Figures include those who became and remained Ministers or Members. Married means became married. "Local Elders" are not included. "Total" children shows ½ count when shared with another student; thus total is correct and no child counted twice. If this survey were complete and accurate for 8 items on 337 students there would be a total of 2696 statistics included.

The total of 337 accepted students can be divided into 61 graduates (including '59 class) (59 A.B.'s; 2 M.A.'s only) or 18%, 117 continue as students (excluding 13 new grads for '59) or 52½%, and 99 dropped out or 29½%

59 non-students are not dependent upon Church or College for the family paycheck. Perhaps less than a dozen students hold outside jobs.
