BULLETIN OF RUSSIAN CLUB

Pasadena, California

June 8, 1961

Volume I, Number 2

WHY THIS BULLETIN?

The Russian Club enthusiastically presents to you, the faculty and student body, a special edition of the Club's Bulletin.

Our desire is both to edify--and at times--to entertain you, with articles on the big growth of the Russian work, Russian history, humor--and even some original Russian poetry. There is more to say about Russia than just the latest developments of the Communist party!

All the articles have been written by our own Club members, for YOUR reading pleasure and profit.

To the readers of Tubal and Meshech: Your comments, inquiries, and contributions are welcomed and appreciated.

Place all correspondence to the Russian Department.

Russian Work Leaps Ahead

In April, 1959 the World Tomorrow began in the Russian language. Mail came in on the average of **TEN LETTERS PER MONTH** for the next eighteen months.

Then, during the next four months--**THE MAIL, DOUBLED** to twenty letters per month.

Yet, the growth continued. Last April the count was thirty-one letters. A **THREE HUNDRED PERCENT INCREASE** IN JUST

TWO SHORT YEARS.

Most of the mail received is from Russian speaking people in the United States, Canada, Europe, and Australia.

Occasionally a letter reaches us from a country within the Soviet sphere--despite censorship. Here is an example:

"Send me booklets, 'Does God Exist?', 'Why Were You Born?', and 'United States in Prophecy.'"

Anyone that tries to remove this letter from envelope, and therefore prevent it from reaching the addressee **WOULD RESEMBLE A DONKEY!**" (Man, Soviet Union)

Editor's comment: It pays to appeal to the vanity of Communist censors!

Club Emblem

Our Russian Club is coming of age as a full-fledged language club. The latest addition is a new emblem.

It is tri-colored--white, blue, and red. The old flag of the Russian nation had the same pattern. The flag with the red field and a hammer and sickle is actually the emblem of the Communist party.

Our club emblem is not yet complete. Blue and royal purple has been chosen as the colors for the insignia. It will be placed in the white field.

The insignia reads:
"КОЛЛЕДЖ АМБАССАДОР" РУССКИЙ КЛУБ
In English it means "Ambassador College Russian Club."

WHO ARE THE RUSSIANS?

Within the confines of the U. S. S. R. reside approximately 90 million Russians. The rest of the population of 116 million is composed of many other nations. Many of them are Ukrainians, Belo-Russians, Uzbeks, Armenians, and others.

All non-Russian nations do however speak Russian as a second language.

IRON-HANDED MINORITY RULES

Russia to the Western World is the land of the "Iron Curtain." Its people, customs, and traditions are hidden behind this wall of terror and suppression.

Since World War II, our world has been divided into two battle fronts. On one side are the "Democratic Nations."

The opposing force is commonly termed "The Iron Curtain" or the "Communist Block." For many of us, these two forces are **THE ONLY ONES** we have known.

It is because of this condition that Americans have associated Russia with the Communist party. **BUT THESE TWO TERMS, OR IDEAS ARE NOT SYNONOMOUS!!**

The Soviet Union is a state where many nations are **ENSLAVED** and controlled by a **MINORITY!**

There are approximately two hundred million people within the reaches of the U. S. S. R. **ONLY EIGHT MILLION** are members of the Party.

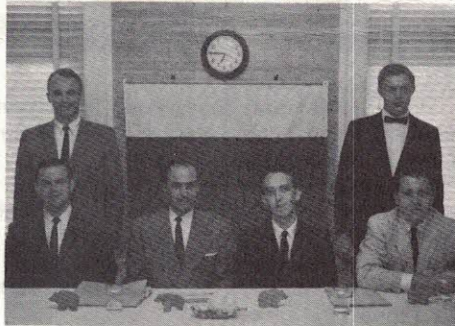

Low Crime

Communists also claim to have exceedingly low crime rates.

Recently, M. V. Barsukov, the head of the Soviet police was interviewed. According to him, the Soviet Union AS A WHOLE has fewer murders annually than New York city. Here is part of a question and answer session as recorded on tape:

- Q. What kind of crime is most prevalent?
 A. Merely hooliganism—insults.
 Q. Fights? Assaults?
 A. Fights happen.
 Q. Rape?
 A. Seldom
 Q. Small larcenies?
 A. There are cases but they are of no importance.
 Q. Pocket picking?
 A. Not much.
 Q. Immoral crimes?
 A. No, sexual crimes didn't occur in the last year although there had been some previously.
 Q. Shoplifting?
 A. None.

There are no women among the top eleven who rule the Soviet Union. And the wives of these men do not appear at the lavish diplomatic banquets.

RUSSIANS Continued

Russians are descendents of Meshech and Tubal.

The prince of Meshech, and Tubal is mentioned in Ezekiel 38. The ancient Assyrian name for Meshech was Muska. This is the derivation of Moscow.

Tubal has given his name to the Tobol river and the city of Tobolsk. Both are in Siberia.

Ivan the Great enlarged and established the Empire by driving the Mongols out of Siberia.

Later, Ivan the Terrible established a despotic state. His government contained all the basic elements and characteristics of present-day Communism.

COMMENTS OF EYE WITNESSES

In order to understand what is really going on in the Soviet Union, one should keep in mind one very distinct, UNIQUE, feature of that state.

In this state only ONE institution is free, independent. It is easy for one to think that this institution must be the government of the country. Not at all! This peculiar institution is the COMMUNIST party. The government is just a branch of the party, a subordinate agency. This is true for any organization that is permitted to exist there. Party allows no free elections, no opinion of the people is ever tolerated.

The aim? One--Conquest of the world.
 Means? ANY IN HAND!!

And here are some of the means:

"...there were about ELEVEN million people in the...prisons and concentration CAMPS in the years 1936-1939."

"Individual cells designed for one person there were 25 - 30 who were kept there in this way for ten months and longer "under investigation" as they called it. These people were slowly DYING. In addition, each of them was TORTURED during investigation."

--D. Bahryany, Black Deeds of Kremlin

"For the political prisoners they assigned as group commander a cut-throat, Kuhlko who...tortured us for three days. He was teaching us how to exchange greetings with the administration. After three days they KILLED about 20 men with RIFLE butts."

--O. Pidhainy--Black Deeds of the Kremlin.

(Political prisoner in concentration camp of Solovetskiye Island. Now residing in Canada.)

"In 1933 the Bolsheviks organized an ARTIFICIAL famine in the Ukraine. More than FIVE MILLION...died then.

Elevators throughout the U. S. S. R. were BURSTING with...grain. With the produce of the people the Bolsheviks were depressing world markets by DUMPING, to support the Chinese revolution..."

--D. Bahryany, Black Deeds of Kremlin

"A distinct category was formed by 325--Ukrainians who had turned to CANNIBALISM during the terrible famine of 1932-33. Seventy-five of them were men and two hundred and fifty were women."

--O. Pidhainy--Black Deeds of the Kremlin.

If these acts are not a CRIME--what are they? Certainly not a charity!

Who committed them? We leave it to you to answer for yourself.

The Soviet philosophy is this. A woman's place is anywhere where there's work to be done. Otherwise, silence is the watchword.

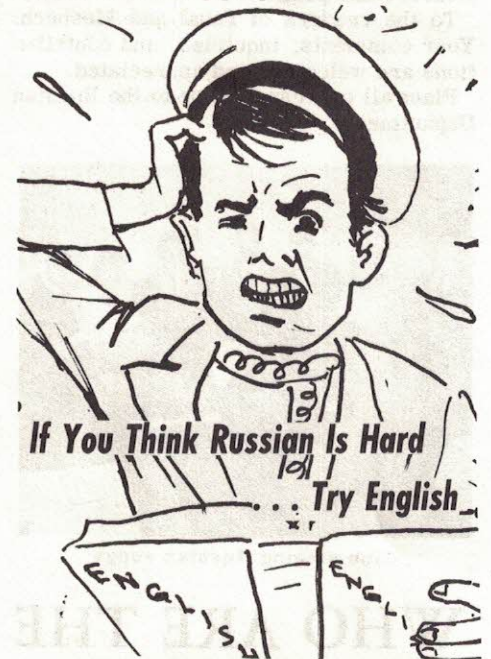

BOOKLETS TRANSLATED

With Dr. Czornyj editing, six booklets HAVE BEEN TRANSLATED INTO THE RUSSIAN LANGUAGE!

They are as follows:

1. Does God Exist?
2. Proof of the Bible
3. Why Were You Born?
4. Which Day is the Sabbath of the New Testament?
5. What is Faith?
6. What Kind of Faith is Required for Salvation?

Even as this goes to press, more translation work is in process. The article on "Did the Ten Commandments Exist Before Moses?" and the booklet on the "Lord's Supper" are being prepared.

RUSSIAN PRISONS ARE FUN

According to propaganda fed by the Iron Curtain, Russian prisons are far more advanced than most any in our country. Prisoners are fed the same diet as anyone else.

Intramural sports are common. Civilian clothes are worn. There are work shops to develop manual skills.

If a man is on good conduct, his wife may visit for several days once a month.
