Subject: Temple Thesis

Thank you very much for bringing this project to a conclusion. I have downloaded the Thesis version you sent, and have saved in to my hard drive, with copies for backup on an IOMEGA Zip disk and a CD.

I have been using computers since the mid 1980s, but there is so much I do not know. I appreciate your sending both the PDF & RTF versions.

I had no idea there would be so much difference in file size between an RTF & a Word document. I also did not know enough about Word to know how to correct the problems on page 11. I have used WordPerfect almost from the beginning and only recently have been using Word when necessary.

You certainly have my permission to give a presentation based on the material. I hope others may also be interested in using the material.

If Richard Nickels has any problems with the attachments I would be glad to send him an electronic copy. I hope he will also put this new revision on his web site.
