## Ground Cleared for Classroom Complex

There is already visible progress towards beginning the construction of our classroom complex!

The first step, of course, was the actual closing of Olcott Place. The two ends of this short street were jack-hammered out. The west end now has grass and a sidewalk across it, and the east end has become a commercial driveway-type entrance.

Sections of the wall around Ambassador Hall must be torn out, so the iron fence and concrete "pots and balls" have been removed from atop it, to be saved for future use along Orange Grove Boulevard.

The fish pond has been emptied of its inhabitants and drained.

A great many shrubs have been carefully dug up to be transplanted elsewhere. The dichondra is being cut into long strips to be rolled up (it's worth \$.33 a square foot!).

Valley Tree Service is digging out and  
(Continued on page 6)

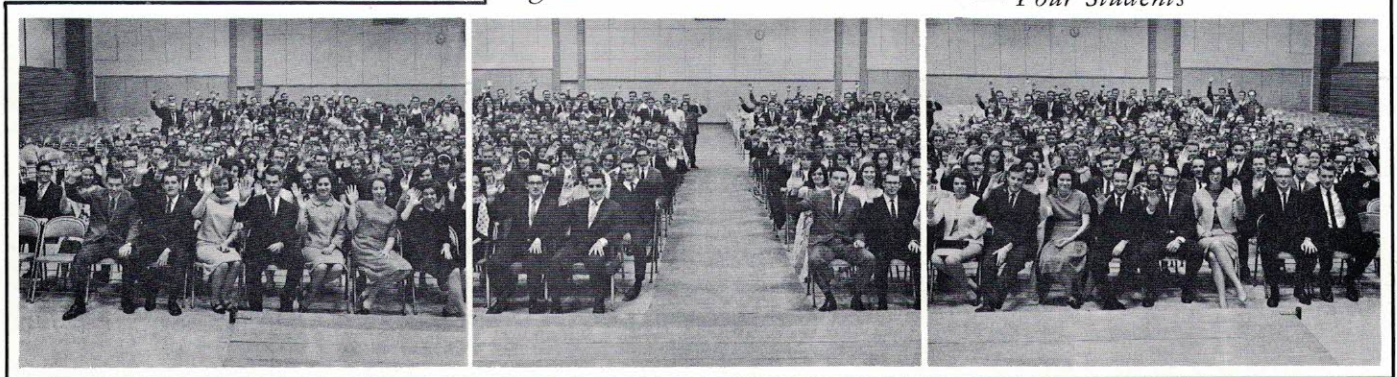

The college grounds are constantly changing toward perfection. Are we students growing with them?

## TO MR. AND MRS. ARMSTRONG

Words cannot express the thanks we offer you for enduring this latest trial. We, your sons and daughters in Christ, have been lax and unproductive — undeserving of the great blessing of being in God's Headquarters College — but this trial has brought us face-to-face with our great responsibilities. We are deeply sorry you had to suffer for our mistakes. Please accept our PROMISE to serve God's College with a new ZEAL!

Thank you again for your never-ending patience. We now realize GOD is our only strength, and, with His help, we won't let you down again.

### International Relations

It seems that Chancellor Kurt Kiesinger wants more nuclear power for Germany — for peaceful purposes naturally! Besides Germany has been forbidden by treaty to use nuclear power for destructive purposes.

But — "I am reminded of the time after World War I when victorious Allies unsuccessfully sought to enforce the stipulations of the Versailles Treaty which were to PREVENT GERMANY FROM REARMING. The story is told of the German laborer in a former munitions plant which had been converted to the manufacture of baby buggies. As his wife was expecting a child, he proceeded to smuggle out part after part, one each day, until he thought he had everything he needed to put together a baby buggy in his basement. When his wife asked him how he was coming along, he scratched his head. 'I don't understand what is wrong,' he said. 'No matter how I put those darn parts together, ALL I GET IS A MACHINE GUN!!!'" (*Design for Survival*, Gen-

## Editorial

# Fight Discouragement

by Gary Alexander

During the long months of winter, following the excitement of the Ministerial Conference, bleak discouragement begins to set in.

Problems develop. Correction strikes, and we shoot out our lower lip, saying, "God can never use a clod like me," and we crawl under the bed to "eat worms." Personal problems begin to sap spiritual strength, and we seem to spiral downward.

Do YOU begin to feel depressed and discouraged during winter months? If so, then RECOGNIZE the enemy, and STRIKE a death-blow to discouragement! Here's HOW!

### Winter in God's Plan

Yes, winter has a PURPOSE! Trace the Holy Days *backwards* instead of forward for once. The last Holy Day pictures the White Throne Judgment, then back to the Millennium, Atonement with God, and Christ's Second Coming. Moving backward to Pentecost, we see the Firstfruits of God's Church in this age, then back to Unleavened Bread (putting away sin) and Christ's Passover Sacrifice. That brings us right back to the beginning.

But what comes *before* "the beginning"? Romans 5:6-10 gives the answer. "For when we were *yet without strength*, in due time Christ died for the ungodly . . . while we were *yet sinners*, Christ died for us . . . when *we were enemies*, we were reconciled to God by the death of His Son."

Students, these three winter months — January, February, and March — have the purpose of reminding us once again of the NEED for Christ's sacrifice. If you feel "*without strength*" or "*yet a sinner*," then God is accomplishing His purpose of preparing you for the Passover. God is showing *love* to every one of us that is temporarily discouraged, testing and trying us through fire so that we can take the Passover with *renewed* meaning.

The College and Work also suffer a "frontal attack" this time of year. Two years ago, many students had to be expelled or demoted during MARCH. This was followed the next week by the climax of persecution in England and Dr. Rea's death.

This winter saw the strongest trial of them all with Mrs. Armstrong's critical illness. For many years these poignant trials have hit the College during the winter, and they probably will in years to come (the broadcast will be cut off and we will be persecuted *out of this country* probably during a January-to-March time span in just a few short years).

So, you see, YOU are not alone! When the BODY is under attack, so are *each* of the individual members.

### WHAT TO DO

First of all, LOOK AHEAD! Look UP! Each year that the Work has been tried and tested so stiffly, the HUGE blessings soon follow. The *big* doors soon open. It's the same in your personal life. The bigger the trials that "condition" you, the bigger the following blessings.

Secondly, RECOGNIZE the enemy and FIGHT the battle. James 4:7-10 gives you the battle plan in capsule form. "Resist the devil and he will flee from you. *Draw nigh to God*, and He will draw nigh to you. Cleanse your hands you sinners; and purify your hearts, you double-minded. Be afflicted and mourn and weep . . . Humble yourself in the sight of the Lord, and *He shall lift you up*." Don't let winter get you down! Look ahead! Look up!

Dr. Leakey soberly proclaims "Zinj is DEAD!"

## First Famous "Find" Finks Out

by Jerry Gentry

Dr. L. S. B. Leakey has shocked evolutionists with *his own* new theory of man's origin.

The shocking find of 1959 — Zinjanthropus Africanus — is no longer the "missing link"!

In a recent lecture at Cal Tech, attended by many Ambassador students and teachers, Dr. Leakey said that his more recent diggings have "led him to

believe" that a much older (?) creature paved the way to Homo Sapiens or modern man.

Scratching through the stones, rubble and debris of Olduvia Gorge in Kenya, East Africa, Dr. Leakey and his colleagues found a few fractured bits of skull, finger, and jaw bones. These were "reconstructed" (with the modern marvel of PLASTER and *imagination*) into HOMO HABILIS, man's 20,000,000-year-old ancestor!!

Dr. Leakey believes Homo Habilis made the first crude knives known. With these weapons, he attacked animals, killing them for food. (PROOF: Dr. Leakey himself was also able to make similar tools and attack animals!)

With this discovery of Homo Habilis, Zinjanthropus has *leaked* into the past pile of discarded theories.

Zinjanthropus — the first famous find — has FINKED OUT!!

### Late dating

"What if" you have to ask a date late, and are ashamed to ask even your closest sister? Well, Tom Pickett's apartment came up with a good solution. If there are *four* men without a date, number them *one-two-three-four*, call Terrace Villa to line up four counterparts, then send the men out at the proper time.

Knock, knock. "Hello, may I please speak to number three?"

## LIBRARY LOOKOUT

"I am conscious every moment that all I am and all I have is subject to a higher power." These are the words of a man who *disclaimed* organized religion, claimed the Unitarian faith, and happened to be America's "Man of the Century": Abraham Lincoln.

In 1861, Lincoln *actually did* proclaim a national day of fasting and prayer. He reminded the nation that "fear of the Lord is the beginning of wisdom." Later in 1863 he said, "We have forgotten God."

Richard L. Current tells how Lincoln came to these profound beliefs in a book nobody knows entitled, *The Lincoln Nobody Knows*. Dr. Current, a Civil War authority, has meticulously investigated all areas of Lincoln's life that have remained shielded from the public view.

This amazing book is in our college library. It's the kind of book you read once and quote for years afterward.

### Seniors!

Graduation is only 88 days away!

### Sign of the Times

The largest-selling novel of all time was, *Peyton Place*, with 11,000,000 copies. The largest-selling, non-fiction book (excluding the Bible) is Dr. Spock's *The Common Sense Book of Baby and Child Care*.

## Unclassified Ads

**BROKEN BIKE?** Take it to Bob Justus for repair. FREE labor — experienced know-how — and a desire to give you "Better Built Bikes — by Bob."

**FOR SALE:** Tennis Racket, like new. See Bob Justus again.

**WANTED:** Male bicycle partner to accompany me through Angeles Crest Highway during college break. See Bob Justus.

**FRESHMEN:** Do you run the mile in four minutes? Put the shot sixty feet? Pole Vault seventeen feet? If you do anything like this, sign up with Bob Justus.

**AS YOU** can see, Bob Justus is the only student so far to take advantage of our new SERIOUS unclassified ads. If you want to sell, buy, or borrow anything, if you want a date, a pen pal, or your lost cashmere coat, put an unclassified ad in the "PORTFOLIO box" in the Dining Hall by TUESDAY each week! They're newsy, quick, effective, far-reaching — and FREE! Don't delay!

## Circular File

(Continued from page 2)

eral Thomas S. Power, USAF (Ret.), p. 57).

The Germans presently have an Atomic Center at Karlsruhe, Germany. This center is devoted to peaceful use of atomic energy — funny thing every time I put those crazy parts together all I get is a hydrogen bomb!!!

### Etiquette Tip

Should chicken be eaten with the fingers? No, the fingers should be eaten separately.

### Maximum Security

Have you ever heard of a "motorcycle escort"? One anonymous Mayfair coed got this treatment last week, as she tried and tried for an escort but failed. Then she threw up her hands in despair and tripped off the fire alarm. Its wailing sound brought the campus guards, and she got the escort of her life!

Ambassador College  
**SPORTS**

**Freshmen Threaten to Sweep Field Day!**

A time bomb is scheduled to explode next April 13!

The REDCOATS are coming! The redmen of the Freshman Class are ready with a load of surprises that may have

the "also ran" other three classes gaping in astonishment, according to Freshman Class President, Bob Justus.

Bob refuses to divulge any names, but warns of a Freshman first place in at least half of the track and field events. He claims two, different, hundred-yard-dash men with respective clockings of 9.8 and 9.9. Two other Freshmen sprinters have turned in 10.2 clockings, so the Freshman relay team will undoubtedly rewrite the record books there.

Bob promises (with reservations) that a Freshman will win the 440 and set a new record ("perhaps as low as fifty seconds flat," he added nonchalantly), that a Freshman pair will take the pole vault and broad jump, and that another Freshman is bound to break five minutes on his way to winning the MILE run.

Has anyone thought of pitting the Freshman team versus *the rest of the college combined*? Who can stop the Freshman colossus?

This is a job for Super-Junior! Read next week's PORTFOLIO and see why we still believe the JUNIORS will win Field Day!

**MILE MELEE**

Last Wednesday, every Ambassador male paced through the Mile Run for time and a grade. The results give you a good line-up for the Field Day mile:

1. Richard Taylor (Fr) ..... 4:56
2. Steve Smith (Jr) ..... 5:02
3. Dean Smith (Jr) ..... 5:05
4. Pat O'Neal (Jr) ..... 5:05
5. Keith Crouch (Sr) ..... 5:08
6. Don Eastman (So) ..... 5:08
7. John Karlson (Sr) ..... 5:09

also in the running:

- John Cafourek (So) ..... 5:12
- Earl Rands (Fr) ..... 5:13
- Bill Kelley (Fr) ..... 5:13
- Daryl Calvin (So) ..... 5:15
- Martin Anderson (So) ..... 5:16

**Sophomores Finally Escape Cellar, 88-83**

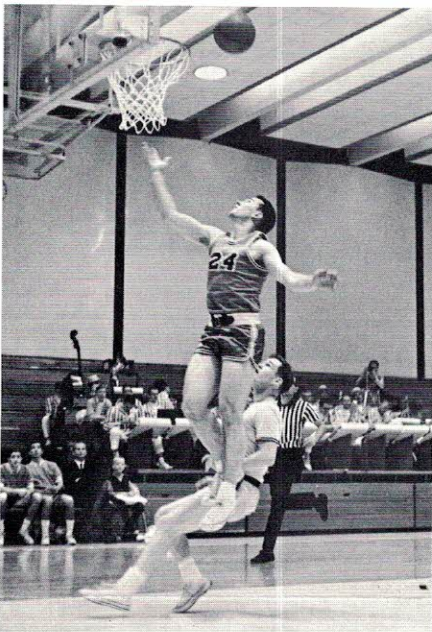

An overtime victory over the high-ranked JUNIOR squad last Wednesday finally nudged the Sophomore team out of their eight-game abode—the cellar. They're in *fourth place* — to stay!

The Blue Bombers stayed ahead throughout the first half, by dint of Ray Meyer's flying fade-into-the-floor fakes which netted fifteen points, and

61-59, and to one, 68-67. With 3:19 left, Steve Smith broke through for a driving lay-up and the first Junior lead. Quickly they pushed it to 74-70 and the game looked frozen on Junior ice. Ben's fifth foul seemed to seal the coffin.

But the Sophomores guts-out, gung-ho, give us the ball and go-go-go-fired a last minute plunge that tied the game at 76-76. The overtime was exciting, but it was BLUE all the way. They rushed to a four point lead and kept it, thanks to Mitch Knapp's clutch plays.

Bring on the Faculty!

Mr. Clutch scores again.

# Freshmen Steamroll Seniors

A powerhouse Freshmen squad showed championship potential last Wednesday as they *exploded* a record-breaking scoring punch against the defenseless Senior squad. In less than ten minutes, they scored 45 POINTS, the highest-scoring quarter in Ambassador history. They were sure to break the record, but Mr. Petty mercifully sent in the reserves, and the Frosh held out

for a twenty-eight-point margin at the end.

The seniors worked hard the first half. They were always "in the game," as Mr. Petty kept the alluring carrot near enough to the Senior horse to push him on to a 48-42 halftime score.

The third quarter was the record-breaker. Rebounding, shooting, sharp assists, passing and defense—everything was slick, smooth, and beautiful to watch. The Freshmen cheerleaders shouted, "He can who thinks he can," but they probably could have whether they wanted to or not.

If you want to see a *balanced team*, look at the statistics below. They meet another balanced team soon, the FACULTY, and that's the game of the year! Be watching for it.

Galloping George Geis tips two more.

### FRESHMEN (112)

NAME	FG-A	FT-A	TP

## —SOPHOMORE SCRAMBLE—

Above: True Blue. Left: "Marcus" Meyer skirts the enemy. Below: THEY'RE OFF!!

## PIZZAZZ

Ambassadors have long been known for their vigorous daily activities. Now read about their fantastic *midnight* capers!

Jolted to consciousness by loud clatterings, Keith Hoyt was quick to observe *a hand* dangling over the room divider. Rapid further investigation revealed that Harry James Walker — sound asleep — was climbing "the middle wall of partition!"

Several years ago another Ambassador (now a graduate) once arose from his bed and in blissful sleep made his way to the closet, dressed, proceeded to the bathroom where *he took a shower with his clothes on.*

Like the prophet Ezekiel who reclined on his left side for 390 days, Tony Wasilkoff habitually sleeps on his left side, facing the room. Whenever his late-working roommate returns, Tony responds as if he has heard the words, "lie again on thy right side" (Ez. 4:6) and flops over, to face the wall, mechanically drawing his pillow over his head. Only 210 more days to go, Tony!

Mike Blackwell's room in 360 "G" appears to be another nocturnal activity spot. Rumor has it that Mike lead the class in prayer — while he was sound asleep at 1:30 a.m.!

Here are four short quotes of wisdom recently expressed from the depths of slumber by various Ambassadors: Pat O'Neal, "I'll do anything I want to!"; Bill Jacobs, "Preposterous!"; Reinhold Fuessel, "NO, NO, NO!" and Tony Wasilkoff (again), "Shape up, will you!"

Bob Justus pulled a good one too. Sometime in the night he rolled over

on his own hand, causing it to become practically insensitive and numb. In a state of semi-slumber Bob went searching for his hand. When he found it it was so numb that he did not recognize it. He immediately concluded *something* warm and alive was in bed with him. He grabbed the hand and threw it against the wall — only to have it bounce back and hit him in the face! Bob shrieked and bounded free of the bed — fully awake!

Pizzazz is everywhere — even in the wee hours if you look for it.

## Classroom Complex

(Continued from page 1)

boxing six of our trees for replanting. Other trees, including two large deodars and a large rubber tree, will be cut down.

Yes, students, the classroom buildings are on the way! Come over to Olcott Place and take a look at PROGRESS!!
