Dear Brother Armstrong:

I just received the Bible Advocate this morning and I note a report there from your work at Eugene, and I also notice a statement about the paper W. O. Dodd is issuing, and also an article on the Feast Days. I am sure, Brother Armstrong, that while you may still look at this as he does, yet you do not approve of his methods. Surely he will get no where in such an undertaking. God wants his people to pull together, and when one is of Paul and another of Apollos, etc., we stand condemned before God. Let us all be for the church of God, and for Jesus Christ. I do not believe you will give this paper any encouragement, or that your people will do so there, who have confidence in you. Your influence with them will mean much in keeping them lined up with the church at this time of trial.

We had planned taking this matter up at the meeting in Battle Creek Mich. and of having you there with us this spring? You likely have been informed of this. Brother Dodd is surely doing a great wrong in going ahead of the Lord's order in such matters. If this is a truth the church will see it, and if it is not, I believe you will see it. We must pray to this end. I wrote some of the brethren there to stand true to the church of God, and everything would be all right.

May the blessings of God rest upon you is my prayer. Surely we can love each other enough as followers of Jesus to go along together, and not make, or incourage such division, or attempted division as this.

May God bless you richly in all things is my prayer. Hoping to have the pleasure of hearing from you?

Your Brother in the one faith.

A. N. Deegger.

P.S. Elder Snow and his wife were supposed to sail yesterday for the Holy Land. Elder Young has been there now for over a week, according to arrangements and sailings, but we have not had time to hear from him yet.
