

## TESTIMONIES OF INTEREST

Three years ago I came in contact with some friends in the Bible study circle for the first time. I found interest in the word of God, but it was for me more of a social opportunity. I liked their company for I found them of such peace of mind and love, but I was too busy with myself, my specific problems as a new emigrant. My main concern was to be established in a good job, to furnish our new flat, to earn some additional money for a frigid air. My wife became a believer in Jesus, but this did not arouse in me any special interest. About a half a year ago, although things seemed to work out well, I became more and more impatient, and couldn't find peace of mind. Worldly goods did not satisfy my soul. During this period I became harsh with my wife because of her faith. Her calm reaction, however, annoyed and irritated me to a great extent. It only increased my restlessness. I thought of committing suicide, but in that very same night, the Lord Jesus appeared unto me, and saved my life for eternity. An old believer visited me and spoke with me many hours about Jesus, Yahshua in the Hebrew tongue, and about salvation, in His name. I made my final decision, and surrendered my life to Him. Now I am happy and settled, and my only desire is to serve Him and fulfill His commandments. Only since that night do I really know what peace and joy of mind means. The grace of our Lord Jesus Christ be with you, Amen.

Jaakov M.

"I am the only child of a Jewish family. In my parents house I never heard about a living God, but only about Kosher food, and dishes, is the only proof that I grew up in a Jewish home. Several months ago some friends told me about a Bible study circle, and one evening we both decided to go. I had never read the Bible before. In my country the Bible is never taught because it is situated behind the "Iron Curtain". It was the first time we had heard about Jesus of Nazareth. We decided to go again and after several sessions, the only topic between my husband and I was the teaching of Jesus. Not as trying before to get my husband to go to dancing, I began to ask him to stay to home so we could read the gospel together. One night after returning from a session of Bible study, during the whole night I was very much troubled, and was measuring the length and breadth of our bedroom till almost dawn. The question how could a Jewess like me become enthusiastic about the teachings of Jesus. This restlessness increased, until three nights later I was playing with suicidal thoughts, but that very night Jesus worked on my heart in such a miraculous way that all of my fears and doubts suddenly disappeared. I felt suddenly such an overflowing warmth, and such a wonderful peace in my soul. Now after having this wonderful experience I told my husband that I have fully realized that Jesus (Yehshua) is the LIVING Messiah of Israel, and that I have accepted him as my personal Saviour and redeemer.

I expected a strong reaction on the part of my husband, but to my greatest surprise he told me that the same change had occurred in him almost a fortnight before, but that he did not dare to tell me having seen my troubled heart, and anxiety state. Since that great day our whole way of life has been changed. Now our greatest delight is to pray to God together in the name of Jesus His son, whom we have thus discovered to be the real Messiah of Israel". He is abiding in our hearts, and is always present in our new home".

Leah G.
