February 10, 1964

Area cleared in preparation for new gym foundation.

Building Program Gains Momentum As Gym Foundation Is Laid

Work on the new gymnasium is progressing very rapidly. Over the past two and one-half weeks plans for the entire gym-swimming pool complex have been completed and submitted to the city supervisors for final permission to begin construction.

Already the old buildings standing on Terrace and Grove streets have been totally demolished. Now preparations for the foundation are under way. Since the earth the gym is to be supported on is composed of loose fill, several gigantic holes approximately thirty feet deep have to be dug. These will be filled with concrete to add to the foundation of the new building. Then as soon as the foundation is laid—direct construction of the building will start.

What a tremendous building it is

going to be! It is to be the finest gymnasium in Southern California. Although there are other gyms that are larger, as far as quality is concerned,
(Continued on page 7)

Power Plant Installed

Demolition, then construction seems to be the order of the day around the campus lately. Now the crushing hand of demolition has struck across from the Press Building on Vernon Street.

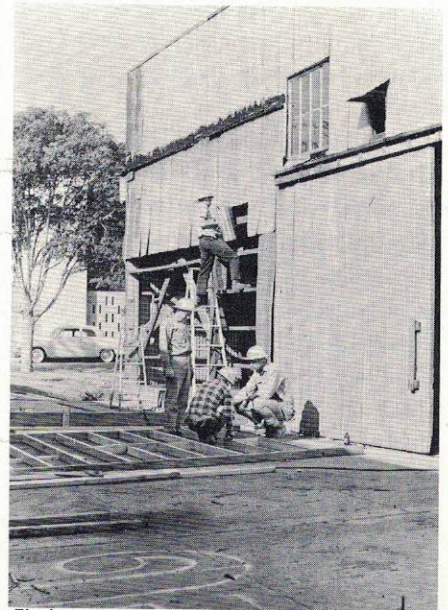

Part of the building that is to house the new press has been ripped away and the concrete driveway jack-hammered to
(Continued on page 6)

PRESS ANNEX TAKES SHAPE

The new home of the Letter Answering Department is rapidly nearing completion. Right now the carpenters and the plasterers are busily revamping the interior of the re-modeled building.

On the outside there is nothing to remind one of the cadaverous hulk of the former edifice. The entrance way has been totally re-constructed and a facade of latticed block-work installed around the exterior.

Within a couple of months the construction work should be completely finished. Then LAD will begin the ponderous task of transferring its material, files, typewriters, and paraphernalia to a new, modern, air-conditioned, well-lighted home.

Tin hats prepare way for high-voltage station.

Women's Club Plans For The New Semester

Ambassador Women's Club is swinging into a new semester, with plans galore for the spring.

Judi Untiedt, over-all president, has announced that the theme for this session is hospitality. Each of the four clubs will have seven meetings geared to this subject—which is part of the club goal, "Women better able to serve God through femininity, culture, and hospitality."

In addition, two combined meetings are planned. Dr. Owen will show films on natural childbirth at one of these.

To climax the year the annual Women's Club brunch will be presented Monday, June 1, morning of commencement exercises.

One of the surprising things of this world is the respect a worthless man has for himself.

There isn't much to be seen in a little town, but what you hear makes up for it.

Editorial

Don't CHOOSE To Forget!

by Dennis Pyle

In a recent forum, Mr. Ted Armstrong whisked the students verbally from Pasadena, to England, down to Germany, across to the Phillipines and back through Australia. Then with graphic words and pointed questions he flashed us up through the next eight, ten, twenty and fifty years to all eternity. Every student left that forum feeling like he had been sitting in front of a gigantic cinemascope, technicolor motion picture screen of his *own* future! It was inspiring. It made everyone of us stop and say in his own mind, "Let's go. Let's get on the ball!"

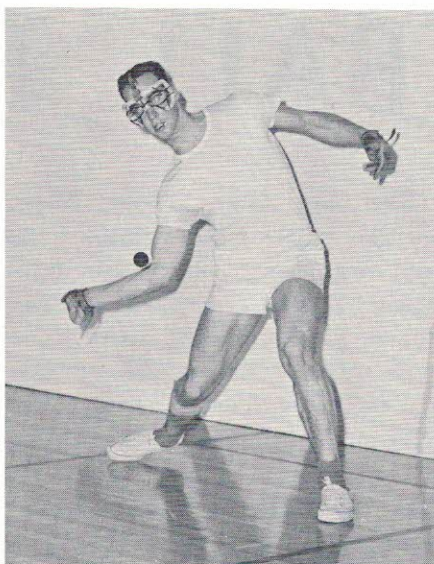

A question for you to answer. Do you still feel inspired? Can you still see that technicolor reproduction of your future? Or has it blurred and faded into the recesses of your mind?

If it has—WHY?? The answer to that question is a vital key to your progress in Ambassador College. If you can't grasp those moving talks, the inspiring forums, and keep them as a part of your motivation you are missing out on the greatest tool *you* have at your disposal. Analyze your own situation. Why did you forget such inspiring points? The answer is because *you chose* to forget them! How?

Take for example the recent controversy that came up over the report by the Surgeon General's Advisory Committee on Smoking and Health. The San Francisco *Chronicle* stated that one result of the committee's report was that "Seven out of ten smokers decided to give up reading." Of course that statement was made in ridicule, but it drives home a very effective point. There is a tremendous amount of meaning behind those satirical words. Those smokers didn't want to give up their own FOUL habit. They decided instead to eliminate from their mind the source that informed them of their wrong! *They chose* to forget because they did not want to give up what to them were great pleasures.

In the same way, we easily forget the inspiring sermons, talks, and speeches that we hear. We forget because we don't actively strive to retain them in our minds. For when we diligently, and zealously apply what we are continually told—it is going to require certain things of us. It is going to exact prayer, Bible study, fasting, intent studying, driving participation in Ambassador Clubs, language clubs, and HARD STRAINING EFFORT! Too many times we do not want to put that effort out. WE CHOOSE TO FORGET WHAT WE HAVE BEEN TOLD LIES AHEAD OF US! We had rather lull around in our own cares, worry about a girl or a fellow, and forget about the tremendous future ahead of us! We'd rather forget because, sure, it sounds great, but it lays on each one of us a burden that just feels too heavy for us!

It's high time we forget about our petty interests and get on the ball! It's time to double, triple the effort we are putting out in Bible study, prayer, fasting, and put our hearts into every activity we have in Ambassador College! It's time that a lot of us got up off our own feelings of pomposity and importance and got to work!

Drive it through the wall!

FISTICUFFS TOURNAMENT

The Ambassador College Handball Tournament will get under way soon! Sign-up sheets have already been posted in the hallway of the handball courts for interested and avid handball players to sign.

There are two major divisions in the tournament—one for faculty and department heads, and one for students—each with separate tourneys of singles and doubles.

WORLD'S FINEST YEARBOOK

ENVOY—WORLD PACE-SETTER!! The Ambassador College ENVOY is now the NUMBER ONE yearbook—as far as circulation—throughout the entire world.

The S. K. Smith Company, employing one of the world's top three cover-die engravers, is using this year's ENVOY cover as their standard of quality at all their companies in the United States. Those who do the actual printing of the book order copies of it to give to their salesmen to use in the field. It is used as THE example of the work

(Continued on page 8)

Magnificent Dual-Purpose Auditorium Next on Ambassador Building Program

On January 20, 1964, Mr. Herbert W. Armstrong sent out an URGENT five-page letter to all members of the Radio Church of God. Contained in the letter was the THRILLING news of the building of THE HOUSE OF GOD right here on the Ambassador College campus!

"Thus saith the LORD of hosts; consider your ways. Go up to the mountain, and bring wood, and build the house; and I will take pleasure in it, and I will be glorified, saith the ETERNAL.

"Then Zerubbabel . . . with all the remnant of the people OBEYED the voice of the LORD their God . . . And the LORD stirred up the spirit of Zerubbabel . . . and the spirit of all the remnant of the people; and they came and did the work in the house of the Eternal of hosts, their God."

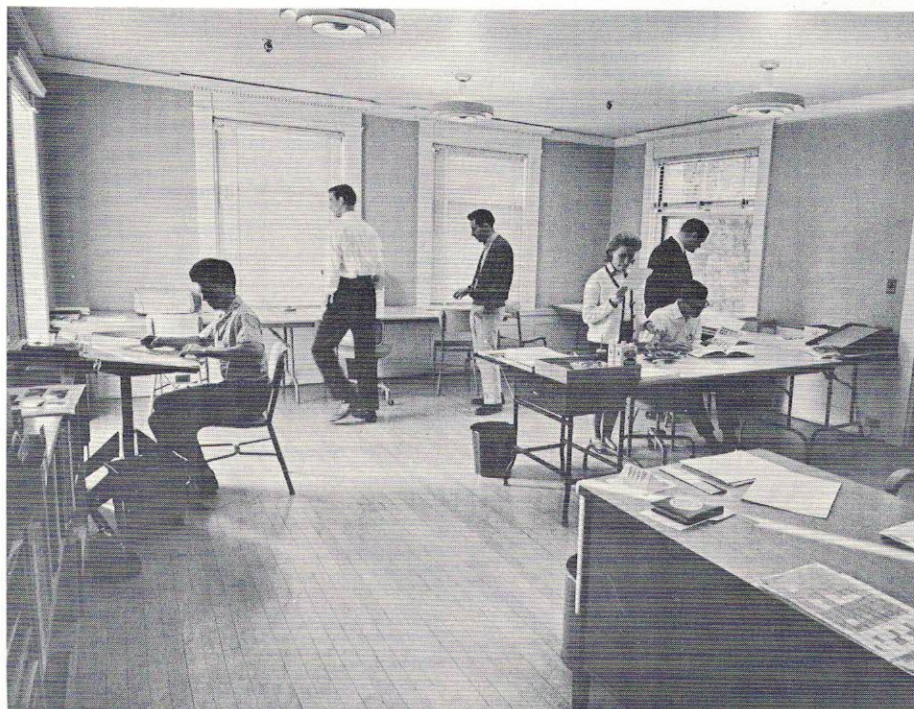

During the Ministerial Conference, Mr. Armstrong came to the realization of the full meaning of the book of Haggai and its application. This message is for GOD'S CHURCH TODAY!

We have been planning to build, first, buildings for college use and delaying the building of God's House. With this newest revelation, changes in the building program are taking place.

A 1,200 seat auditorium is being designed by the *largest* firm of architects and engineers in the world, D.M.J.M. The auditorium will serve a dual purpose—the meeting place of GOD'S HEADQUARTERS CHURCH and an *assembly hall* for Forums and Assemblies. No longer will we have to meet in stuffy, overcrowded halls and lodge buildings.

GOD'S HOUSE *cannot* be a cheap, rickety, cracker-box shack—nor will it be a super-structure, jewel-studded Temple. A middle ground has to be struck—with the emphasis on CHARACTER and QUALITY.

In Mr. Armstrong's words: "This HOUSE FOR GOD TO DWELL IN, at His Headquarters for this earth, MUST be started before this year is over!"

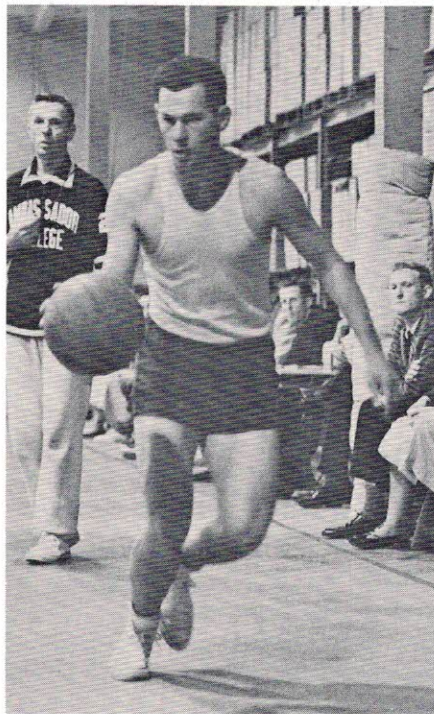

Behind closed doors The ENVOY is born.

TORRID BASKETBALL TO

Rafters add to the challenge.

Wann drives hard down court.

Scramble under the boards.

Dan nips Asher 223-221; Magog mangles Esau 244-176; Ephraim forges into first place in the western hemisphere! Are *these* the sports headlines for the year 2430? The world has always perverted athletics, but Ambassador College is recapturing TRUE values. This carries over into the athletic facet also. Correctly executed, sports such as basketball can be a tremendous asset to character building and part of the ABUNDANT life.

To be qualified to *teach* basketball in the millennium, we need to *learn how to play it correctly NOW!* Therefore the PORTFOLIO will be extensively covering the present intramural tournament, with *special* emphasis on the box scores.

All games will be played by National Basketball Association Rules and according to *Ambassador* standards of fair play and sportsmanship.

The *box score* is designed to give a "moment's eye view" of each player's individual performance. Coaches can read these tables and determine which players are producing. Fans can watch the individual progress of his or HER favorite. For example, Mary Jo can glance at the box score and quickly figure how many points HE made without having to ask!

With the emphasis on "no contact" ball in Ambassador College, the PER-

URNAMENT CONTINUES

PERSONAL FOULS column is highly important. It measures the degree a man can restrain himself from clipping, slapping, bumping or jostling the other players. Of course, the "regulars" who play most of the game will have more fouls.

Perfection is the hard-fought game in which a man plays with all his CONTROLLED might, participates in the entire game and draws NO fouls! THIS is the game we are all anticipating!

If an individual has a total of five fouls called on him in the course of a game, he is "fouled out" in HUMILIATION!

Audience participation is a major factor in the enjoyment of any sport. Basketball is no different. The excitement of a crowd inspires all the players to greater achievement. The "gymnasium" is always open to spectators during a game. Come down and CHEER YOUR TEAM ON!

Below is an explanation of the terms used in the box score:

FGA—Field Goal Attempts

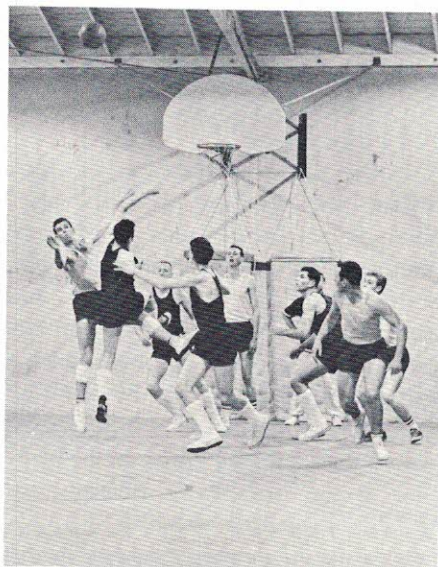

FG—Field Goals Made

FT—Free throws

PTS—Total points made by individual

PCT—Percentage of baskets made to shots taken

PF—Personal Fouls

New sidewalk sweeps across campus.

Sidewalk Nears Completion

Practice makes perfect! Mr. Dean Blackwell came into contact with the truth of this statement a number of years ago. As an Ambassador College student, he and a few of his fellow students had to re-do the track *twice* before they completed it satisfactorily the third time. But when it finally was finished, near perfection was the result.

Similarly, our own construction crew is perfecting the new sidewalk running from the old tennis courts northeast to the bottom of the hill. Two times it had to be restarted, at least in part. Now, however, it is nearing completion. Soon the Mayfair lawn will have a beautiful, new pebbled walkway. And it will be one of very high quality enhancing the beauty of the campus.

POWER PLANT

(Continued from page 1)

rubble. This is to make way for a building that is going to be a high voltage sub-station. It will be the source of power for the entire lower end of the campus. That area will eventually include the new auditorium, athletic field, press annex, press building, dining hall, print shop and other various buildings.

Women Present Fashion Array

Thursday, January 23, marked the date the "Fair Ladies" of Ambassador demonstrated their prowess at the sewing machine by presenting their annual Fall Fashion Show.

Under the able direction of Mrs. Velma Van Der Veer and Mrs. Janet Eickhoff, the Ambassador Co-eds constructed their own garments and presented them in an imaginative and creative way. Although some of the complicated tailoring presented quite a challenge at first, you saw the smiles on the faces of the happy girls that completed their projects. And at the same time as the Ambassador women learn to *select* a wardrobe suited to their own

"Let her own works praise her . . ."

individual characteristics and personalities, they actually *build* one rather inexpensively.

Between the sections of the program the music department provided live entertainment: *Dancing in the Dark* was sung by Miss Donna Bonnett, and the Ambassador Octet presented a medley from *My Fair Lady*. (Incidentally, the Octet is under the direction of Mr. Anthony Buzzard and the accompaniment of Mr. Gary Prather!)

The style show centered on the theme, "My Fair Ladies," and as the colorful array of feminine style and culture was presented, everyone nodded in general agreement: these surely are OUR fair ladies.

Stirrin' it up.

Poll-Cats Find Facts

Have you been questioned lately by any suspicious looking characters? Such soul-piercing questions as "Who's the editor of the PORTFOLIO?" "Where or *who* is Zanzibar?" and "Who takes over the reins of government if the President dies?" were asked by the fearless members of *The PORTFOLIO* of unwary victims that haplessly happened to get within shouting distance.

The outcome of this venturesome project proved to be a success—over *half* the people asked *knew* the answers. For each of the three questions asked, twenty-four students gave the right answers. Eighteen students "gave answers"—some wrong, some "I don't know."

This poll has been produced for the sake of a PORTFOLIO article. Also the test shows the average student's comprehension of local news and world affairs.

BE READY! YOU may be questioned next!

It is the little bits of things that fret and worry us; we can dodge an elephant, but we can't a fly.

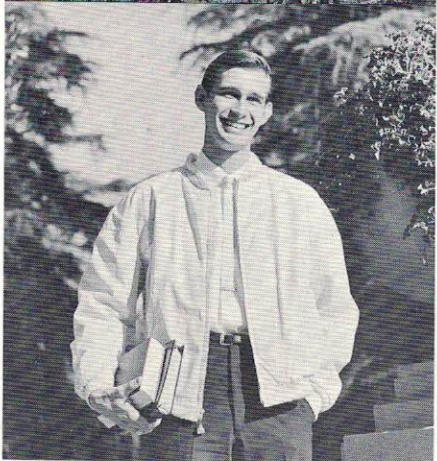

Mr. Armstrong, Mr. Kelly Visit Continental Offices

Mr. Ted Armstrong and Mr. Ronald Kelly are now enjoying the atmosphere of the English countryside.

Since Sunday, February 2, their globe-girdling journey has taken them thousands of miles around this earth. They left Los Angeles for Gladewater and Big Sandy on that day. Then they flew on to New York City the following Tuesday. They stayed there until 7:30 Tuesday night and then boarded a continent-bound jet liner and sped to Copenhagen, Denmark, where they stayed until Thursday morning. Then

back to the winged giant and down to Duesseldorf, Germany, to visit the office there. Next on the itinerary—Geneva, Madrid, Paris, then finally to London, England—where they are right now.

They plan to stay the remainder of the coming week in London, then board a jet and begin the return journey. They will land in New York City, fly to Detroit, Cincinnati, and Chicago. Then—at long last after their tedious flight—head back to headquarters infused with the scope of world news and current events.

Larry and Pam—Envoys to be!

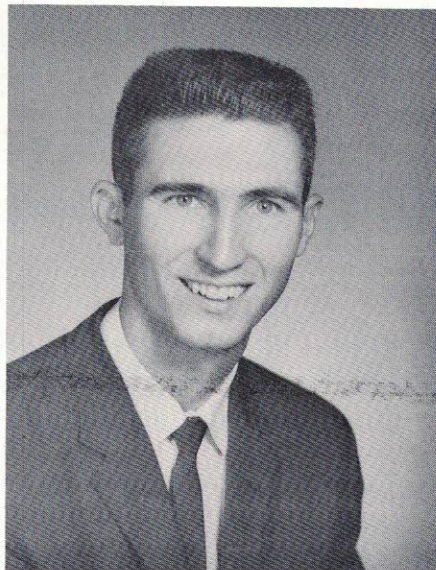

ENVOY GOES TO ENGLAND

January 23, 1964, will be a day that Larry Altergott and Pamela Sturman won't forget for quite a time to come.

Late that afternoon Larry received a call from Mr. Herbert Armstrong. He was to come immediately to the penthouse. After he arrived there he sat down. Mr. Armstrong looked him levelly in the eye and said, "I'm going to lower the boom on you—We're sending you to England!" Then Mr. Armstrong called for Pamela and told her to come up to the penthouse also. After letting her fidget in a moment of nervous thought he broke the news to her—she would be going to England—with her husband-to-be—right after graduation.

In England, Larry will be the advisor for *The ENVOY* as well as teaching journalism class.

Bon voyage to two more Ambassadors.

Continental travelers now in British Isles.

Gym Foundation

(Continued from page 1)

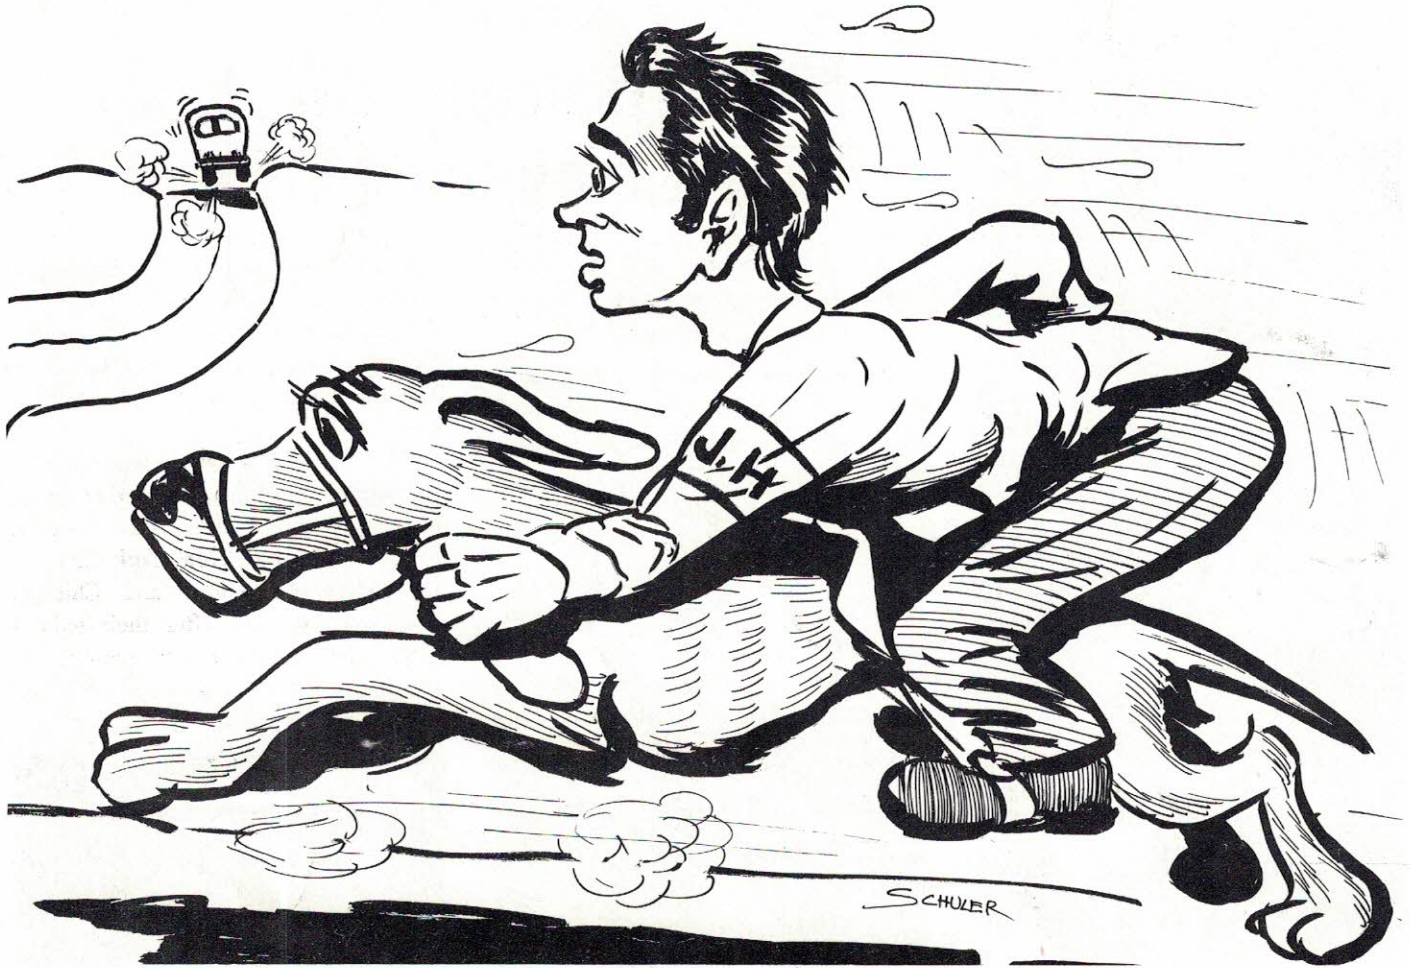

Ambassador will not take second seat to anyone. It will have heavy turf carpets in the locker rooms. The showers are to be the most up-to-date ones available. In the women's locker room there will be individual dressing areas with every shower—each unit a totally separate facility. They will be furnished with hair driers as well. This will enable them to avoid looking like a "drowned rat" when they come out of the new

full size olympic quality swimming pool.

Two regulation sized basketball courts will lie side by side within the gym space itself. On each side of the courts there will be fold-down bleachers which will easily seat eight hundred. When not in use they will gracefully fold up into a rack which resembles a wooden wall about twelve feet tall. Even when they are down and in use, there will be plenty of floor space around the edge of the courts for scoring tables and foot traffic.

At each end of the courts will be

(Continued on page 8)

Better late than never!

Ambassador Chorale Completes Arizona Tour

Acrid diesel fumes smogged the early morning atmosphere as Ambassador College's silver phantoms of the highway roared to life. Sleepy-eyed singers crawled out of bed, got breakfast down, clambered aboard the buses—and slept . . . except for one! He shot out of bed at 6 o'clock, and executed a mad scramble for the Greyhound Depot.

His name is withheld for posterity,

but he is a Sophomore in the tenor section.

Arizona wasn't dry in all respects that week-end of January 30. Joy flushed the cheeks of heart-warmed members of the Churches of God as the Ambassador College Chorale sang inspiring anthems. Some families sojourned from "Faraway Places"—El Paso, Texas and Las Cruces, New Mex-

ico for the occasion.

Members of the Phoenix Church exhibited their "southwestern hospitality" by inviting the Chorale members into their homes Saturday night after a church social in the evening.

The Chorale arrived in Pasadena early Sunday evening after a no break-down journey—except for a few broken-down members in need of rejuvenation.

New Gym

(Continued from page 1)

an electrically operated scoreboard.

Lastly to add a touch of crystal—not quite—but glass anyway, we will have the finest professional quality backboards made of special shatter proof glass.

Let's play ball!

World's Finest Yearbook

(Continued from page 3)

they do. Every year, the publishers stand amazed at the quality of the work turned out by our ENVOY staff. They all wonder how it can possibly be finer each year, yet it is. Within eight years

the ENVOY may have a circulation of almost 50,000! Quite a number after starting out with a circulation of 250!

Headlining the improvements in the "world pace-setter" will be better coverage of events and five times as much color than ever before!

Stand ready on the fifteenth of May to have placed in *your* hands the WORLD'S FINEST YEARBOOK!!
