

I have forwarded your message to Gene Hogberg and have asked that he reply to you.

I should be finished in a few days with the Thesis editing. I am adding three of the original line drawings as the colored illustrations do not give some of the details the drawings include.

I have reformatted some items so that the quotes will be double indented and easily noted. In the process I transferred the text to WordPerfect and then after being finished, back to WORD. In the process the size of the document is much larger.

I am very familiar with WP, but not with WORD, so it is hard to do what I want to do in WORD. I hope that this does not turn out to be a problem to you or having it on your website. Do you have any comments or suggestions?

I am glad that there has been some interest in the thesis. I hope that those who download will do it over again after you have the newer edition posted.
