Dear Friend:

You wanted to know what individual nations of the world are identified as the tribes of Israel.

The tribes of Manasseh and Ephraim, respectively, are identified in Mr. Armstrong's book The United States and British Commonwealth in Prophecy. The tribe of Judah (the Jews) is scattered among all nations, with a large number now living in the modern nation of Israel. *also consists of Levi, Benjamin.*

Putting together the evidence now available from the Bible and from secular history, we can be reasonably certain that the other tribes are located as follows: ~~Levi and Simeon~~ -- scattered among Israel; *Manasseh, Dan & S. England.* Reuben -- N. France; Dan -- Southern Ireland; ~~Benjamin~~ -- Norway and Iceland; Issachar -- Finland; Naphtali -- Sweden; Zebulun -- Holland (the Netherlands); Gad -- Switzerland; Asher -- Belgium and Luxembourg. *Many Judahites in Scotland, Denmark?*
N. France; New York.
