Dear Brother Armstrong:

I have been planning to write you a few lines but it seemed there was always so many things that need to be done that I could not find time to do it. How are you getting along in the work there, did you continue the Radio work? How are those other ministers Ray, and Oberg, are they doing anything? How was the meeting at Lancaster? Is Brother Oberg out in the work?

I have often thought of the work out there and how well it would have been if things could have remained as lovely as they were for a year or two after I went out there. I have often thought too if I was the cause of all the division. I have thought of many things in connection with the work out there, I cannot mention all of them now.

I am wondering if you had any word from Brother Dodd in regard to your License. Do you know yet if they will take you up on the proposition you offered them? I noticed in the last paper by Dodd, and Dugger that they did not have your name on the list as one of the ministers in good standing, still I notice that they have some on the list who are not ministers, if so then Roy Helms should by all means have Credentials and put him in the field, and I say this with all due respect and love for Roy, but to let you know that I know many of those men and I know that Dugger and Dodd is trying to make a show by the names they have on the list.

Herbert there are a few ministers with them but you would be surprised to know who they have on as ministers who would blush if they should be called upon to dismiss a meeting. People are being fooled by the things they see in the new paper and some of those who are with the new move and who talk to me say that it will only be a matter of time when they will have to clean house again, they know that at present they are granting license to some who they know do not deserve them, but they are doing so to make it appear that there are so many in their ranks. You will learn of all the false moves they are making someday, and I think you know enough now to keep watching. Note how they report things near you, then compare them with what is really being done.

Herbert I am going to tell you that I believe you are to big for Dodd and Dugger and they know it, and are afraid of you. You should be out in the field going to the masses, but they will never place you there, they may be satisfied to let you work around the edges, but to let you come into the position you deserve, I do not believe they will, however at this part of this letter I am admitting "guess work". Have you noticed the number of ministers they claim in India? Did you know that Charles Brush, a man who has been in the work for a number of years, says he knows nothing of most of them, and the main one they have on the list, is being supported by other denominations too. I know one church which is supporting him, but I

don't think they know that He is fooling with Dugger. Notice the number of ministers who they say are in good standing, who are foreigners, now I know that that has nothing to do with them being, or nor being, good men, but why is it that that they had to go to those who know them not, to get their ministers, while there are many, many, who know them and will not go with them?

Now do as I said while I was there, keep your eyes open, wheather you go with them or not, and may the Lord guide you. I would be glad to have you with the church of God that I am with, but I want you to be persuaded from your own findings, and if you ever see fit to work with us then I believe I can be a help to you for I know your setting in the truthes you hold. I wish it were possible for you to attend our Campmeeting, and get acquainted with some of the ministers that know the full story of the division, then you could be better ~~and~~ qualified to render a decision on these things. Really I do believe you are to well talented to be rusting out there when there are places where you could let your light shine so much better. ~~Herbert~~

Herbert, I know that there are few who really care to hear the word out there compared to the places there are in the South and middle west. If you were here I could place you where you could have one hundred on the average all the summer in night meetings, other ministers here have them, and many of them are not qualified near as well as you are.

Now in conclusion, let me hear from you and in the event you should like to cast your lot with the church of God, in the future, I would be more than glad to recommend you to those who would be able to help you on in the work. I believe you would be appreciated should you see fit to come with the church, and I am sure I would not hinder you as I did in time past, and may the Lord forgive me for I did so through ignorance. Regardless of your stand or where you cast your lot or how these few lines strake you I would be glad to hear from you. I have written these lines in a hurry as it is time to close for the week, and the weather is so hot here today that ~~it~~ one can hardly think as he should.

Yours in the faith and Love of Jesus,

Roy Dailey.
