*District Superintendent—Each district is marked by a heavy red line on map on reverse side. Each church is indicated by a star—each Bible study by a heavy black dot. Each church or Bible study area is indicated by a red line—these areas are designed according to the road system, and are therefore irregular. Most church members in these areas are able to attend local church services regularly. As of March, 1965, there are one-hundred-thirty-one ordained elders in God's Church around the world pastoring one-hundred-two churches plus thirty-eight Bible studies not in church areas, staffing eight offices around the world and three colleges. Each Sabbath more than twenty-four thousand brethren attend local services—with over four thousand others able to attend regular Bible studies where there are no churches.
