

AMBASSADOR COLLEGE ----- PASADENA CALIFORNIA

WHAT, ME WORRY?

I've Got My Date For THE JUNIOR DANCE

The SPARKLING JUNIOR CLASS is throwing the TOP AFFAIR OF THE YEAR. The date is set for March 16. The refreshments "HAVE NEVER BEFORE BEEN EQUAL-ED." Who will be the M. C.??

There will be a TOP FLIGHT BAND and a BIG VARIETY of musical selections. All of the FACULTY, MINISTERS, AND STUDENTS are invited.

ETTINGER HONORED

Mr. Ettinger has been named a "Fellow" in the National Association of Teachers of Singing. This is an honor not lightly bestowed, the award has come to only six others in Southern California.

The fellowship is administered by the American Institute of Vocal Pedagogy composed of such institutions as Ohio State University, Northwestern University, Chicago Conservatory of Music.

Those who qualify are examined as to professional ability in music, languages, and allied subjects. The honor bestowed on Mr. Ettinger not only reflects his long years of achievement but also brings national recognition to the vocal faculty of Ambassador College.

NEWEST CHURCH OF GOD Wichita, Kansas

BEACHHEAD SECURED! February 25, 1961, brought about the establishment of a new beachhead by the Radio Church of God in Wichita, Kansas. At 1:30 PM, Mr. Allen Manteufel opened a new onslaught against one of the archenemies of the Church of God--the shortage of a place in which to meet and worship God.

This beachhead is only a toe-hold in the vast expanse of the "field." But to the 101 meeting for the very first time in their own local church, IT WAS THE ANSWER TO THEIR PRAYERS.

Three And A Half Million Pieces Of

The attendance was a pleasant surprise to the Manteufel's since there had not yet been a letter from Headquarters to the brethren in Kansas giving the details of the new church. The only ones who knew about it were the members Mr. Manteufel was able to visit ahead of time and the other brethren whom they in turn informed. The 101 present were composed of 48 adults (that's 4 times 12!) and 53 children. Many came to the services from over 70 miles distance.

The new Church meets in the 20th Century Club in Wichita. The members here will also have the privilege of having the Passover and Days of Unleavened Bread services available to them in the same hall. For some this will be the first time these services have ever been close enough to attend. For others HUNDREDS OF MILES will be cut off the trip normally made to observe these days.

The Manteufels are also pastoring the Garden City Church of God, which still meets at the same time (Friday evening 7:30 P.M.) because the drive of 224 miles between the two cities is too much to enable them to have both services in the daytime.

REMEMBER THIS NEW CHURCH IN OUR PRAYERS!

Good News

Last Wednesday evening a lighting equipment company gave a demonstration of possible night lighting for the Ambassador Campus. The trees and stream below Terrace Villa were strikingly set off by multi-coloured lights.

The brilliant lighting was overdone, but that was intended. The demonstration showed what could be done--not what will be done. We will have to wait to learn what will be done.

EIGHT HUNDRED people were added to the PLAIN TRUTH list. Already the prospectus needs revision.

Think of that! It's phenomenal!

ONE HUNDRED AND TWO TONS of paper were used in sending out God's word last year--alone! And this does not include the paper used to print the PLAIN TRUTH or GOOD NEWS.

Imagine the weight of this staggering bulk.

Editorial "I Need Help"

by Paul Royer

Our ministers know the need--do you? They have told us the need. Have you responded? Or has living apart from the world, from the cursing and swearing, from the lying and cheating, have these things become unreal to you so soon? Sometimes it is a long way from Del Mar to the outside world.

Maybe the following letter will convey to you how UTTERLY DESPERATE THE NEEDS ARE. Maybe, just maybe, more would cry out in meanful heart rendering prayer and ask God to send more shepherds to feed the flock.

"I am writing this letter tonight, as I thought I should write and tell you that I am in a very much need of prayer, only God knows my affliction. Today I awoke in a hospital where my dear husband had taken me after I had passed out. I've been in an oxygen tent for two days. They took exrays and the doctor said nothing can be done for me except by a serious operator and he didn't advise it. He just said when you go to church, pray more, pray more than you ever have before! But, Mr. Armstrong, I didn't go on to tell him that I had no church around here that I could assemble with that obeyed God's commandments, and kept his Sabbath days. But I do praise God for the Bible course, I also praise God that he has made possible for me to go to church night and day right in my home. Mr. Armstrong, if the Lord should call me out of this world in the near future, how I would desire to have some one of God's ministers to preach my funeral. God will have to heal me if I am ever well again. I have been coughing up strings of blood the last five days, but I know by

News Briefs

It's taking two to fill the job of one! Loyd Hohertz and Allen Goyette are now being trained to operate the presses in the college print shop. They will fill the vacancy left by the former operator, John Hawkins.

ANOTHER wedding! This time it is Mr. Issac Williams and Miss Elaine Forbes. The ceremony is slated to take place on March 12, at the home of Mr. and Mrs. Lynn E. Torrance. Mr. A. J. Portune will conduct the program providing he has returned from the Philippines.

The Seaburg music system, which provides "music to type by" in the main office section of the Press Building, has now expanded its facilities to include the print shop. This could be termed "music to print by."

Mr. and Mrs. Charles Black will soon be Mr. and Mrs. Charles Black AND FAMILY. The newcomer is expected to arrive sometime near the Feast of Tabernacles this coming Fall.

what the Bible tells me that it isn't God's will for us to be sick all the time. So I'm asking the Church of God to pray in my behalf that Jesus will make me well again."

You certainly would have to be calloused not to be moved by such a letter. The question now is how long will any such motivation last? There is a tremendous need. God has called each one of us to do ALL that we are capable of doing.

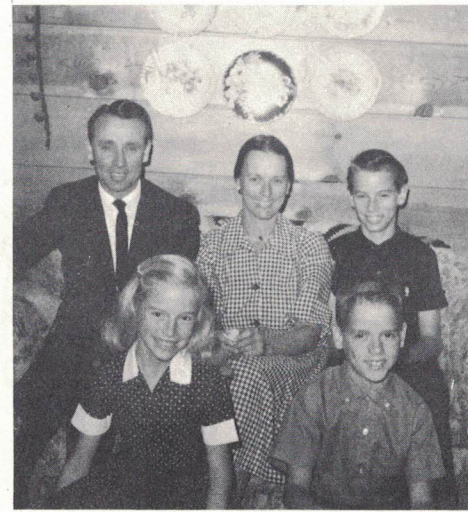

His people, our brethren are asking for help in ever increasing numbers. The thirty per cent expansion of God's church goes beyond number, income, etc., to include thirty per cent growth in human need.

Are YOU striving to meet this need, are YOU looking realistically to tomorrow? Or are YOU busy striving for today, for position, trying to get, to have, for personal elevation? It is time to analyze yourself and discover just WHO you really

Just this week over three hundred seventy-five letters were received. This would be a grand total of NINETEEN THOUSAND SEVEN HUNDRED LETTERS per year.

CFQC, on yesterday's tally was responsible for nearly TWENTY PERCENT of new mail. CJOR, another new station has also cleared time for us.

God's Canadian work is marching, galloping ahead! Soon Dennis Prather will be swamped. Who will be sent to help?

NEW ENGLANDERS

Mr. Hunting, our student body president is slated to begin the job of business manager in the London office of the Church of God this summer!

"Tremendously excited" was Mr. Hunting's description of the feelings of his wife and family over the prospect of becoming Britishers. The children will be enrolled in good British schools come next fall, to be thoroughly "Englishized" before their Ambassador career!

June will be the month of departure, but no definite plans have yet been made as to the mode of transportation. The Hunting family would like to go by ship, but space is reserved in all but first class until the summer of '63...and Mr. Hunting feels he ought not to wait that long! Unless something turns up, they will probably fly.

In addition to his office duties, Mr. Hunting will also be helping in the local churches, and will certainly add life to Ambassador Campus in England.

BRITISH AMBASSADORS PLEASE NOTE: Take good care of the Huntings, our loss is definitely your gain!

Contribute!

As the Work of God grows, the news grows. As the news grows, the PORTFOLIO grows. But alas, as the PORTFOLIO grows, the staff doesn't grow proportionally. Less than 5% of the Ambassador College student body is a member of the staff. Why this ignominious record.

Ambassador College in the United Kingdom, full of its first love, issues a quality paper. It has 25% of the student body to staff its paper. Five times that of the parent PORTFOLIO.

BUT IT'S NOT TO LATE TO BE ON THE STAFF.

It's not too late to contribute to your college paper and your college. Simply write up your news item, news lead, gossip, article or editorial. Place it in the PORTFOLIO box in Mayfair.

That's all there is to it. Keep your eyes and ears open!

First Foreign Language Broadcast In U.S.

FIRST TO TRANSLATE BOOKLETS INTO A FOREIGN LANGUAGE! FIRST TO HAVE THE WORLD TOMORROW IN A FOREIGN TONGUE!

WE NOW HAVE ANOTHER SPANISH DEPARTMENT FIRST! Starting this March, the first foreign language (Spanish) Ambassador Club will come into being, with roughly sixteen members.

Mr. Garner Ted Armstrong made the joyous announcement in Spanish Club. This paves the way for other language club possibilities.

Just recently, another first was achieved. The Spanish program began to be broadcast over local Radio KALI.

With nearly EIGHT HUNDRED THOUSAND Spanish speaking people in the area, fertile ground has been broken.

Soon people will write in for booklets, to have questions answered, and for visiting and counseling. Perhaps some of the fruit borne in this SPANISH AMBASSADOR CLUB will provide the necessary help.

More and more Latin people are coming in contact with the World Tomorrow broadcast. Here is an excerpt of a letter translated into English. It is from a woman in Costa Rica:

"The first time that I heard the World Tomorrow was about six and a half years ago. When at last I realized that I had found the True Church, I was overjoyed!

"But at the same time I was very sad, because I could never study and live with God's people--NEVER, NEVER, NEVER!

"Then I said to myself, 'at least I can be baptized,' BUT IT APPEARS THAT NOT EVEN THIS IS POSSIBLE BECAUSE NOBODY WANTS TO COME HERE!"

There are approximately ONE HUNDRED AND SEVENTY-FIVE MILLION Spanish-speaking people in this world. This equals the population of the United States. God is starting the Spanish work small--BUT it is destined TO GROW! Remember to PRAY FOR THE SPANISH WORK!

Egotism is the knack of seeing desirable qualities in yourself that others can't see.

Tourist Westby glimmers in French Club finale!

Ambassador Press Prints Good News

Attention! Good news!

This work of the Almighty God has taken another giant step forward. God's work is surging ahead, not only via radio, but also through the mass medium of printing.

After three long years of proposing, Mr. Gott has finally convinced the business office that he can save them money by printing the GOOD NEWS right here on campus--in our own print shop.

Here is an example of the savings Mr. Gott offered the business office. From \$1200 a MONTH to have the GOOD NEWS printed by Pacific Press, Mr. Gott reduced the cost for the same job in our own print shop to a mere \$686 a month. That is a savings of \$514 a month--or OVER SIX THOUSAND dollars a year! With the proof to back up these figures the business office couldn't refuse him.

Starting with the April issue the GOOD NEWS will be printed on our presses. Then sometime in the near future it will be comprized of a full SIXTEEN PAGES.

The high heel was thought of by a woman who was kissed on the forehead.

FRENCH CLUB CAN CAN-CAN

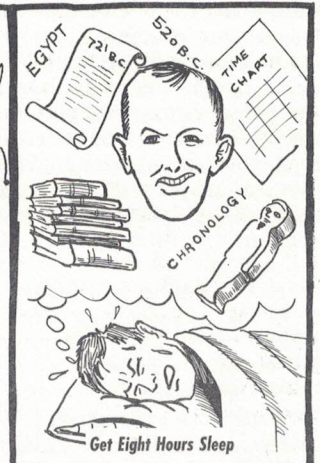

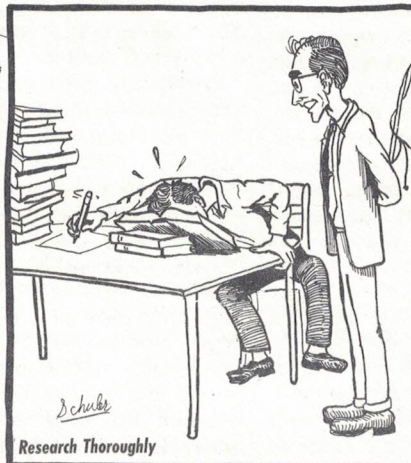

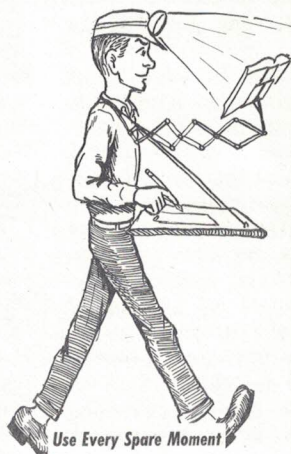

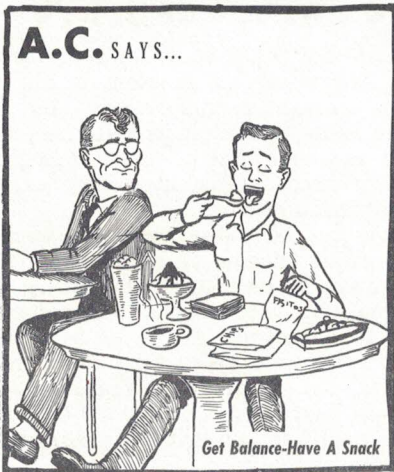

The Freshmen have had their Bastille Day--no guns, violence, back slapping or cigars--but have injected new life into the club. Vive la Revolution!

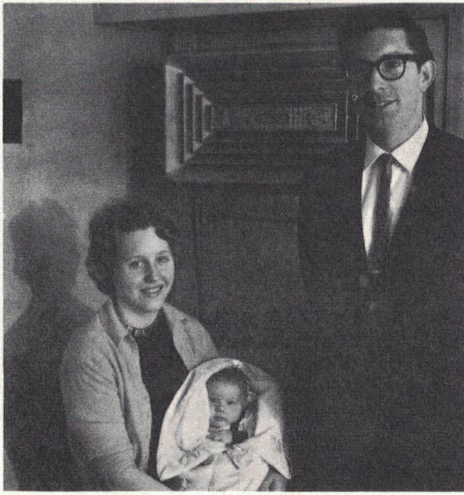

Finally in the second meeting of the new semester, the Freshmen are beginning to understand Le Francais!

No longer forced into oblivion by the strange tongue, the new members made their presence felt in the business session. Now that they have the feel of the meetings--not embarrassed to speak out--the first suggestion they have is change. Imagine the frightful condition things have been in and we never realized, they say. Excited at the adventure of speaking in a foreign language, they want more life, more opportunity to speak. Action was taken immediately. Next club everyone is to present some type of entertainment as a program committee of one.

The program for the evening centered around a night in Paris with the average American tourist--Ken Westby. Slaughtering le beau Francais he stumbled his way through the menu and on to the dancing girls! Not there to improve international relations, Ken almost severed them completely, but he got his picture of the can-can dancers anyway.

After the club, the Freshmen were seen joining in the various discussion groups--talking in French. KEEP IT UP!

MR. GENE HUGHES-Australia Bound

On February 28, Gene Hughes, with his wife Judy and his son John Anthony, flew to the "land down under" to become both office manager and business manager of God's work in Asia and the Pacific area.

Mr. Hughes grew up in the environs of Bakersfield. At age five, he was asking his parents about the discrepancy between the story of cave men in science books and the account of Adam and Eve in the Bible. He developed a great interest in science and scientific philosophy.

At 14, Herr Hughes began listening to The World Tomorrow broadcast and reading the PLAIN TRUTH magazine. He realized then that Ambassador would be the only college where he could get what he wanted from life.

When he graduated from high school, he received an award from the Westinghouse Science Talent Search for a paper he wrote about jet propulsion.

Gene spent three years in junior college, majoring in mechanical engineering and geology. Then he and two other men spent a year doing geo-physical surveys. They traveled over much of the western third of the country in a jeep measuring background radiation--relating it to geological structure.

In the fall of 1956 he entered the University of California at Berkley. The next fall he was attending Ambassador College. It was here that he met Judy Brines, whom he married. During his third year, he became supervisor of Mail Opening. After a few months of this, he was notified that he would be taking charge of a foreign office. England or Australia--nobody knew which. But it was finally settled, and after much haggling with the Australian Embassy, the Hugheses departed for Australia.

Robert Neitsch hit a rooster while driving along a country road in his VW. Anxious to do the right thing, Robert located the farmer who owned it and said apologetically, "I just ran over your rooster and I'm willing to replace him."

"Fine," said the Farmer, "Let's hear you crow."

Are You A Telephone Slave ?

By Kenneth C. Herrmann

How many times should a telephone ring before you answer it? **USUALLY ONCE!!** If you are a step away or engaged in conversation--perhaps twice! **NEVER** more than **THREE TIMES**.

Some phones have continued to ring **FIFTEEN TIMES** before the caller hung up. Could this have been you calling? What thoughts must go through the mind of the persistent caller, if any? If you keep calling, eventually someone at the other end of the building will get up in disgust and answer your call. **Ministers' phones** are often reached only through the switchboard. Their phones ring **ONLY ONCE**, a second time if it is an **urgent call**. But the phone across the hall **can still be ringing incessantly** because someone isn't thinking!

When calling an office or dormitory on campus, if you don't get an answer, conclude that no one is there! That may take a little thinking--of others instead of yourself! Call back in five minutes or fifteen. If it is urgent, call a nearby phone and leave a message.

Whatever you do, don't just sit there doodling for minutes while a dozen people trying to work suffer the distraction of your persistence, wondering when you will hang up.

Let **THREE RINGS** be the **MAXIMUM** for campus calls, with the possible exception of a dormitory hall phone.

How should you answer a phone? **WHAT SHOULD YOU SAY?** Introduce yourself, the other party wants to know to whom they are talking. "Hello, this is Edward R. Portfolio speaking", then state your business. Answer the obvious questions in a listener's mind courteously and quickly.

The principle in defining the use of any of these material gadgets is that they are to serve us, not to **ENSLAVE us!**

New Time

An operator will now be on duty Sunday AM til noon at the Administration Building. There are a number of outside calls that come in at that time, as well as calls from Mr. Herbert W. Armstrong who is now away from campus.

Presently, calls coming in after hours are taken by whatever student happens to be near the phone in the Library. However, not many calls are received after 6. After 10:00 PM, when all the students are tucked away, any outside calls coming in disturb Mrs. Annie Mann's sleep. She has the phone listed in the directory immediately after Ambassador College, Mayfair, so that any urgent or persistent caller will be sure to get thru!

So far Mrs. Mann has been able to handle all the calls. She has a ready list of all the minister's personal phones, including those in the field, to refer emergency calls to.

Literature In 1960

(Continued from page one)

A Boeing-707 jet only weighs 80 tons. This tonnage neatly stacked would **EXTEND FROM MAYFAIR TO THE SHAKESPEARE CLUB!!** Yet, our mailing cost was a meager **SIX THOUSAND AND FOUR HUNDRED DOLLARS**.

Let's do some figuring and see what will happen in 1972.

It is almost unbelievable. Figuring, on the basis of a thirty percent increase--**TWENTY MILLION** booklets would be sent out to people around the globe. That's one hundred and sixty times more than the population of Pasadena!

America is interested in prophecy! This is demonstrated by the fact that the four best-selling booklets dealt with prophecy. In 1960, **EIGHTY THOUSAND** copies of **U. S. IN PROPHECY** were mailed out. Runner-up was **75 IN PROPHECY** with over **SEVENTY THOUSAND** copies distributed! This pile of booklets would equal **TWENTY-TWO PRESS BUILDINGS PILED UP ONE ON TOP OF ANOTHER!**

That is just a portion of the phenomenal--almost unbelievable increase that God is giving to this Work! We can look forward to greater and more astounding developments in the future.

Mowatt at work.

CANADIAN

Ken Mowatt is having immigration troubles. There was no problem to his becoming a student in this country. But now that he wants to work here full-time, Canadian law says that he must immigrate to this country. (That does not mean he will become a citizen.)

During the semester break he went to Montreal to become an immigrant. The only progress he made was getting the Montreal offices to attempt to transfer his "file" to Vancouver, B. C., so his next trip won't have to be so far. After much haggling, the authorities in charge of such things in Vancouver accepted the transfer but they notified Ken that there will be "an indeterminate delay."
