Dear Brother Mote:

At last the papers for filing under a fictitious name have arrived duly executed and I am returning them herewith.

You will notice that I did not give any street address for the Call, so you can use your judgement as to whether or not you should fill in a street address. I suppose you will want to have it at your new home address. That being the case you could hold up a few days until you get moved.

Do you desire me to forward to you the various magazines I have been receiving for the Call, such as the Signs of the Times, Bible Advocate, Time, and some others? Or perhaps you would prefer to have the publishers change the mailing address back to riverside. I think there are some of them I shall have to take in any case. Let me know about this.

I hope you will be able soon to make the move to your new home.

Sincerely your brother in Christ,
