

MILLIONS HAIL KING OF KINGS

NOBODY BEEFES ABOUT INDIA'S RECORD BEEF

BOMBAY, INDIA (MPI)

Our on-the-spot correspondent reports that the last vestiges of the Old World idea that cattle are sacred has been extirpated. Indians now enjoy a good Jerusalem cut steak like anyone else.

The Indians are so overjoyed with this new-found truth that they gobbled up more steak per capita than any other nation.

Our on-the-spot reporter was invited to one family's home for a sumptuous outdoor charcoal steak dinner. As Abraham Abansali, the head of the house exclaimed, "It's such a blessing to have so much to eat. And to think, all those years in the Old World — we had all these cattle. They roamed the streets. Ate our food. We worshipped them instead of worshipping God and eating them as God wanted us to do."

It's heartening to see such a change in this wicked nation.

The "swords into plowshares" principle swings into its final stage as these iron monsters of destruction are converted to stump-pulling, log-dragging, land-plowing tools of peace.

TOTAL DISARMAMENT ACHIEVED!

Only piles of scrap metals and noncombustible war relics remain as disarmament program reaches final climax

MPI JERUSALEM (MILLENNIAL PRESS INTERNATIONAL)

Hailed as the BEST news of the good news you've been hearing is the wonderful announcement of the last vestige of destructive weaponry disappearing from earth!

Thousands of workers cheered the Ruling Family of God as members attended the formal ceremonies marking the conversion of the last munitions factory in Irkutsk into an ultramodern solar-

powered automobile works. This brings to a completion the huge, worldwide search for hidden arms, war relics, ancient souvenirs, and unexploded ammunition that has become such a part of the news of late. Millions cooperated in the search, which netted untold thousands of tons of potentially lethal weapons, gas canisters, knives, bayonets, rifles, pistols, submachine guns;

even rifle grenades, bazooka shells, and large numbers of Laser Rays. Joyous youths witnessed the fireworks as angels flashed through dumps of ammunition set harmlessly in as yet uninhabited wastes, exploding the dangerous devices with blasts of lightning and fingers of fire.

All Nations Report Completion

The ceremonies in Irkutsk marked the final nation to report TOTAL disarmament, accounting for and dismantlement of all weapons systems, manufacturing plants, arms stockpiles, and even museums of arms.

"Never again," thundered a Spiritual Messenger, "will mankind be allowed to manufacture implements to take human life!" Then He warned against using *household* or *farming* implements, such as hoes, rakes, scythes, or kitchen knives, to maim, to injure, or to kill! "Remember," He said, "TO HATE IS TO BE GUILTY OF MURDER!" And the penalty for MURDER, you know, is swift, SURE, INSTANT DEATH! Apprehension, He warned, is INSTANTANEOUS — and reminded the sobered throngs of the only two tragic cases on the whole of earth in this past year. Crime detection is so fantastically swift and sure today — through the invisible presence of our Guides and Leaders, that WOULD-be criminals are detected WHILE THEY'RE ALLOWING THEIR MINDS TO CONCEIVE OF CRIME!

So REJOICE, with the rest of earth — that the last of the weapons are gone.

AN AWESOME DEMONSTRATION

— Christ praised by million-voice choir of angels
— Kings of many nations in humble prayer

The streets of the Holy City filled with visitors from all earth on the occasion of the pre-Fall Festival STATE OF THE WORLD message from the Great Lord CHRIST recently!

As His magnificent, blinding, rainbow-hued attendants stood on the broad "sea" of transparent glass-like stone, an awed silence fell over the massive crowd. Then, the now-familiar MIGHTY, powerful voice SHOOK the very

ground! One million Angels sang praises and ovals in song as the Great Divine King of all the universe took His place on His glorious Throne.

Then came the most wonderful news to ever fall on human ears! Christ spoke of the super-miraculous accomplishments of the past few years, but warned of the much greater and ever more productive effort that yet lies

ahead. He talked of readying this great earth for the biggest and most sudden population explosion in the history of man — the GREAT JUDGMENT of the future! Millions were at once happy and sobered as they recalled, once again, the sordid, wretched, miserable existence of the billions yet buried and forgotten; but made HAPPY as they looked toward the great RESURRECTION of these uncounted hordes of hapless humans — and realized THEY would see, with their own eyes, the glittering end result of ONE THOUSAND YEARS' rule by the Conquering Christ!

The awesome message recounted, briefly, the history of man from the time of Adam's sin, the great FLOOD of Noah (as Noah Himself nodded soberly), the call of Abraham (to which the great King Abraham said, "SO BE IT!") and the captivity of Israel (to which Israel [Jacob] said "AMEN!")

Revelation, and the final series of three fantastically destructive wars. He then pointed to the fabulous accomplishments of the past few years and again cited many prophecies He had directed, such as the whole book of Zephaniah, much of Isaiah, Jeremiah and Ezekiel; much of Micah and Amos, and most of Habakkuk. Each Prophet, as His name was mentioned, thundered a resounding "AMEN!" to the words of His King of kings.

What a sight! At the conclusion of the state of the world message, the whole assembly fell to their knees, bowed their heads, and said, "GREAT, WONDERFUL, AND (Continued on page 4)

WORLD-THAT-WAS SCIENCE STUDENTS PROGRESSING IN UNLEARNING COURSES

MPI Release

The new now-famous "Unlearning Courses" in the New-World's universities scattered over the earth are making remarkable progress.

Those who were scientists and science students in World-That-Was universities and technical institutes have, first of all, been learning the painful lesson that it is far more difficult to unlearn error than it is to learn new Truth.

"I can see now," commented one former world-famous "scientist," "why this Unlearning Course in Science has had to be a full seven-year course. In classroom and in labs, I will see plainly demonstrated as ridiculous error some postulate I had accepted and firmly believed since freshman college. But then, before I realize it, I will catch myself starting to quote this theory or that hypothesis as a matter of habit. Once 'knowledge' whether true or false is accepted as fact, and believed, it seems to become fixed habit to speak of it, or to find my

mind reasoning out a problem with the erroneous approach of that hypothesis.

"What a disillusionment! I see now that errors come from rationalizing from a false hypothesis, carelessly taken for granted without proof, and assumed to be true. And we who called ourselves 'scientists' and set ourselves forward as the world's custodians of knowledge — thinking we had a corner on the world's 'knowledge market,' now suffer the indignity of finding that we who professed ourselves to be so wise were only fools!"

All over the new world, former scientists, educators, and students are being humbled in the discovery that they had mixed so much error with fact and truth that now they must take out seven years of their lives, to unlearn the complicated labyrinth of error, to clear their minds, so that they may start from scratch and gain a true education for useful and happy lives.

COMMUNIST HORDES BURIED — Seven month job finally completed

The massive burial project that began just seven months ago was finished exactly on schedule yesterday, according to sources in Hamongog.

The two hundred million soldiers that attacked Jerusalem last year, as predicted in Revelation 9:16, were dramatically and efficiently wiped out by hailstones, fire, and brimstone from the sky. In just one day, five-sixths of those soldiers were killed (Ezekiel 39:2), leaving a gigantic job of burial.

King David immediately offered thanks to God for His miraculous deliverance, named the valley Hamongog ("The multitude of Gog"), and ordered his men to the task of burial. For seven long months now, these burying teams have willingly performed this grisly task.

Immortal Joshua, in charge of burial, said the task went very smoothly, fitting right into the prophetic timetable God set in Ezekiel 39:12.

Joshua also saw the necessity to send men of "continual employment" to canvass the millions of square miles of Asia to bury those who died during the Day of the Lord who are not yet buried. He asked all citizens worldwide to mark the bones of any war casualty and inform his burial crews so they can bury these bodies. "With the co-operation of everyone," said Joshua, "we can (Continued on page 2)

GERMAN REFORESTATION PROGRAM ACCELERATED

— Tree planting in Rhineland reaches one million per month
— Workers sing "Deutschland Unter Gott" while planting trees

SPECIAL (From the Assyrian Capital — REPENTANCE, Rhineland)

A vigorous tree-planting program, aided by hundreds of thousands of housewife and teen-age volunteers, is proceeding with blinding speed in this former waste of broken tree trunks, smoldering brush, and shattered rock.

New imports of tiny, young firs and pines from the fabulous new rift valley north of Jerusalem have been flooding into the Rhineland across the eastern Mediterranean highlands via solar-powered transport saucer. Each huge disk carried up to 900 tons of young trees. Herr Manfred (man of peace) Gottlieb (God's love), director of the reforestation program, under the personal supervision of King Paul's appointees, Aristarchus and Gaius, cites the speed of the saucers (17 minutes flat from the rift

valley to Rhineland planting areas) as being the key factor in the preservation of the young trees. Balling, wrapping, and careful watering en route are rendered unnecessary by the novel transportation method.

Already, thousands of acres shine with newly planted greenery in what has developed into one of the most systematic, methodical and energetic reforestation programs anywhere. Gottlieb asks your prayers that their 2 million trees per month mark will soon be reached, helping create needed watershed during the fine, softly falling rainy season they're having. With their new cry of "DEUTSCHLAND UNTER GOTT," the teen-agers flock to the highlands each day with their picks and shovels — rejoicing in the creative work they've been given to accomplish.

WEATHER IN REVOLUTION — FOR THE BETTER

Every capital city around the world reports beautiful weather! The terrible floods, typhoons, tornadoes, the destructive hurricanes and droughts which swept over the world a few years ago are now things of the past.

Sunny skies and beautiful sunsets occur everywhere on earth. When it rains, it rains just enough to give people a refreshing change of pace, and to water the abundant crops.

Since the time Christ came, there have been no tornadoes tearing up communities; there have been no hurricanes lashing coastal towns and cities; and no floods have irrupted over the land, sweeping away homes and drowning thousands.

Weather experts state there has been a tremendous CHANGE in the weather pattern — FOR GOOD!

The jet streams, high above the earth, no longer behave in an erratic manner.

Whole mountain chains have been lowered, or removed entirely — entire island chains removed or relocated. This has provided for the proper circulation of water and air currents. Since the people have turned from their pagan ways, and now live obedient to God's ways, He has definitely begun to bless them.

The prophecies of the Bible are coming true. God said, "If ye walk in my statutes, and keep my commandments, and do them; Then I will give you rain in due season, and the land shall yield her increase, and the trees of the field shall yield their fruit. And your threshing shall reach unto the vintage, and the vintage shall reach unto the sowing time: and ye shall eat your bread to the full, and dwell in your land safely" (Lev. 26:3-5).

Those people who have lived through the Old World and into the New, are

among the ones who express forcibly their appreciation for the dramatic change. Having experienced the weather upsets, the storms and fury of weather upheaval in the past, they can see what a tremendous DIFFERENCE obedience to God makes!

MAJOR NATIONS' TRUE IDENTITY

Some people — even after many years of the New Age have passed — are still reverting to names of nations used in the Old World. Some have even forgotten the true names. Below are some that must be learned by one and all. Next week we will present another series of seven countries.

Old World Name	True Biblical Name
France	Reuben
United States	Manasseh
Great Britain	Ephraim
Soviet Union	Meshech
Germany	Asshur
Egypt	Egypt
Jordan	Ammon

Agriculture News

FARM LABOR SURPLUS

MPI JERUSALEM
At a world convention on farming techniques, Amos, former farmer who was called to prophecy, and now given control by Supreme Director Joseph over World Agriculture, cited the growing problem of farm labor surplus.

It was caused, in part, by the increasing numbers of former ministers of all former "faiths" insisting upon farming as their choice of occupation. Amos told of the preoccupation with many former clergymen with farming before delegates (on the immortal level) from more than 100 nations, and encouraged each delegate to inspire additional agrarian reform in order to create more jobs.

In spite of counsel concerning the utilization of many portions of their past experience in other fields (among those noted: Teaching, Clerical work, Postman,

Policeman), he found an amazing percentage of the ex-clerics determined to enter the farming profession.

"Many disclaim any real knowledge of their past," he said, and explained that it was "almost miraculous" how many of these men cannot remember their past!

It seems astonishing, today looking back into the former world, when nearly every one at least in the Occidental world — had God's own printed Word foretelling plainly these exact conditions, that the whole world, including the clergy, could have been so blinded.

What we are now reporting as TODAY'S NEWS was plainly written, then, for all who were willing to read. Said God through Zechariah: "And it shall come to pass in that day, saith the ETERNAL of hosts, that... I will cause the prophets [clergy]

and the unclean spirits to pass out of the land... And it shall come to pass in that day, that the prophets [clergy] shall be ashamed every one of his vision, when he hath preached... But he shall say, I am no preacher, I am an husbandman; for man taught me to keep cattle from my youth" (Zech. 13: 2-5).

Millions wonder, today, why they could have ignored God's own Word speaking to them, saying: "My people hath been lost sheep: their shepherds [clergy] have caused them to go astray" (Jeremiah 50:6). And many other passages showing that the clergy, professing the NAME of Jesus Christ, were "feeding themselves, and not their congregations" (Ezek. 34:1-2).

Strange Fears

Said Amos, "It's as if they are all gripped by a strange fear that pursuing any occupation even remotely relating to their former lives would accrue to them some form of guilt. These men all share one thing in common; a deep disgust with their tragic pasts!"

In a flurry of committee activity, quick solutions were found. It was decided to immediately establish additional farming instruction centers in several of the African and Asian nations to give on-the-job training to these recent enrollees. Upon successful completion of their 3-season training, they will be granted

deeds for acreage dependent upon the size of their individual families, and join the growing number of prosperous farmers on earth.

Delegates hailed the quick, decisive solutions as "directly guided of God" and "Absolutely inspired by the God Family" as Amos, a member of that great Ruling Family, displayed His infinite patience, wisdom and understanding once again.

The ex-clerics would sincerely appreciate no more wry humor, passing jokes, or even remote reference to their past. And, obeying your God, you'll comply! An enjoyable sequence to the conference was at the milk break, when Zechariah reminded Amos (who knew it all along) of His prophecy centuries before — quoted above (Zech. 13:1-5) — which He was joyful to see occurring at last!

"Most of them were just frustrated farmers, anyway," chuckled Zechariah. He then related how one such future farmer said he must have totally misunderstood a pseudo-vision he once had. He felt "led" (but later admitted this was his own personal vanity trying to attach "spiritual implications" to his own personal desires) to follow the vision, which had seemed to say, in huge, glaring letters "PC." He interpreted this to mean, "Preach Christ," when he now knows it meant, "PLOW CORN, PLUCK CHICKENS and PICK COTTON!"

H. Armstrong Roberts Photo

Peaceful, pastoral, productive scenes like this are fast spreading over this formerly war-ravaged earth as God's laws are obeyed, and His instruction applied.

Farmers Incredulous at Land's Productivity in New Age; Vineyard Owners Report Unparalleled Yields

Because of God's blessings for obedience, farmers in the valley of Jezreel report that their investment in land and agricultural implements is rapidly being paid off. Those farmers who can compare today's New World farming productivity with the problems of farming in the Old World, and the continually increasing debt load they then had to bear, can hardly believe their eyes.

One farmer was heard to exclaim, "I was plowing the south forty yesterday, and I caught up with my eldest son who was reaping our wheat crop. My land produces the year around!" Others who heard this chance remark nodded in assent, for they, too, had similar experiences.

Thus came to pass the old prophecy of Amos, "Behold, the days come saith the LORD, that the plowman shall overtake the reaper, and the treader of grapes him that soweth seed; and the mountains shall drop sweet wine, and all the hills shall melt" (Amos 9:13).

Also in fulfillment of this prophecy, vineyard owners report unparalleled yields of grapes. The wine vats are overflowing. And the wine is the most delicious, sparkling, and wholesome of any wine previously made.

Farmers are not mortgaged up to their ears in debt; rather, they are among the most prosperous people in New-World society. And

those engaged in other kinds of endeavor, obeying God's tithing laws (Mal. 3:8-12), are also receiving unsurpassed prosperity. Debt — once the commonest problem of mankind — is fast becoming an unknown commodity!

"God's tithing law surely pays," one merchant exclaimed. "It pays to serve God," another replied with conviction. "Never have I seen so much abundance in my life!" "God's way surpasses our old human ways in the Old World as much as light excels darkness," another answered. "Who, seeing the blessing of obeying God, could ever want to return to the way of man?"

INDIA PRODUCES BUMPER WHEAT CROP FOR YEAR

NEW DELHI, INDIA (MPI)

This year India had to request economic assistance from Manasseh to build fifty emergency grain storage silos. One of these, in the delta region will hold more wheat than the silo just built by Ephraim on the Russian steppes.

India plans to pay for these silos by selling surplus

wheat to China, which is still struggling with her agriculture. This year the Chinese sent envoys to Jerusalem, begging for help from Manasseh.

There is so much wheat in India, it's being stored in streets and fields. One is amazed by the abundance. It looks like a veritable ocean of grain in some provinces.

Egypt recovers from Drought; Learns Obedience Pays Dividends

CAIRO, EGYPT

Egyptian officials report that a bumper wheat crop was harvested this year from the regions of the upper Nile. The Nile River overflowed its banks this year, for the first time in three years, and hard-working Egyptian farmers are working over-time to harvest the bounty.

Record crops in vegetables, as well as wheat, are being

reported from all parts of Egypt. Egyptian enthusiasm over the new farming policies knows no bounds. Joseph, Supreme Director of Agriculture, World Economy, Industry and Commerce, is a very popular Personage in Egypt. "Finally," Joseph reports, "the Egyptians have learned their lesson!"

For two years the Egyptians suffered dreadfully, be-

Bob Taylor Photo

The fine, rich heads of wheat coming from Egypt's once-barren wastelands typify her new productivity since she yielded to God's way.

cause they stubbornly refused to obey the commands of Christ issued from Jerusalem. Their punishment was severe drouth and blistering heat, searing the land and bringing all land-production to a standstill. Famine struck, and later, disease began to take its dreadful toll (see Zech. 14:16-19).

However, Joseph tells us, the Egyptians have had a change of heart and have been striving to learn God's way of agriculture. Their obedience this year has been blazed around the world as an example for others to follow.

low. And, beyond all expectations, their obedience has paid off.

Once again, because of the tremendous surplus crops being harvested this year, Joseph has ordered that grain storage tanks be built to store the huge surplus. This year Egypt will have several million tons of wheat to export to the newer nations to the south. The prospects for the future, according to Joseph, are brighter than ever before, since the people have finally learned their lesson that obedience pays rich dividends.

Wide World Photo

This Old World photo shows the pyramids, symbols of Egypt, and the stark, dry, dead, desert land, symbol of her disobedience in former times.

REVOLUTIONARY ZOO OPENS DOORS IN EAST AFRICA

— Not a cage in sight; animals walk with visitors.

DAR ES SALAAM (MPI)

This newspaper's "Will Wonders Never Cease Department" just returned from a visit to the zoo, some twenty-five miles west of Dar es Salaam. A stranger zoo we have never seen!

There wasn't a cage on the entire premise! At the sight of the first pride of lions ambling our way we turned to run—but noticed a small

child with two tufts of lion's mane in his little hands, straddling the shoulder blades of the lead lion. If that wasn't enough cause for alarm, from the other direction there approached a leopard—and with it, a fat little kid goat.

As we stood there in amazement we suddenly became aware of animals all

around us—but none of them seemingly felt out of place—or hungry! The only really hungry animal we witnessed was a sleek, healthy lioness. She stood by the roadside munching contentedly on a small mound of hay, watched all the while by the brown eyes of a large ox.

The zoo-keeper predicted that such zoos would even-

tually capture the imaginations of the entire world. Where else could you take a small child on such a thrilling and educational tour but through a zoo where you were as welcome as the animals!

Next thing you know they'll have bears and cows eating oats together! (Isa. 11:6-9.)

King David Appoints Jew to Head Assyrian Farm Implements Factory in Ruhr District

— Former "Krupp Works"

JERUSALEM (MPI)

King David announced here Wednesday the appointment of Judah ben Levi to the post of President and Chief Advisor for a major

Assyrian Industrial firm in Essen. The appointment came as a result of a recent request by a Krupp representative for someone from

among the immortal rulers at Jerusalem to come to instruct them in the ways of God. (Isaiah 2:3.) This marks the first former-world Jew designated to head a former German Industrial concern.

King David further indicated a complete reversal in the production goals for the entire Ruhr district. Under the leadership of Judah ben Levi, the number one product expected in the next few years will be an all new atomic powered tractor-combine unit to help solve the impending crisis in the Mojave, Sahara and Siberian wheat fields. With the rains in due season and the rise in farm labor, German industry under Joseph-appointed leadership of Jews now made immortal, is being called on to invent newer and better harvesting and farm equipment. (Isaiah 35:1.)

Also under consideration are single-unit construction steel silos for storing grain in India, better steel plows for use throughout the world and other gardening and agricultural implements to meet the increasing demands in each nation.

"It will require the combined forces of Jewish genius and German drive and industry to meet the severe shortage of farm tools we now face," Lord Levi said. "But with perseverance and cooperation the furnaces of Essen will give to the world the machinery for a sustained prosperity to last a Millennium!"

CURRENT EVENTS QUIZ

- The worldwide divorce rate is a) one in three b) one in three thousand c) one in three million d) no divorces
The King of Israel is a) Judah b) Ben Gurion c) David d) Eber
Which nations compose the Triple Entente a) Egypt, America, and Israel b) Israel, Egypt, and Assyria c) China, Russia, and England d) Israel, Japan, and America

In the recent cataclysmic battle against Asia, how many Asians died? a) 10,000 b) 1,000,000 c) 100,000,000 d) More than 150,000,000
The job of the twelve apostles is a) In charge of all construction in Egypt b) Leading the Twelve nations of Israel c) Directly aiding the apostle Paul d) In charge of world shipbuilding

Hordes Buried

(Continued from page 1) cleanse the whole area of any of these ugly remnants of the former world." It is recalled how, several years ago in the former world, the Communist ruler

Khrushchev had threatened Manasseh, then called the United States, "We will bury you!" He should have realized that he who kills with the sword shall be killed by the sword—and he who would bury others shall be buried by those others!

Nearing Completion

SUPER-HIGHWAY CONNECTS JERUSALEM, BERLIN, CAIRO

— To be dedicated in time for festival rush.

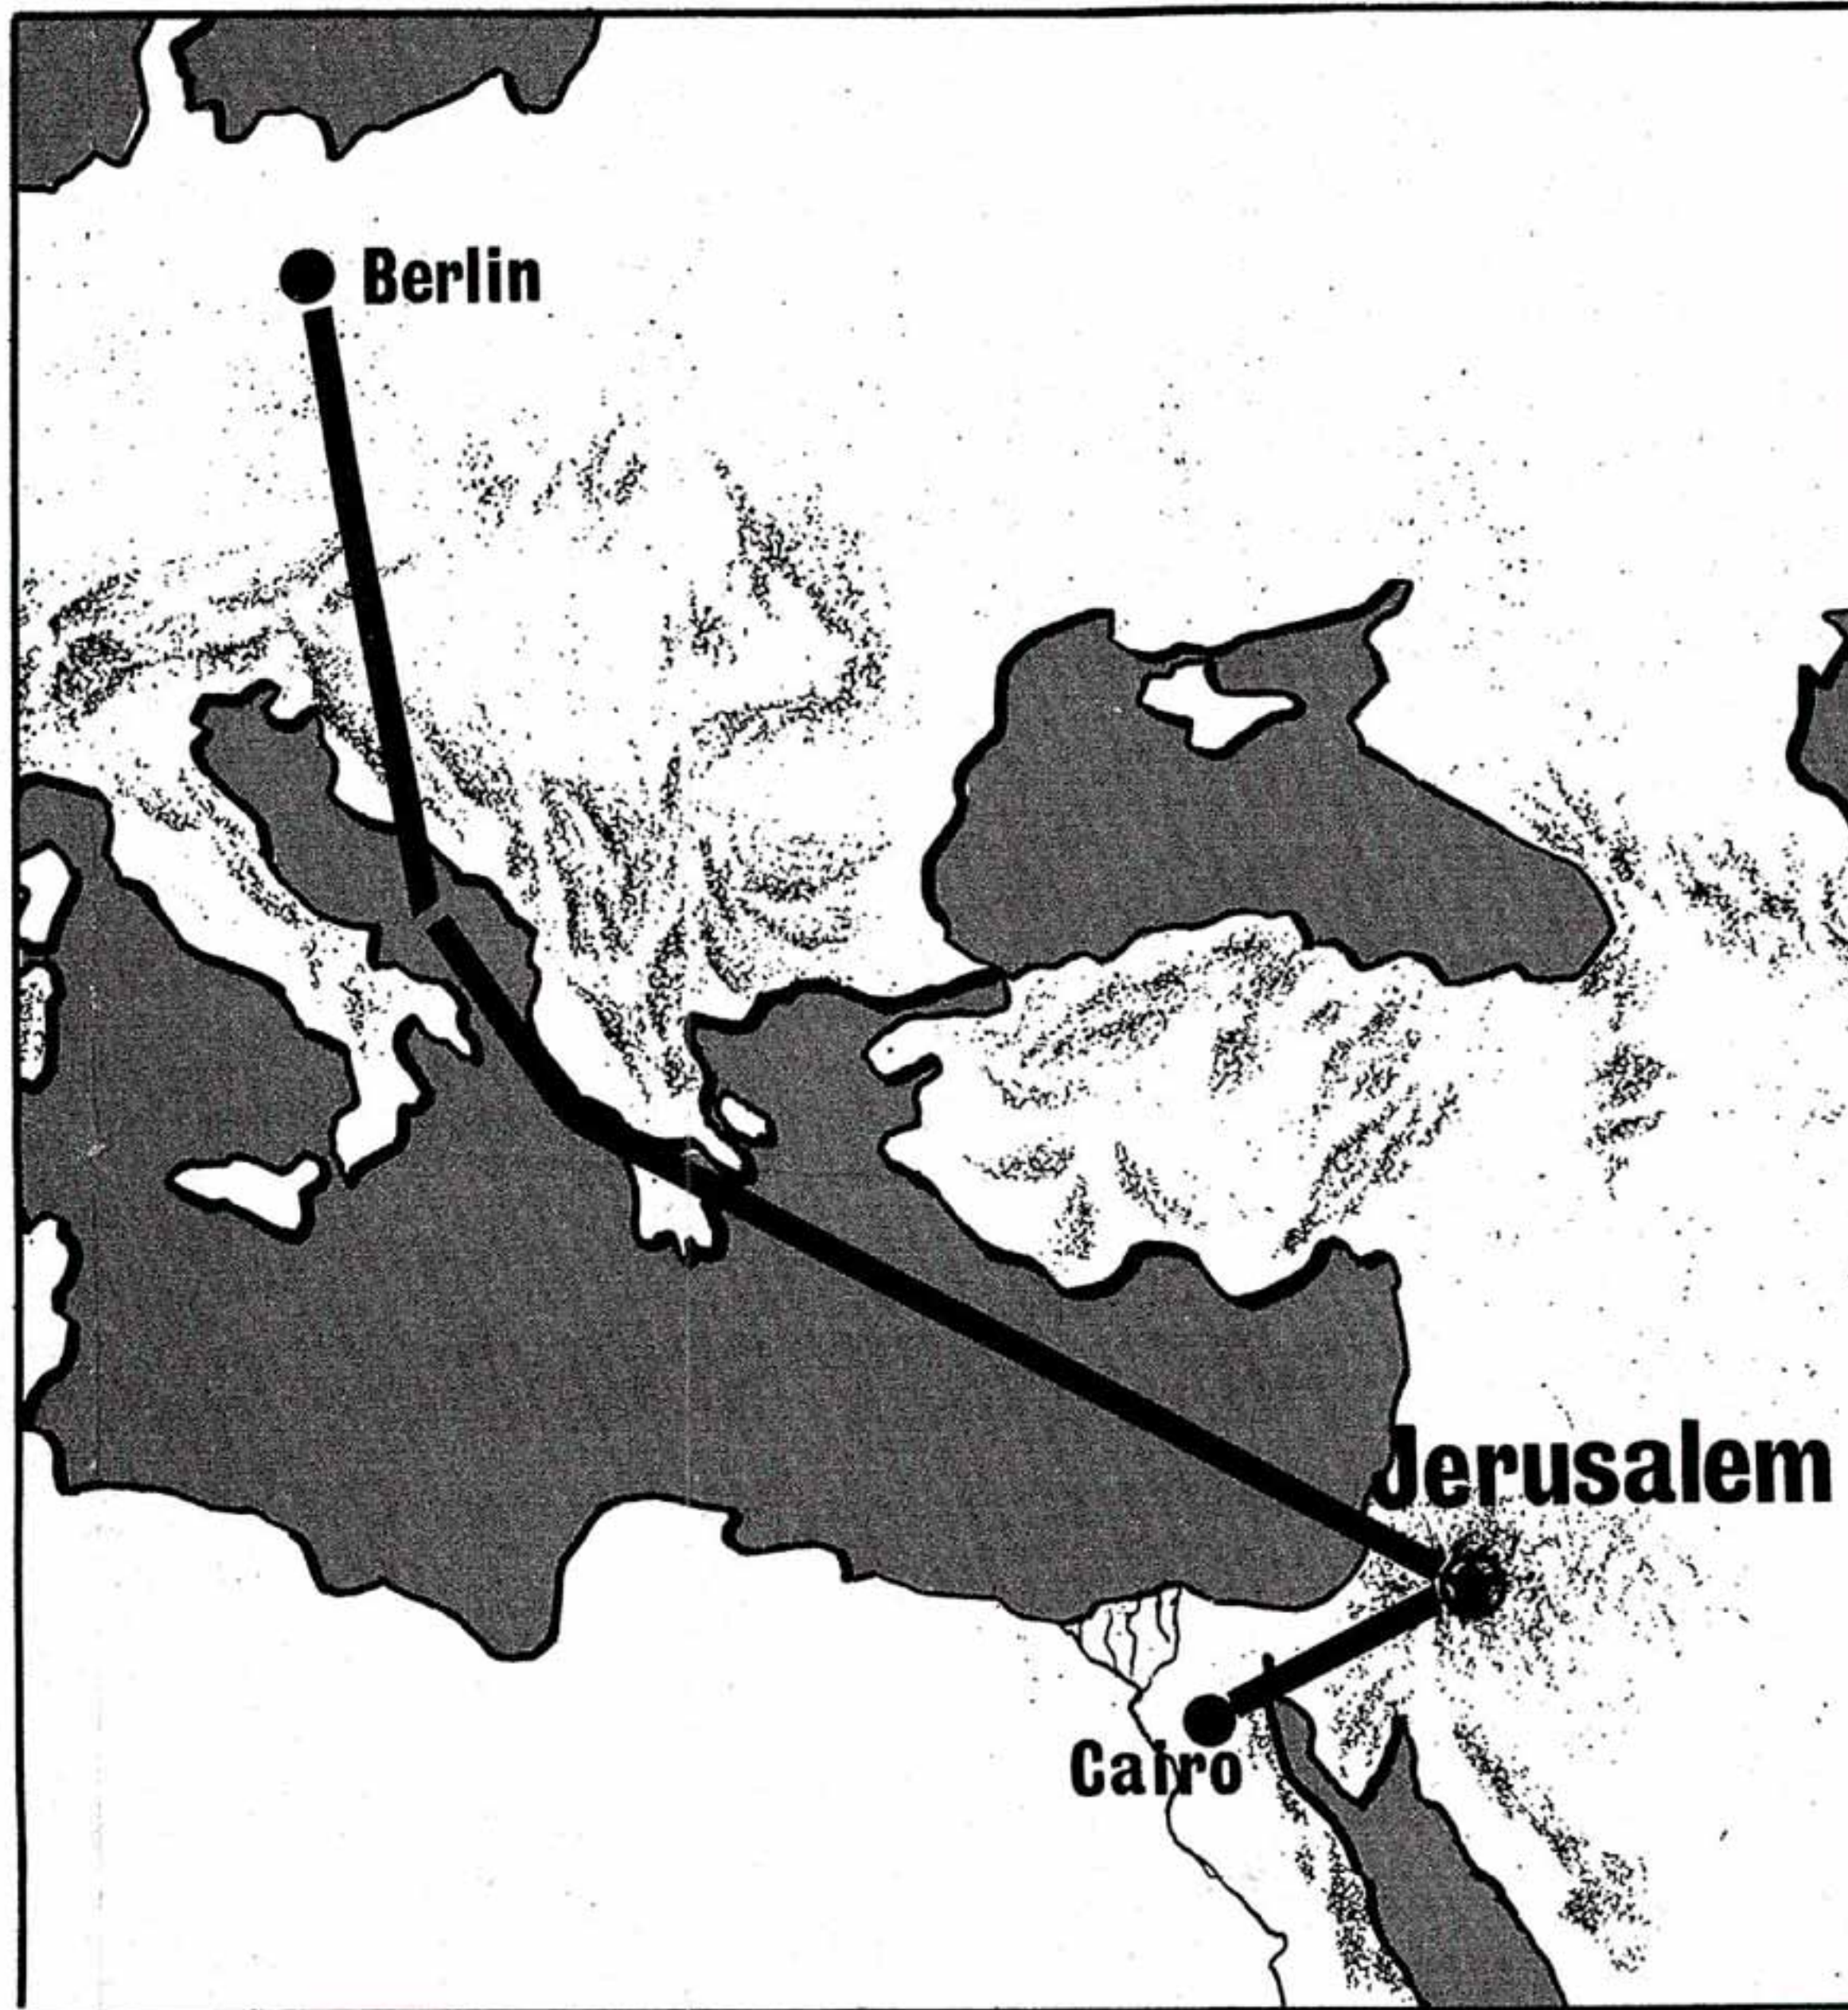

MPI (Millennial Press International) Assyrian (German) engineers and construction crews on the mortal level are working at a feverish pace to complete their section of this first great highway project of the Millennium. Manasseh-Mizraim (USA-Egypt) construction teams are putting the finishing touches on their link of this vitally needed highway. A completion and

dedication celebration is planned for the twentieth day of the sixth month. Isaiah will officiate, with the apostles Peter, John and Paul included among the speakers of the day.

The linking ceremonies will be held (see Map) at the center of what was formerly the Adriatic Sea. Specific invitations have been sent to immortal level representatives of all nations to attend these dedications.

With the completion date assured according to plan, the first public use of this highway will be made by the millions attending the Fall Festivals in Jerusalem! Again the wisdom of every detail of God's Great Plan is accentuated by the use of this Millennium transportation first!

Isaiah is even more joyful than most at the fulfillment of God's prophecy revealed through him so many thousands of years ago: "In that day shall there be a highway out of Egypt to Assyria, and the Assyrian shall come into Egypt, and the Egyptian into Assyria, and the Egyptians shall serve with the Assyrians. In that day shall Israel be the third with Egypt and with Assyria, even a blessing in the midst of the land: Whom the Lord of hosts shall bless, saying, Blessed be Egypt my people, and Assyria the work of my hands, and Israel mine inheritance!" (Isa. 19:23-25.) "That day" is now here!

This Old World map shows the new superhighway in relation to the geography-that-was. This highway could not have been built prior to the changes made at Christ's return!

The Bible -- BASIC TEXTBOOK FOR ALL PUBLIC SCHOOLS

— Supplementary Textbooks Rewritten. Error edited out
— Educators Discover Bible Covers ALL Subjects in Principle

Since the Bible is the foundation of all knowledge, it is used as the primary text for all grade and high school classes, from the first grade on up to the senior high school level. The Bible is also the BASIC textbook for all college-level classes dealing with science, psychology, biology and history as well. The New World grade and high schools, since the beginning of the New World, have had classes in Bible and Bible history. Since the time the glorified Christ came to straighten out the educational chaos in the world, students have been

privileged to study from God's own Word daily and to view world history from its true perspective.

It was announced that new classes are now being started at the university level on post-Flood history and pre-Flood history. Classes dealing with the deluge itself will be taught by Noah, at the headquarters university in Jerusalem, and the material will be published for the benefit of all universities in the New World. Noah's first discourses on the subject received enthusiastic applause and a tremendous response from

every student. His graphic and detailed explanation of how the whole world was flooded enthralled the audiences who heard him.

The Bible—the basic textbook of public schools—is no longer looked upon with contempt by educational administrators, as happened so often in the Old World. Prayer in public schools, also, has been practiced since the coming of Christ. Already far-reaching results of

the new program of education are seen. Darkened, ignorant minds, long totally devoid of any true knowledge of God, are now UNDERSTANDING God's Plan of salvation for the ages, and how He is working it all out. As the Bible is used exclusively as the basis of all true knowledge, peoples around the world are beginning to really understand true history with God's knowledge available to everyone for the first time.

MUSEUM OF THE PAST—6,000-YEAR HISTORY OF MAN UNSCRAMBLED AT MEGIDDO

DATE LINE — MEGIDDO

Millennial Press International (WORLD NEWS RELEASE) . . . With the cutting of the traditional purple ribbon, the hushed stillness of the morning was shattered by the cheers of a gigantic throng of delegates from every nation in the world. These delegates along with the entire membership of the WORLD ASSOCIATION OF THE RESTORATION OF TRUE HISTORY eagerly assembled here to witness the dedication of another magnificent building in the Plains of Megiddo.

But there was something extra special about this seven-story towering edifice besides its awe-inspiring architecture. As one delegate put it, "When we swung open the main doors of the museum, it was like turning back the pages of history. This is what the entire

world has been waiting for." The artifacts of the past have been excavated from their various protective burial spots all over the earth and brought here for their ultimate place, not to be hidden in strata but to be viewed for everyone to see.

Each one of the first six floors represents one of the six thousand years that man was on the earth. The seventh floor is vacant waiting to be filled with the significant artifacts of the Millennium.

On the second floor, the display that attracted the greatest crowd contained timber from the hull of a 66,000-ton craft — just recently discovered on Mount Ararat. The expedition teams also brought back with them many of the charts and documents that Noah had left aboard sealed

in earthenware bottles. These navigation charts have been wildly acclaimed because they show the course of the ark before the flood. They show details of various inlets, rivers, streams, and bays.

The documents in the handwriting of Shem, Ham, and Japheth as well as Noah have settled once and for all the argument concerning the six thousand year old question — what did the Genesis kinds look like? What were their general characteristics? (Gen. 6:19-20.) Besides a detailed written account there were beautiful sketches drawn by Japheth.

These are just a few of the many artifacts on display. Each of the hundreds of different archaeological finds make the Bible from Genesis to Revelation a living, vibrant book.

American Stock Photo

Born at the close of the previous age, this little girl will never have to live in smog-infested, fear-permeated concrete jungles that were the cities of the Old World — here she typifies the new generation, our favorite blossom among all the flowers at the recent Jerusalem show.

JERUSALEM GARDENS AWE VISITORS TO CITY

JERUSALEM (MPI)

King David presided today at the opening of the first annual Best Homes and Gardens show in the City of Peace.

From the seeds and cuttings distributed from Jerusalem, the entire world is developing into one massive garden spot of beauty. In the next few years travelers will be able to stop anywhere — Cairo, Nairobi, Helsinki and

Kamchatka — and enjoy the influence and beauty of beautiful Jerusalem. Everyone will have the Best homes and the Best gardens, thanks to the worldwide beautification program instituted today.

As the purple ribbon was cut, immortal emissaries from around the world and from every nation were on hand to view more than thirty thou-

sand choice young plants and to learn the methods of growing them properly.

Visitors from around the world were given free samples and cuttings to take back to the respective areas in which they have been assigned to re-establish the agricultural cycles in each of the respective nations (Ezekiel 47:12).

THE HEADLINES OF THE PAST

To give you an idea of what has been accomplished, we publish this daily column. In contrast to today's headlines: Bumper Wheat Crop in India — World Peace Achieved — Prices Down for Third Year — and so on — we present the world situation at the end of the past age.

Megiddo as it was! Ancient site of man's conflict and agony! Final battlefield of earth's rebellious armies, fighting against Christ at His return! Now this is the site of the new museum.

Lost and Found—Classified Ads

LOST: One Bengal Tiger, named "Phideaux Psamm" (pronounced Phido Sam), in the vicinity of the pine forest just outside Marakesh, in the former country of Morocco. Our little girl, age 7, is confident the finder will return her pet immediately — as he follows her to school each day. He'll come when called by name, is fond of clover, and laps goat milk.

FOUND: One tiger, male, playing with our children near the central fountain in the pine forest outside Marakesh. Owner can ask his angel to notify our angel immediately upon reading this notice (Isa. 11:6).

FOR SALE: Baby asp, rattlesnakes, scorpions and tarantulas of registered pedigree; easily trained to become jumpers, and will even dance to music (Isa. 11:8).

BRING your hand-done linens and blankets to the open-air market; our appraisers directly supervised by King Peter's specially appointed angels — absolutely honest. Top prices paid; or swap fig seeds, young pines and firs, or produce.

FOR SALE: International War Relics and Surplus Disposers offers top values in scrap iron, steel, aluminum, tin, brass and lead. Join the crowds of people who can't stand crowds, and become another of the unique owners of an Atlas Missile Bean Silo; or see how attractive a fence you'll have when utilizing our shiny 20 mm. plugged barrels. Buy while they last. But only if you can afford them, and only if you really NEED them. And remember, we have no bargains; only the standard, honest prices you'd set on them yourself.

DISPOSAL PROBLEMS: Are you, too, wondering how to dispose of those old obelisks, perfume bottles, or heathen relics? Let us perform for you the same quick, safe service offered to millions like you the world over — give us a call. Our blast furnaces fully certified by the World Air Pollution Control Center in Jerusalem. Remember — there's a law against building fences around old obelisks and selling tourists tickets to see them — so believe the Proverbs — OBEY your God, get rid of all the refuse now.

SALE ON: Giraffe saddles. Finest hand-tooled leather, no-slip cinch of elephant skin, extra long halters, and giraffe-horn clips. Price: One mina each, or trade for your two old saddles. Basuto Giraffe Saddle, S. Africa.

DIVORCE TOTALLY ELIMINATED!

One of the highlights of the recent State of the World address by the great King of all kings, Jesus Christ, was of the total absence of divorce on the world scene.

Looking back to the time when King Moses had been forced to ALLOW some few divorces on the grounds of fraudulent marriage (Mark 10:2-12) because of the HARD HEARTS of people—it was explained how modern marriages are never contracted in

a cloud of ignorance and doubt; how no fraudulent marital agreement had occurred since the beginning of the world re-education program.

The Ruling Christ showed how ABUNDANT were the lives of the multiple millions of orphans who, even though living in homes where foster parents cared for them, were surrounded with the real family atmosphere they so

badly needed. And, as His Supreme Majesty pointed out, the really BIG benefits will be evident yet in the future when these young children marry, and rear children of their own.

Directly related to the complete absence of divorce, and the lofty pinnacle of the holy and chaste state of marriage is the absence of juvenile delinquency and teen-age rebellion!

Other wonderful progress noted: Youngsters' increased respect for the aged; larger and larger families; the growing parental influence over the selection of the perfect mate for their progeny; almost total absence of congenital deformities and childhood disease (all of which, when parents evidence enough FAITH in Christ, may be healed!) All in all, the present State of the World is TERRIFIC!

RENAMING PROJECT SURGES AHEAD

Map makers were hard pressed to keep pace with the newly named areas of earth recently, as reporting geographical and topographical societies were again ahead of schedule on the new world maps. (The term "Atlas" has been rejected as being pagan!)

Such names as "Atlantic"

and "Caribbean" have, of course, long since disappeared, as being purely pagan; just as "Europe" (from "Europa," ancient pagan goddess) was quickly abolished.

Early changes were too sketchy in some areas, with such cities as "Leningrad," being called "Liarsville" by some enthusiastic renamers.

But as each ancient scar of a city is gradually cleared away, and made beautiful, even painful reminders of the wretched past, including the names, are being erased. Now the visitor sees such signs as "Truthton," "Mercyville" and "Graceberg" in place of "Paris" (another pagan), "Roma" (for Romulus), and

"Schweinfurt" (Pig fort).

And name changing has become the focus of attention in MUCH of the world—where naming contests are being conducted from time to time. Some names remain; like "Mediterranean" which means "between the land," and is an accurate description — "Red Sea" and "Dead Sea" have been changed to "Blue Lagoon" and "Living Lake" because of the total difference in chemical composition and appearance.

One caution given those submitting new names was cited by King David from His earlier writings: "Their inward thought is, that their houses shall continue for ever, and their dwelling places to all generations; they call their lands after their own names" (Psalm 49:11). Said King David, "Let NO man ever again name lands or buildings after HIMSELF, for surely every man in his BEST state is altogether VANITY!"

Jew-Arab Animosity Overcome; Gather for Festival of Trumpets

All the headlines of the past fade into welcome obscurity as Jews and Arabs demonstrate obvious brotherly love in the observance of the Festival of Trumpets together in Jerusalem. Since the first break the rebellion against God's Festivals. At first it seemed they would never abandon their false concept of considering all of God's

Holy Days as mere "Jewish custom"—but after about two years of maintaining their way against God's they yielded and observed their first Feast of Tabernacles (fulfilling the prophecy written by Zechariah so long ago, Zech. 14:16-19).

Now Egypt has become a model for all the Arab nations which had held similar prejudices and is a leader in their re-education and re-

habilitation. This past Pentecost was highlighted by their joy of being able to help spread the good news of God's Spirit being given to every repentant believer of every nation on the earth!

The leading Egyptian present, Camel Abdul Nicer, sent all the delegates homeward with the rousing hymn — "Blessed be The God of Abraham, Isaac and Jacob!"

NEW WORLD REHABILITATION SUMMIT CONFERENCE CONVENES

With the world's top diplomats—now, in the NEW world composed only of immortals—assembled in Jerusalem to attend a "summit conference," to discuss further plans for speeding up world economic development, and the reforestation of desert areas, a galaxy of leaders has convened in the "Holy City."

With the entire world at peace, finally, after 6000 years of bloodshed and strife, the time has arrived to "build the old wastes"; raise up the former desolations" and "repair the waste cities" (Isa. 61:4), announced Joseph, Supreme Director of World Economy, Agriculture, Industry and Commerce.

Representatives from Egypt, Ethiopia, and other African countries submitted factual data relating to urgent needs dealing with their own specific areas.

King of Kings

(Continued from page 1) RIGHTEOUS ARE YOUR JUDGMENTS O GOD, OUR KING, OUR GREAT HIGH PRIEST AND OUR SAVIOUR!" There wasn't a dry eye in the City of Peace, as Angels, bursting with joy and happiness, zipped and flashed back and forth through the streets of the rebuilt Jerusalem.

Look around you. LOOK at the FRUITS of the great RULE of Christ—and PRAISE GOD for all His marvelous works!

Much progress has been made in settling the question of priorities and determining which projects should be given immediate attention, and which must be postponed. Israel has already become a garden spot, unrivaled in the rest of the earth. The riches and blessings of Israel are beginning to be felt in near-by foreign countries, in a powerful manner.

Emissaries from Japan, China, and Mongolia are also attending the conference, to receive specific instructions and to gain valuable insights into HOW properly to develop their national resources in the most effective manner.

Abraham, who is presiding over the worldwide conference, has astonished all present with his outline of the eventual GOALS of the program Christ has instituted to "restore all things" (Acts 3:21). Now world leaders are beginning to grasp a picture of a whole world patterned after the luxurious, verdant, beautiful Garden of Eden! Abraham's opening speech caused much stir among the immortal dignitaries at the meetings, and already plans are being mapped out for FUTURE meetings of the same kind.

A truly "Great Society" is being envisioned — planned for, mapped out—and, part by part, built on a sure foundation of peace, prosperity, and happiness!

TRAGEDY NARROWLY AVERTED

Two young people were saved from committing a serious sin recently, when a watchful, concerned Spirit Ruler in the great Family of God halted them on the brink of making a serious mistake.

Seems their pool-side conversation had slightly degenerated from talking about appreciation of natural beauty to discussing the young lady's figure when with a SWOOSH and a blazing ray of light, a voice like THUNDER pealed out, "THIS is the way — LIVE BY IT!"

The young couple were at first utterly astounded, at the suddenness of it all, and then

Disarmament Achieved!

(Continued from page 1)

REJOICE that our Great SUPER-WORLD-RULING-GOVERNMENT, the Kingdom of GOD will NEVER ALLOW the building of another weapon to cut, maim, injure, hurt, torment, or kill! Be THANKFUL for this additional GOOD NEWS, and PRAISE OUR GOD for it, as does our whole editorial staff!

contrite and ashamed when they realized what a public spectacle they had been making of themselves before their unseen audience of hundreds of thousands. They were directed to their parents—who were instructed to be aware of where their teenagers were at all times!

WEATHER REPORT

LOCALLY

- HIGH, 85; LOW, 65.
- RAIN IN DUE SEASON
- COOL BREEZES ALL DAY LONG

WORLDWIDE

- RAIN IN SAHARA
- SUN IN SIBERIA
- COOL BREEZES THROUGHOUT TROPICS

New, Pure Language Sweeps Earth

— All nations convert to new tongue

— Pagan words eliminated

Re-education and literacy made great strides this month, as thousands of additional schools continued instituting the one-world language program, as directed by the world capital.

Rapidly dropping out of the vocabulary are myriad paganisms and unnecessary repetitions—such as "catastrophe" (the stars are against us), "romance" (do as the romans do—meaning debacle!), "lunatic" (a person with a "tic" or one who has been "touched" by the "moon" or "lunar" surface) and "silhouette" (a skinflint, stinky, French economist).

People are dropping ALL "by-words" (meaning VOW or BY THE POWER OF, or IN THE FACE OF, or AS SURE AS—words), such as "MAN!" "Gee Whiz" (a former barbaric "watered-down" term which almost but not quite took the name of the great World Ruler in vain!). Also out are: "land sakes," "heavens," "merciful

heavens," "land o' goshen," "law" (almost but not quite saying "lord") and "mercy!" (Refer again to Matthew 5:33-37.)

Since telling the ABSOLUTE truth is held as the ONLY STANDARD for earth now, and no protestations, affirmations, assurances, repetitions or recapitulations are necessary, many other useless old expressions are passing into retirement. Among them: "You don't say???" (when he just did say it!), or "Is THAT SO?" (when he just said it was so), or, "Is THAT RIGHT??" (when he just said it was right), and "REALLY?," "Are you SURE?" and "NO KIDDING?"

All "clearings of self" in such expressions as, "Now, I'm really serious about this," and, "just as sure as the setting of the sun," and "seriously, now" are also out the window, since the laws, and the new, direct, PURE language (Zephaniah 3:9) mean simple, straightforward,

TRUTHFUL statements which are BELIEVED!

"September," which means literally "seventh month," used to be the NINTH month in the Pagan calendar. "September" is now REALLY the "seventh month," but it begins roughly where the middle of the former NINTH month was (MISnamed "September"), and ends about the middle of the former TENTH month (MISnamed "OCTOBER," meaning EIGHTH).

The whole world literacy program is proceeding at good pace, with great results.

Educators find their time dramatically conserved by using the vehicle of the pure language for expression; that it totally avoids misinterpretations, misunderstandings, and repetitions—and that it completely and thoroughly EDUCATES, by allowing such DIRECTNESS of speech, such CLEAR meaning that student confusion is rapidly disappearing.

The confusion of alphabets illustrated below is rapidly being brought into the wonderful order of the new, pure language. Another year or two will put these languages born at Babel into history.

MIGRATION TO FARMS CONTINUES

Farm families report that they are no longer having difficulty keeping Junior down on the farm. Young people are no longer leaving the farm to seek the excitement and bright lights of the city. In fact, just about the most exciting place to be these days is on the farm. More and more people in the cities are realizing this, and a mass exodus to the farm is under way. The average age of farmers is now 26, as compared to 54 in the olden days of 19 (ugh!) 66.

The farmer has never had it so good, and the future

looks even brighter. No longer is the farmer faced with the problems of insufficient rain, insect infestation or worn out soil. The burgeoning harvests have broken all previous records. The crop yields per acre are unbelievable. The farmer's standard of living has never been higher.

One of the main reasons for this increase in crop production has been a most remarkable change in the weather pattern. In the "bad ole days," after the fall harvest, the farmer faced the

bleak prospect of the winter snows and the long, unproductive months before the spring planting season finally arrived. Most agricultural activities ground to a halt. This is no longer the case. The old-timers are all abuzz over the new, YEAR-ROUND growing season.

This has posed quite a problem for the reapers. Never before have they had to work under the pressure of the good-natured ribbing of the plowmen who are anxious to get the new crop in the ground. The last sev-

eral years, the job of staying ahead of the planters has become increasingly more difficult for the reapers. This has been due mainly to the overwhelming and unexpected size of the harvests. In fact, last year, the plowmen actually had to wait on the reapers (Amos 9:13).

With the harvest season just ahead, the reapers had been given little chance by most people to withstand the challenge of the plowmen. The reapers and plowmen are all happy, because their race can now end in a DEAD HEAT.
