Dr. C. Paul Delay
11121 Pierce Place
Arlington, California

Dear Sir:

We were rather disappointed in your response to our magazine.

We do not spend our time criticising your S.D.A. neighbors. We do not deal in personalities. We have nothing personal against them as a people. We only deal in doctrinal subjects. We are only interested in the truths of God's Word, and in exposing what we believe to be erroneous teaching.

I have many warm friends who are Adventists, and many of my relatives are Adventists. In fact, I used to be one, until I found that not all was right with the creed. I now worship with Seventh Day Baptists. I am a member of the local Seventh Day Baptist church. However, our magazine and publishing work is independent, and not sponsored by any organization.

You have written the words "Pure rubbish," on the copy of the magazine which you returned. Inside, you placed some literature sent to you apparently by the Davidian Adventists. I have news for you. I consider just about everything they put out as rubbish. I am already on their mailing list and have already received the same things from them. I will give them the credit for one thing. At least they are consistent where the so-called "Testimonies" are concerned. The main body of Adventists do not really believe in and teach them as they profess to.

You say I must have a distorted or fevered mind. Would you care to come and see me and examine my mind? The welcome mat is out.

Your brother in Christ,

Donald E. Mote
