Sacramento church membership being cut from nearly 300 to 145, we can see that the 150 people attending the Oakland church no longer have to drive so many miles on God's Sabbath to attend services.

Bakersfield

In Bakersfield, 43 adults and 21 children attended the new church to be pastored by Mr. Meredith with Mr. Al Dennis as assistant pastor. The number attending was larger than expected because many came from a great distance to attend opening services.

Phoenix

Mr. Hill is a flying minister! On the 4th of October he made his inaugural flight to Phoenix, where he conducted opening services of the only congregation in the "sunshine state." Because only those members in Arizona who attended the Feast knew about the new church, only 8 people came for the first service. All but two of the members in that "arid" (cont. page two)

Here is Blythe Arena, and all the facilities God supplied at Squaw Valley!

SQUAW VALLEY

3200 ATTEND FEAST AT SQUAW VALLEY! High up in the Sierra Nevada under crystal blue skies and amid towering granite peaks covered with stately pines, 3200 happy, cheerful children of God met to rejoice in the Feast of Tabernacles. Though the crisp mountain air was thin and the night air nippy, there was no room for complaint at the second largest gathering of God's Church this year.

The food was excellent and the lodging fine, on the whole. AND that weather! It was enough to make a lung-caked Pasadenan want to live again! And where have God's people ever assembled so physically close to Him? It surely must have been the grandest Feast in all history!

Although the altitude did affect some, it certainly didn't slow down the song leaders (whose brisk tempo was strictly from self preservation). High elevation and chill climate seemed to give the speakers greater power as they drove home the over-all message of what we are, where we are going, the task before us, and the SHORT TIME (or lack of it) that we have left to work in.

All in all, it was a perfect Feast in a perfect setting and everyone left with appetite whetted for more!

TEXAS

Gladewater attendance showed little drop this year as compared to last year's Feast attendance! Even though more than three thousand members of the eight Western-most states did not attend the Feast in Gladewater this year, attendance stayed level with nearly 6500 registering for the eight days---a vivid picture of how fast GOD'S CHURCH IS GROWING!

A beaming, happy though sweat-soaked, crowd sat through the East Texas heat to hear God's ministers explain many of the goals of life and how to achieve those goals. The weather held clear for the most part even though it was very muggy and hot for most of the Feast.

Those who attended at Gladewater claim it was the best Feast ever, but how can this be when we who attended at Squaw Valley know that it was the best? Then too, those Englishmen claim their Feast couldn't be topped either, and so do those in Kangaroo Land! Guess we'll have to call it a draw. Wherever God's people meet in peace and harmony is (cont. page two)

STUDENT BODY OFFICERS

Art Craig Dave Mills Sherwin McMichael Bob Bertuzzi Denny Luker George Kemnitz

Sherwin McMichael

Twenty-one year old Sherwin McMichael is a native son! Well—practically. He was born in Los Angeles, California way back in 1941 and didn't move to Salinas, Kansas until he was one-and-a-half. Completing the cycle, a native son has returned.

Sherwin entered Ambassador College three years ago with the same enthusiasm that continues in his life. Taking the admonishment of past student leaders to heart, he joined whole-heartedly into many activities and projects on the campus. His driving zeal has kept Sherwin growing in the experience so necessary to his present office as Student Body President.

Prior to this summer's Baptizing Tour, Sherwin worked for two years in the News Bureau. Following the tour, he was assigned to the Mail Receiving staff where he works as other duties permit. In addition to reading mail and tending to campus duties, Sherwin is also a member of the local Visiting Program as well as President of the Thursday night Ambassador Club, Section "A." If you like the sound of his voice, you may hear him five mornings a week at 6:30 a.m. on the athletic field leading his squad through those invigorating exercises.

Arthur Craig

In the small, serene, sleepy, southern community of Pleasant Hill, Miss., Art Craig was born! Art was born into a splitting family. His father lived in Pleasant Hill; his mother in Memphis, Tenn. After high school, he attended "Old Miss." for one full year.

Most of us have found that education takes money, and so did Art. For the next two years, he worked in an electric Hall No. 2, Santa Barbara, California. The rousing sound of a brand new congregation, singing praises to our Creator had prompted this unexpected back-door visitor to our balcony. (cont. page four)

trical company, a warehouse and finally at a branch of Ford Motors.

During his job at Ford, Art heard the broadcast. A year later he requested baptism. The baptizing tour advised him to apply for College.

For two years he worked on the Janitor Crew, and last year he was transferred to Mail Reading--then a baptizing tour--now vice-president of the student body--next...

David Mills

Your Senior class president for this college year is the man with the big smile, David Mills.

David came to Ambassador College from a tobacco farm near Wallace, North Carolina, where he was born and reared. As a high school student, he took an active part in basketball, his favorite sport.

Filling the capacity as Junior class president last year afforded David much valuable experience to help him better fulfill his responsibilities this year.

Ask David about some of the many experiences he gained this past summer with Mr. Hal Baird on a baptizing tour throughout the southern states.

Presently, David is the monitor of all three dormitories on Green Street. His campus job is Mail Reading.

The next time you see David, greet him with a big smile and see if you won't get one back!

Dennis Luker

Our new Junior class president is 24 year old Dennis G. Luker. Four years at the University of Delaware netted him a B.S. in Mechanical Engineering and a responsible position with North American Aviation. Denny taught geography and science in Imperial last year in addition to instructing a horde of novice swimmers in the College. He is currently serving as a squad leader in our morning exercises besides his regular duties in Mail Reading.

(cont. page three)

Feast of Tabernacles cont'd
surely the best place on earth.

ENGLAND

The greatest throng of people ever known to attend the Feast of Tabernacles in Great Britain came from 27 nations to gather together in Christian fellowship. Four-hundred-seventy people set a new attendance record more than doubling last year's figure of 234!

There was little illness as near perfect weather greeted those congregating from such far-off lands as Java, Nicaragua and the Azores.

Thirty-four new brethren were baptized during the eight exciting, happy days. An added highlight of the Feast, and one of its outstanding happenings, was the ordination of Mr. Howard Silcox as the first native-born Deacon in the modern era of God's Church in England!

All left the Feast refreshed in body and spirit with renewed dedication and zeal.

AFRICA

The brethren in Petauke, South Africa congregated in Mr. Joseph Mwambula's home for the Feast of Tabernacles in that far away country. One hundred and fifteen adults and one hundred and twenty-five children studied God's Word together. Currently, Mr. Mwambula is conducting Bible studies every evening in his house and is also visiting nearby villages. We can all be thankful for the growth of the African work.

Five Churches cont'd
state will be able to attend regularly!

Santa Barbara

The tousled head of a curious lad appeared visible through the open door behind the pulpit on second floor, Carillo

George Kemnitz

A wave of approval swept through the audience when George Kemnitz was announced as this year's Sophomore Class President.

George, who hails from Milwaukee, is a person of boundless energy and enthusiasm. He attended the Milwaukee Church with his parents for about a year before coming to College.

During his four years of high school, George was a busy man. He showed his athletic prowess by winning two consecutive Wisconsin State Sectional Wrestling Championships in his weight division. He also met with considerable success on the track team.

As a literary accomplishment he edited his senior year book.

George has a motto which we would all do well to heed: "If it's right, do it!!"

Bob Bertuzzi

With twenty-seven years of jam-packed experience behind him, Bob Bertuzzi has landed at Ambassador. He is a Dunkirk, New Yorker by birth.

In high school, Bob was active in almost every available sport. After one year in college, he went into business for himself, and converted a once failing restaurant into a lucrative and fascinating business—not bad for a youth of just twenty years! But, circumstances brought this to a close. Since then, Bob has driven a cab, worked as a telephone lineman, harvested vegetables, ground brake linings, laid giant pipe, you name it! He even spent a year in Italy where he ate pizza under a leaning antique skyscraper.

Two months ago, he was working for General Dynamics Astronautics at San Diego when Mr. Portune asked him one Sabbath, "Have you ever considered going to AMBASSADOR?" Bob answered, "Well" "THEN CONSIDER IT!" was Mr. Portune's reply.

All things considered, Bob is now the Freshman Class President!

Imperial

Record growth has taken place this year in the Imperial Grade School. A record enrollment of 127 for the first thru the sixth grades. There are two first grades! Two new buildings have been added with a total of three more class rooms. For the first time Imperial School has an audio-visual room!

A total of SEVEN new teachers were hired this year. They are: Peggy McGill, Melba Flatt, Roger Clark, Ellen Lingo, Howard Colby, George Bishop, and Janette Smith.

Many other facilities have been added: new offices, a driver-training course, to name but two.

Tour Summary

"IF GOD BE FOR YOU WHO CAN BE AGAINST YOU?"

The power backing this scripture has again been demonstrated through the successful culmination of the baptising tours sent from Ambassador College each year.

The reports received at Headquarters from the tours have painted a triumphant picture of hundreds of people whose lives have been turned and headed in the right direction.

The seven full, and several special, baptising teams have reported over 68,000 miles traveled—a record amount!

Seventeen hundred people had requested to be met by the tours this year. The saddening part was that 500 did not meet with the teams. However, 560 people were able to count the cost and were added to GOD'S Church.

Each year we have several new developments in the summer baptising program. This year has been no exception. Not only has there been a record number of tours sent out, but also 3 ordained Ministers were available to lead full length tours.

A special tour by God's Evangelist Mr. Roderick Meredith accompanied by Mr. Dibar Apartian went through Northern California and the southern part of Oregon. Another special full length tour was taken by Mr. Harold Jackson and his wife. They were able to go through the southern states, visiting not only those who requested baptism but also many scattered brethren. Much joy was taken to those people who cannot ordinarily meet in local churches.

Not only is the harvest bountiful throughout the scattered areas of the United States, but also in the many local church areas. As we go to press we have an approximate total of 241 people baptized in local churches this summer. With not all reports in as yet we can publish the grand total of 801 people baptized this summer in America and Canada.

We should really rejoice brethren that in this rushing, climactic end time we at Ambassador College have had the opportunity to serve so many. We should be thankful that all the baptising tours have been safely completed.

NEW DEPARTMENT

Ambassador College has taken another big step forward with the formation of a brand-new Shipping and Receiving Department in order to better coordinate all shipping. Mr. Homer Jamison has been placed in charge of this new department which is located at 318 Camden adjacent to the Transportation Department. Phone 338 for service.

fire-fire!

Imperial School played host to three fire trucks and a heater explosion last Wednesday, October 11.

The crimson hook-and-ladder truck veered to a sudden halt on Terrace Drive. Close on its heels were a pump truck and a motorcycle bearing a helmeted member of Pasadena's finest.

What had happened?

It all started about 5:00 p.m. when janitor Mr. Schippert decided to light the heater in the classroom of the elementary school building. The gas connection was loose and instead of emanating warmth, sparks began to fly!

SPANISH CLUB

The placid walls of Mayfair had a real awakening last Wednesday evening. The event: THE SPANISH CLUB WAS IN SESSION!

The Club started with a bang as President Rowlen Tucker opened the meeting amid shouts of "Viva Mexico." The President gave a short introduction for the new members. Mr. Wofford next gave each new member of the club the opportunity to introduce himself. Mr. Dorothy explained the meaning of the Club's Flag.

After the break, Mr. Dorothy took charge of the meeting. He told the Club of a NEW FIRST. The Spanish Club will be meeting every other week! One week food will be served, and conversation (?) around the table will be in Spanish. There will be no actual formal program. Then at the next meeting a formal format will be followed. No food will be served—conversation only!

New York's Blue Sea Restaurant puts tranquilizers in its tank so the lobsters won't fight.

GOOD NEWS FROM A FAR COUNTRY!

"And ye shall take ye . . . boughs of goodly trees . . . branches of palm trees . . ."
Lev. 23:39-42 Mr. Joseph extreme left (above)

Mr. Leo Joseph, center in doorway, and the West Indian Congregation. (to the right)

OFFICE CHANGES

Recently Mr. LeRoy Neff informed five men that their employment with their respective departments was about to terminate! Fired??? No! They were to be transferred to the Mail Receiving Department!

Additional men will receive a phone call or tap on the shoulder in the near future and also be told their services are needed in the Mail Receiving Department to help read. . . . So get ready.

Mr. James Doak and LeRoy Diem both came to the department from the mailing office. The Gardening Department sent us Waldo Reedy. Virgil Cox worked in the Janitor Department before his promotion. The fifth man, John Hawkins, was transferred from LAD.

Another recent addition to the staff, Mr. Marion McNair, was previously employed by stations KRIG radio and KOSA TV in Odessa, Texas.

Mr. Raymond Dick has been moved over to Letter Answering where he will take-up his new duties as soon as Mail Reading catches up with the Feast backlog.

The News Bureau continues to grow and Ron McNeil was added to the staff October 13.

Congratulations, men! This is another opportunity for you to grow with God's constantly growing work.

Five Churches cont'd

Services began at 1:30 P.M. on September 9, 1961, with forty-two of God's people listening to Mr. Leslie McCullough's sermonette, "Serve God in Keeping His Sabbath," and the main message, "Nature of Healing," brought by Mr. Selmer L. Hegvold, pastor of this, one of God's newest churches.

PAGE FOUR

The British West Indies was the site of one of the least, in number, of the seven places where the great Fall Feast was held this year. However, the people observing the Holy Days there are also of Christ's body---and here is their representative story in word and picture!

There was such unspeakable joy at the Feast of Tabernacles in Santa Lucia, BWI, that the brethren wanted the Festival to last sixteen days instead of eight!

Meeting at a beautiful site near Mr. Leo Joseph's home, God blessed the brethren with bright and fair weather during the day time. However, God replenished the brethren's water tanks with light showers at night.

RADIO REPORT

Good news continues to come from our radio studios as the WORLD TOMORROW program surges ahead with power and effectiveness world wide! Twelve of our best and most powerful stations have offered us better times. We will now reach many areas with UNPARALLELED POWER and ability to reach the working class of people. These new hours should add many thousands of MEN to our listening audience.

Station 2XM—Gisborne, Australia was recently added to the growing number of Australian broadcasters carrying our message to the Island Continent.

The biggest news of all is that 50,000 Watt Radio Station CFRN, Edmonton, Alberta, Canada has opened the 7:30 p. m. slot straight across the board to the WORLD TOMORROW broadcast! This will open up the barely-touched region of central Canada, Montana and North Dakota.

The work is growing, are your prayers behind it?

Hollywood's Golden Rule seems to be, "Thou shalt love one, another, and another."

Food and drink in abundance were provided by the twenty-eight adults and twenty children present at the Feast. Some brought fruit and vegetables, some brought eggs, and some brought sheep. Lambs were killed and eaten right on the grounds.

Mr. Joseph constructed the booths with Palm tree branches in order to strictly follow the command in Leviticus 23:40. They were a beautiful sight to see and added immeasurably to the brethren's enjoyment of the Feast.

Mr. Joseph fed the brethren spiritually with some fine sermons.

AUSTRALIA

VERY IMPORTANT NOTICE!

AUSTRALIA—October 5, 1961. Our URGENT request is again and again to be sure that all mail sent to our Australian office include this title NORTH when directing correspondence to Sydney. When only "Sydney" is given, your letters end up in another Box 345. That box belongs to a very ANTAGONISTIC individual who insists the Radio Church of God "GO HOME!"

1962 ENVOY!

Ambassadors for Christ, trained at His Colleges are too few in number! The majority of God's scattered flock does not have the opportunity to be visited personally by one of His ministers. But the ENVOY, as a messenger from God's own college CAN be sent out to EVERY church family that desires it!

What is an ENVOY? It is a messenger, commissioned by a government, as a representative in a foreign country. In diplomatic circles, an Envoy is next in rank to an Ambassador.

What is the ENVOY? The ENVOY (pronounced AHNvoy) is the yearbook of TWO Ambassador Colleges, produced by the students of our Pictorial Journalism classes. Much more than just a record

(cont. page six)

NEWS BRIEFS

Baby Robinson Bounces In

Mr. and Mrs. J. W. Robinson are proud to announce the birth of a bouncing baby boy, Geoffrey David Robinson. Delivered at 8:50 Wednesday morning, he weighed in at a healthy eight pounds flat. The Robinsons also have two little girls.

Teen Dance

On Saturday night during the Feast of Tabernacles at Squaw Valley this year, the teen-agers not attending Ambassador College had a special dance put on for them. Professional music was provided by a five-man band hired from Reno.

A special program of singing, music, and jokes was provided by Imperial High School students and recent graduates.

The semi-formal dance ended at half-past twelve, and the tired but happy teen-agers left the California Olympic Center for their temporary homes.

Imperial Guide

Within the next few weeks Imperial High School students will no longer have an excuse for not knowing the "ins and outs" of Imperial High School. They will find in their hands a fresh copy of a newly printed bulletin titled "Your Guide to Imperial High Schools."

This 60-page handbook has been in preparation for several months and will come off the press in the near future. The bulletin will introduce students and parents to the program of studies for the high school. It will serve as an outline of the school's courses of study.

Alaskan Journey

On Sunday morning, August 13, Mr. Jimmy Friddle boarded a plane for Ketchikan, Alaska. There is no access to this city by road—the only entrance is by plane or ferry. Mr. Friddle landed on an island outside of the city. One outstanding thing about the city is that there are 28 miles of road and 3500 cars. We think we have traffic problems!

There in the city, Mr. Friddle was very favorably met by one family who had requested baptism. After a delightful meal of venison that had just been killed outside of their house, Mr. Friddle baptized five, all in the same family!

From Ketchikan he flew to Anchorage and from there on to Homer, Alaska, visiting people in both cities.

Mr. Friddle returned home Thursday, August 17. Now we have twelve brethren in Alaska!

Hammers Here In '63

The Tony Hammers will return to Pasadena for the coming ministerial conference... then, perhaps, to stay in '63.

Ray Johnson Squeezes Lemon

October 23, Ray Johnson of the Imperial Grade School staff engaged in a right-of-way dispute with another motorist. Result—one totally wrecked Citroen. Fortunately, Ray was alone at the time of the accident and no one was injured.

Sorry to hear of your loss Ray, but glad you weren't hurt.

Envoy Sales

Sales for the 1962 ENVOY at the Feast were recorded at slightly over four thousand dollars. This will act as a down-payment on each annual and will allow for more pages and more color in the expanded 1962 ENVOY.

Kellys' Expecting

Realizing the need for practical experience in child rearing to better qualify to help others with their problems, Mr. Ron Kelly and wife, Norva Lee, have decided to gain experience first hand. They are expecting their first prob... er, heir along about Passover time.

Chorale Officers

At the first meeting of the Chorale after the Feast, Chorale officers were announced. Dave Albert was given the responsibilities of Chorale President. Ron Miller became manager; LeRoy Diem, secretary-treasurer; and Joyce Sefcak, assisted by Barbara Ochs and Paula Hegvold, will be Chorale Librarian.

With sixty members this year, the Chorale promises to be bigger and better than ever!

Kelly-Dennis Engaged

Bernard Kelly recently popped the question to Norma Dennis and got popped back with a solid YES! It'll soon be Mr. and Mrs. Bernard Kelly. (How does it look, Norma?) Nuptials are set for Thanksgiving Day, after Bernard's head clears.

PORTUGUESE CLUB MEETS

The sixteen members of "O clube de portugueses" met for the first time on October 18 in the southwest section of Mayfair.

The theme of the evening was "The Music of Portugal." Mr. Davies opened the meeting with a toast of imported wine to the success of the new club. Mr. Doak followed by having everyone introduce himself. Bill Swanson led the singing of "Firme nas Promessas" ("Standing on the Promises"). Mr. Pestana followed with a speech on Portugal in which he concluded that the philosophy of the people there is: "To sing is not to sin."

Mr. Davies' plan for the future is "Progress!"

McNair Ochs Wed

Sunday, September 17, 5:40 p. m., the groom, Mr. Carl McNair, waited for his lovely bride. Mr. Ochs and family made the journey from Milwaukee to Pasadena to give away their Dorothy!

A private reception was held at the home of Mr. Roderick Meredith where a very tasteful French setting was created on the patio by Mr. Dibar Apartian.

Since the Feast these newlyweds have been touring the Southeast counseling with the scattered brethren.

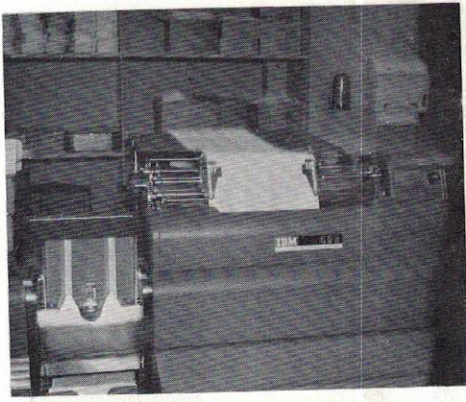

ITALIAN WORK BEGINS

A new and important branch of God's work might well be hinted at by Mr. and Mrs. Frank Inglima's voyage to Italy this past summer. The Inglimas embarked from New York aboard an Italian Line steamer, destination: University of Florence, Firenze, Italia. Where Mr. Inglima gained a background sufficient to present Ambassador College a new course which began this fall: ELEMENTARY ITALIAN!

During their nine weeks' visit, the Inglimas found Italy to be a land of many balconies, potted flowers, narrow streets, tall buildings, statues, fountains—and crowded, romantic people.

Mr. Inglima was surprised to hear his own university professors openly place much blame for Italy's poor living standards upon the shoulders of the Roman church. Hope in, and for, a soon-to-come European political union was often expressed!

IBM Showcase

Our energetic office staff has won another battle against the waste of time, money, and man-power. They have procured the IBM 403 Alphabetical Accounting Machine which automatically totals and checks co-worker donations. As cards are inserted into this striking mechanism, receipts are AUTOMATICALLY MADE AND MAILED OUT the same day!

Then the cards enter a Sorter, where they are alphabetized, and returned to an Interpreter along with ledger cards from co-worker files. The Interpreter inspects the cards and posts the date, amount, type of donation, etc. on the ledger cards.

In addition, IBM 403 enables us to accumulate totals, print them, verify the amounts, and segregate items within the totals in breakdown form.

This magnificent apparatus permits us to determine the number of people named in files who become co-workers after receiving the PLAIN TRUTH for one year, two years, etc.

This statistical information enables us to forecast FUTURE GROWTH!

We can all be thankful that God has once again opened a door that could culminate in FULL DATA PROCESSING, including a mailing list surpassing perhaps 10 MILLION!

"WASHOUT"

Do your clothes become a little dirty after you have worn them for a while? Well, mine do too! But I found the solution—wash them!

Four powerful washers and two scream-dryers (more machines coming) await your use at Ambassador's modern Washateria. You pay twenty-five cents for your washing and receive your drying free. Your bleach and soap are included in the washing price. Only mother could beat a bargain like that!

These gleaming facilities are open for the use of all students from 6 A. M. to 10 P. M. The Washateria is located on the little street (Mentoria Court) at the base of Mayfair hill. Use it often. Make this the cleanest year of your life!

New Quarters

In keeping with the pace of the age—Ambassador College has been shooting forward in growth. As most of you recall, we were bulging at the seams last semester.

Something HAD to be done to provide room for the incoming Freshmen. To abate the situation two large apartment houses have been converted to dormitories. A "crash program" had to be initiated so that these dorms and other buildings would be completed and ready by September.

Vernon-Del Mar, with ample space for more than 30 men, is the name given for the "new" men's dorm. It had to be fumigated and repainted, and re-furnished—the usual! Then it was shined and polished, ready to be re-plenished with inhabitants—male students of the husky, virile, fast walking kind.

Our girls too have been provided more room. The apartment house just north of Murphy House has been completely remodeled, providing another fine residence for our women. The new name—Grove Terrace.

In addition to our new dorms, Mayfair has been completely rejuvenated with new carpets, newly refinished furniture, new tile bathrooms, new paint—etc.! Mayfair has become another Ambassador "showcase!"

At last Mrs. Mann will allow her girls to hold open house. We're looking forward to that day!

After all is said and done about the new dorms and the remodeling of many of our buildings we are left with the perennial problem—we're still bulging at the seams!!!

little italy !

"Ciao!" (pronounced "Chow!"), "Buona sera" and similar strange sounds wafted through closed Mayfair doors. The occasion: The first meeting ever of our new ITALIAN CLUB!

Since the object of the club was to put into practical use this newly developing tongue, the meeting proceeded in unusual quiet. Requests for food and drinks were made in Italian—and nobody left hungry. (Apparently, a mere pointing of the index finger toward a desired item, accompanied by a grunt is a normal and legitimate stage in the development of a new language!

After eating to a background of Italian music and then making some music of their own, officers were announced, readings were made and all members experienced the thrill of using (limited tho it was) their new language. But they are an enthusiastic group and have said, "Keep your eyes open, and it won't be long before you can see a DA - GO by!"

PLAGUE STRIKES AGAIN!

In the murky darkness of the lonely night, the frantic pounding of racing feet was heard thundering down the hallways of Ambassador Dorms. Following last Saturday night's dinner of cold lamb, the heavy eaters were soon separated from their more righteous brethren as Mr. Mott's Handy-Dandy, Sure-Fire separator stealthily took its toll.

The common greetings of past days have been: "Gang way!" and "You too?"

ENVOY! CONTINUED

of the year's activities, it provides a link, a bond of brotherhood between our student-bodies and the church membership—helping us realize much more fully that we are all members of a single body.

The ENVOY has a unique position among college yearbooks. Advertising, which usually pays a high portion of the publishing cost, has been left out entirely! Subscription to the ENVOY is open to the entire church membership.

Others, too, are interested in Ambassador College. Radio station managers and other businessmen are often introduced to the college thru the ENVOY. Parents of students always enjoy having a copy.

With only thirty-one graduates last year, a colossal order of three thousand copies was placed. Just a very few of the top colleges in this nation can match or surpass this record. Our huge circulation enables us to keep the unit cost low and eliminate advertising. As the college and church grow, the circulation grows with them.

A better book each year, yet the cost to you remains the same! Expected customers this year: FOUR thousand! New features and more color are planned for this year's ENVOY. Be watching for the 1962 ENVOY!

NEWS

Garland Cambell is now the man to see for supplies. Jim Doak, who was filling this position, has been transferred to Mail Reading. You can call Garland at 218 or see his assistants, John Petrisor and Fred Coulter.

If you need machine repairs, see Nelson Doucet.

Do you have any questions about the files? Call Ken Fischer at 206.

For mailing, it's Guy Ames! He can save you money when mailing packages. Call 213.

Mr. Ted Gould is now responsible for scheduling all work that goes through the art department.

Margaret Gunter and Della Horn are Literature typing supervisors.

Art Docken is Mr. Mauck's Administrative Aide. In their absence, call their assistant, Mr. Gould at 218.
