Basketball Concludes – Faculty Victorious

A capacity crowd thrilled to the last game of the season Saturday night, as the Faculty faced the only team that had beaten them — the red-hot Freshmen. Unprecedented Freshmen support, a red-and-white printed program with Frosh yells, and Ray Pyle's 40 points weren't enough to beat the purple-and-gold unbeatables, as the Freshmen's near-upset failed, 84-80.

It took Ray four seconds to score his first basket, and he went on to hit four-for-four, and all of the first nine freshmen points! What started out to be a consistent five-point red lead exploded into a *twelve*-point lead with 3:20 left, as Mr. Petty called a time-out. The time-out strategy was worth one point only, because the Freshmen closed the half with a respectable 49-38 *eleven*-point lead.

Mr. Petty and Mr. Armstrong quickly

Classroom Contract Signed

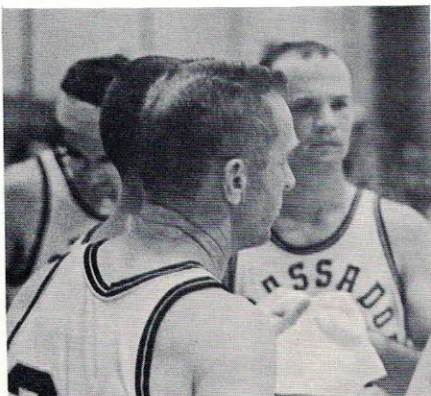

Groundbreaking Set For April 1, Completion In January, 1968

Last Wednesday, Mr. Herbert W. Armstrong signed the contract with O. K. Earl Company for construction of the proposed classroom complex just west of Ambassador Hall. Construction not only includes the two huge *science* and *music* halls, but also additions to Ambassador Hall and further beautification of the Sunken Gardens.

The contract came on the heels of Tuesday's contract from an Eastern insurance company to finance a good share of the fabulous classroom complex.

Groundbreaking is set for the beginning of April, and it is hoped the outside construction will be finished before the rainy season next October. The inside finishing is scheduled for completion around January of 1968, in time for second semester classes next year.

This is just one of the many BIG news breaks opening up for the Work (for latest progress on the BIGGEST news break, see page 2, column 1). Let's put our heart behind this growth and be sure *we grow with* the college.

The winningest coach in Ambassador Basketball gives time-out tips to his titans.

Jerusalem Broadcast Accepted by Arabs!

It's official!

Last Monday in forum, Mr. Herbert W. Armstrong announced that the "Hashemite Broadcasting Service" has heard, studied, and *approved* the World Tomorrow broadcast.

The "Hashemite Broadcasting Service" transmitters are located in Amman and Rammellah—a town about seven miles north of Jerusalem.

These stations are "non-directional" which is just the way we like them! When damaged insulators are repaired at the Rammellah standard wave station, its maximum power of 200,000 watts will be available.

From the time the driving Ambassador rises from his bed, 'till 11 a.m., the stations broadcast in Arabic. Then from 11 a.m. until 8 p.m., Rammellah broadcasts in English. It is *this* station that will trumpet *The WORLD TOMORROW* at 7:30 p.m. daily.

Future plans include a boost in power for Amman to 1 MEGAWATT (1,000,000 watts). This will give the station coverage from India to Italy!

These ideal openings should be the *greatest single breakthrough* the World Tomorrow has *ever* seen. The potential audience? Tens of millions!

Editorial

Payday is EVERY day!

by Gary Alexander

Want to be rich? (Many students are reading J. Paul Getty's book *How To Be Rich*.) Well, count your blessings—you ARE!

We belong to the most fashionable *country club* in Southern California, complete with breathtaking Olympic-sized swimming pool, professional tennis courts, majestic gymnasium, and facilities for ANY sport you desire—at anytime. Price: FREE.

We eat at one of the finest restaurants in the world. Undoubtedly, it contains the most exquisite and converted *atmosphere* of any restaurant. The meals are 100 percent healthful, and the preparations are all kosher, featuring steaks, chicken, *veal parmigian*, and all the accessories you want! Plush chairs and surroundings, specialties on order, smiling "waitresses," and NO tipping. Price: 70 cents! In any other restaurant like this, *tipping* alone costs more than that!

We live in some of the finest apartments and mansions in Pasadena, which would rent for \$300 on the open market. Plush wall-to-wall rugs, individual lighting, beautifully striking interior furnishings, prompt repair or maintenance of any need, and companionship of those with like mind. Price: 75 cents per day (7 percent of normal rental price).

We attend classes in either a millionaire's mansion or a plush banquet room. The professor often has a free handbook of materials to study. Other professors invite any interested students to his home for a question-answer period. The President of the college is in the process of showing each and every student through his home, and talking to them personally in small groups. Many field trips, lab facilities, free counselling, and—most of all—knowledge that is the heart and core of a whole new WORLD! Price: 20 percent of cost—only \$16 per semester-hour.

We are surrounded by Huntington Gardens, Century 21, and Hearst Castle all rolled into one, Basketball that tops the Lakers for enjoyment, unlimited opportunities to work—at ANY HOUR YOU WISH (point to another college with that benefit!), a \$5+ parade every year, and exciting trips to the mountains or the desert. ALL FREE!

These physical blessings don't begin to tell the story.

We have mental wealth indescribable. From the poorest sharecropper's assistant in Pokechop, Mississippi to the most intellectual, arrogant (yet blinded) pedant at M.I.T., the world is in mental *poverty*. Only Ambassadors have the opportunity to read widely and question the world's sacrosanct beliefs, discover new understanding, and re-learn the *truth* about every last facet of life—from Anableps to Zinjanthropus, from Allemani to Zealots, Adam to Zechariah, or A-line dresses and Peter Pan collars to zippers. A true understanding of *all* basic subjects makes us mental billionaires.

The *spiritual wealth* available is above all the greatest. Truly, the *best* things in life are free—a deeper and clearer understanding of Scripture, full contact with God at any time, meditation and fasting, growth and purpose in God's Work and the joy of *thankfulness* toward any physical gifts, a sunset over the Dining Hall, our brothers and sisters on campus, and the great hope ahead of us.

So there's only a nickel and a couple of pennies jingling in your pocket until next payday—three weeks away! We have the *richest* existence—physically, mentally, and spiritually—that *any* amount of money could buy, and payday is EVERY day!

PIZZAZZ

Where's the action?

In Monday "A"! ("A" for action).

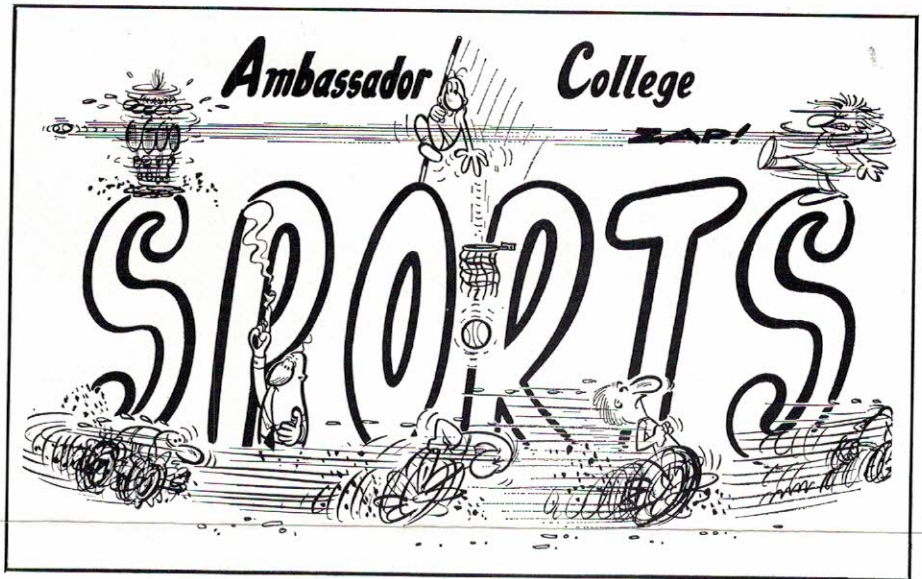

To prove it, this energetic club recently had a ladies' night with the theme of "wine and cheese." A total of four different kinds of wines and as many varieties of cheese spiced the night.

It all began when someone mentioned a ladies' night — then someone else mentioned a theme night on "wine." The quick-thinking president, Bob Boyce, quickly formed one big evening out of the two proposals (provided, of course, the club had enough money in its treasury). A quick check with Rod Repp showed a severe depression had set in.

That's where the good people at Brookside Winery come in.

The Brookside Winery outlet in Pasadena came to the rescue. Felix Heimberg and two cohorts from the club walked in and presented the problem. Thirty minutes later, they walked out with a promise of four kinds of wine plus literature on the subject.

Now, to the kitchen! A lip-smacking variety of cheeses were made available by Mr. Mott — plus we had four *small* samples of wine per person. So ends our happy story — a story of what cooperation can do and the results it fosters. Thanks to Mr. Mott and his kitchen crew, and with special thanks to Brookside Winery, 48 people know more about how to enjoy the product of consolidated milk and of the grapevine.

Senior Darkhorse—Color Him Black

The Senior Class has a brave and courageous promise for Field Day spectators this year: WE WILL NOT FINISH LAST!

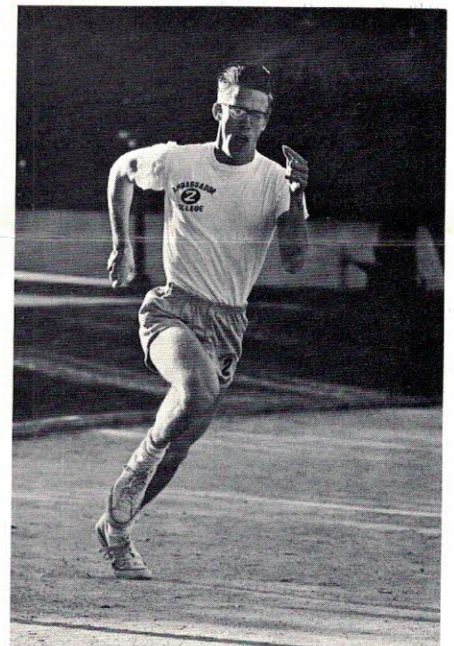

Yes, the Seniors plan to be the first senior track team in many a year to climb out of the cellar. They may not be "super-Juniors" or red balls o' fire, but remember that BLACK is the color of a DARK horse!

Along with the tug-o'-war, the present senior class has not been dethroned in *handball, table tennis, or volleyball* — but we miss Tom Williams!

Women's 220-Yard Dash

All the co-eds took a timing in the furlong last Monday. The top five are listed below, with some of the other top runners (namely, the Senior women) not yet timed. With six weeks of training left, and a vigorous P.E. conditioning program (not to mention track shoes and blocks), some of these women may rewrite the record books:

1. Karrol Thomas, Soph. . . . 32.5
2. Carol Pennock, Fresh. . . 33.4
3. Georgia Wilson, Soph. . . 33.5
4. Ardella Anderson, Fresh. . 33.5
5. Donna Horswell, Fresh. . 33.9

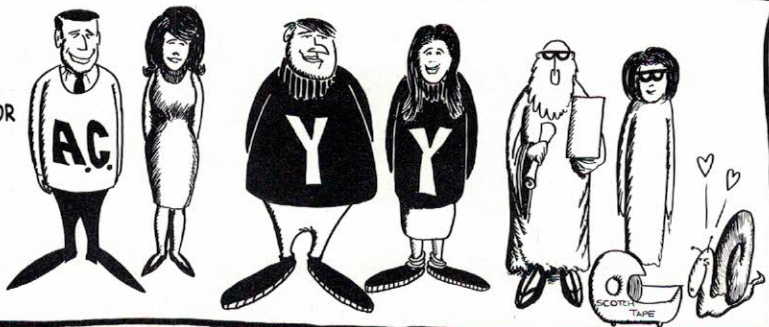

A mile a day keeps Richard Taylor away

new record! JoAnn has quite a racquet going too!

Don't be too shocked to see a few Senior upsets — maybe even a *third-place* finish!

A.G.

AMBASSADOR
DATES

Freshmen Secure Second Spot, 72-65

In Wednesday night's contest for second place, Dan Orban sparked the Redmen to an early lead, hitting four for four in the field in the first six minutes. The "Super Juniors" came right back with a zone defense and quick passing offense. They had the tenacious teamwork but, meanwhile, hustling "Orby" seared the nets for 17 first-half points and led the Frosh to a 41-30 halftime lead.

The Freshmen must have taken a tranquilizer in the locker room — It took them until 3 minutes into the second half to wake up from their half-time respite. With 12:03 left, the Juniors tied the score, 47-47.

A few minutes later, their dreams started to fade — Eric Williams fouled out. Seconds later, Ron Wallen joined him on the bench, hoping Roberts, Carley, and company could pull it out of the fire.

Into the final minutes, the Frosh led it by 62-60, but the Juniors had momentum. George Geis ended that momentum once and for all by hitting two foul shots putting the game on ice. Carley's shot at the buzzer brought the still-kicking Juniors to within 7 points, 72-65, and to their fifth straight loss.

It was a grueling contest, as these hatchet-faces show.

Sophomores Slip By Seniors, 85-83

The contest between the two cellar-dwelling squads — the Sophomores and the Seniors — turned out to be the most exciting nip-and-tuck battle of the third round, with the Sophomore five finally winning, by a slim margin of 85-83.

It was even from the beginning. With the big men, Ben and Larry, shooting from the outside, the teams deadlocked at 18-18, 29-29, 31-31, 33-33, and finished the half, locked at 40-40, and only one difference in rebounds and assists.

Scott Royer's famous "sit shot"

The second half was more Sophomore-oriented, but Sherman tank Mitchell and Bullet-hook Haworth finally shot ahead 70-69 with just six minutes left. From then on, they traded leads like Alphonse and Gaston until an 83-83 deadlock showed on the scoreboards with ten seconds left. The Sophomores scored, then the Seniors called time-out for the shot of the Century.

But it failed! So now the Seniors close out their season with a 3-9 record and cellar-Dwellers third year running!

Wait 'til Field Day!

Sophs End Season In Blaze of Glory

At the end of the first round, the Juniors were on top and the Sophomores were in the cellar. Last Saturday night, the Sophs edged out the Juniors and almost climbed above the Juniors in final team standings, finishing one game behind the men in gold! Quite a comeback!

The Juniors were ahead the entire first half, until Tom Ray hit a beautiful three-point play with 1:41 left. That put the Blue ahead 29-28. Each team added five more points to end the first half.

The Juniors blitzed through fifteen points in just four minutes of the second half to leap ahead 48-43, but the consistency of Bob McKibben brought the Sophs back to a tie at 50-50. It was four more ties, before the Sophomores finally opened up a safe three-point lead (although all five Sophomore starters weren't as safe—each had FOUR FOULS!). Greg Albrecht hit the clutch bucket to sew it up, 73-70, giving a happy ending to the Soph season.

A perfect recipe for "JUMP BALL."

Mr. Armstrong and Mr. Petty, with 44 points together, spearheaded another BALANCED Faculty onslaught. Note the tied score.

Faculty Victorious

(Continued from page 1)

engineered a second-half drive that erased an "immortal fifteen-point lead" into a tie in just FIVE MINUTES! The game was basically tied until 64-64, when the "White Tornado" (Mr. Petty) began to deploy his masterful moves. He kept the Faculty four points ahead until the end—a tremendously exciting climax to a rewarding, profitable, and educational season on the basketball floor.

See you next year!
