# The Best Way to "Get"!

by Paul Alexander

Across the nation families are moving, often for the express purpose of finding better schools for their children. What are the criteria by which a school is judged?

The prevalent attitude seems to be this: What can the school do for me? How many parties and dances will it sponsor? Does it have a sports program of which I can be proud? Are the teachers lenient? In short, the whole motivating idea is often *getting*—not *giving*.

An article in *Parents' Magazine* reported recently that there is little correlation between the number of dollars spent for facilities and the quality of education received. A prominent educator noted that wherever he found a spirit of cooperation, dedication and service by students and staff, he found superior education—even if facilities were lacking. Does this hold a lesson for us?

We have been blessed with ever-increasing facilities and opportunities. Now, during the summer when we look ahead to a new school year, let us be sure that we do not become so engrossed in "getting" that we forget our real purpose. Social functions and recreation are very important to balance our personalities—if we keep the proper perspective. Let's continue to grow in every facet of character. Let's continue to prepare for a life of *service*, and remember that the best way to GET is to GIVE!

Mr. Lochner reminisces.

and their parents, and the juniors boosted the roster to more than 100 for the excellent sirloin steak dinner.

Otto Lochner introduced the graduating seniors after which five different junior groups provided the entertainment. Mr. Garner Ted Armstrong, vice-chairman of the Board of Trustees, spoke briefly; and Mr. Floyd O. Lochner, superintendent, reminded the seniors to do "the next thing."

Mr. Bicket, Mr. Michel, and Mr. Schulz were presented with cuff links as a token of appreciation for their outstanding service to the schools during the past year. Mr. Lochner was presented a briefcase, which he promised to use to good advantage.

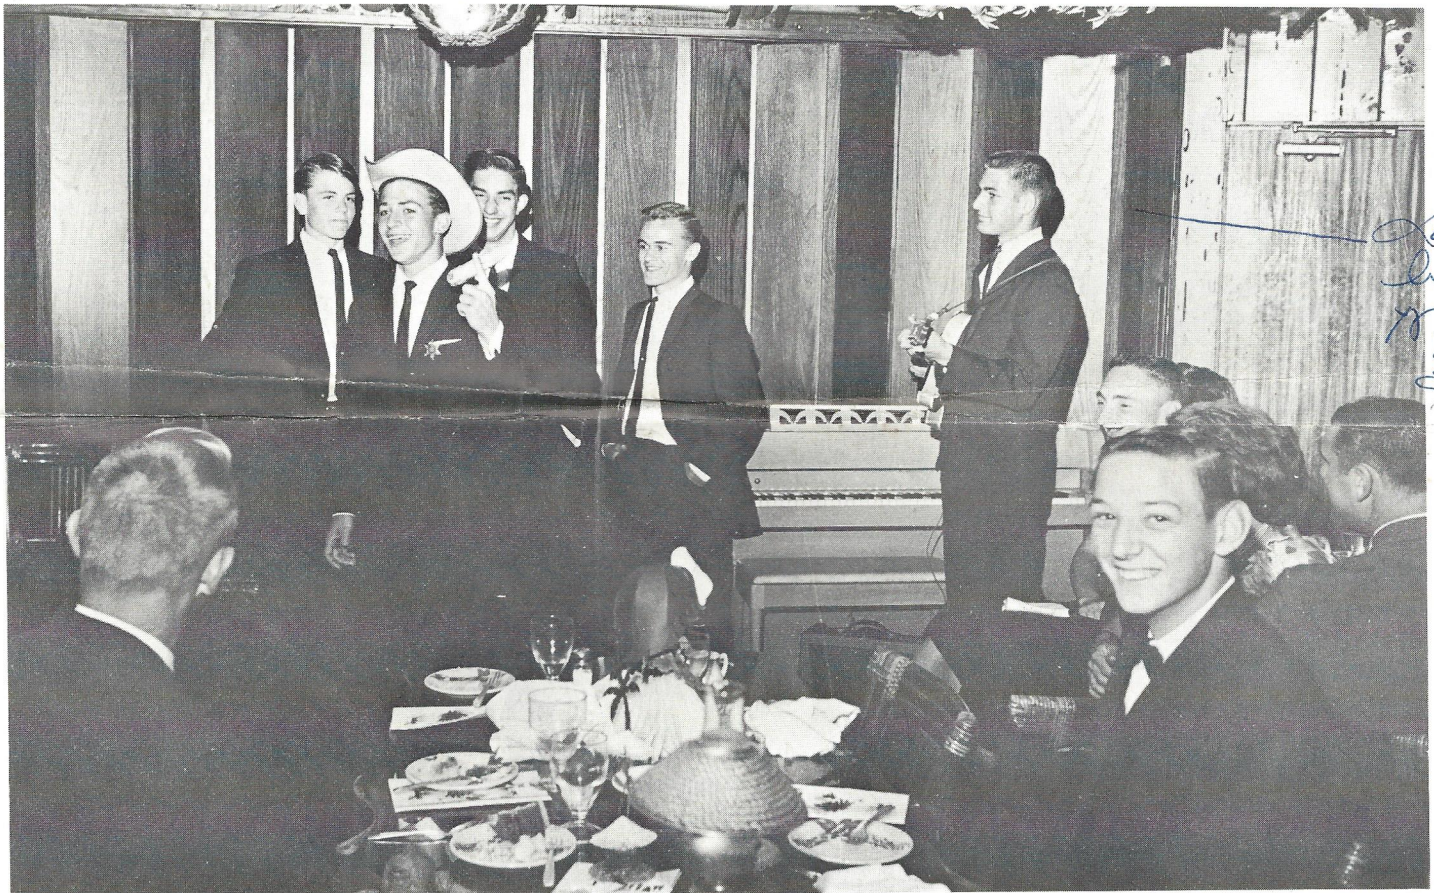

The preceding week Mr. Armstrong was an honored guest at the banquet of Imperial, Big Sandy, which was held at the Longview Hotel.

mencement Address compared the United States to India in their physical achievements. He noted that the United States has been able to accumulate vast scientific knowledge but has not used it wisely. Dr. Hoeh stressed the fact that because Americans have chosen to forget God, their state is, in many ways, as pathetic as that of the Indians.

Mr. Lochner presented the graduates with their diplomas.

On Sunday, May 31, Mr. Kenneth Swisher spoke to the graduating class, the faculty, and friends of Imperial, Big Sandy. Because of rain, graduation ceremonies were held in the Tabernacle.

place honors were scored by the blue team, and the green team was second. Third and fourth places were taken by the red and yellow teams, respectively.

In the junior high division the red team literally ran away from the others. Scoring 60½ points, the red team held a ten-point edge over the nearest team, the blues, which had 50 points. The green team finished third and the yellow, fourth.

The last event, the mile relay, decided the team championship in the high school.

The entire Imperial student body would like to express its appreciation to all the officials and spectators who helped make Field Day one of the most memorable days of the year.
