What type of prized possessions are you looking for? Which list do you want? I doubt you will ever find them. HWA gave everything to WCG in his will. All his papers including even single sheets or scraps of information was reviewed and anything of value was entered into a computer program data base. This was done within a year or a little more after his death. Each document was filed by number in the archives. It seemed he never threw away any information on paper.

I have no idea what they have done with the computer files or the actual papers in recent years. When I last heard a few years ago they still had the archives, I don't know about the computer file.

For a time they still displayed the fine gifts he received in display cabinets on the first floor of the Hall of Administration. I don't know if a list was made of these items or the items that were left in his office. After his death the type of items left in the office were changed to items of interest to the new occupant.

I presume everything of value was disposed of in one way or another, sooner or later by JWT Sr. & Jr. & the church. That is apparently what happened to all HWA & church assets.

I expect to go to Longview today to have the newer diagrams and pictures of the temple put on CD. As soon as they are ready I will send you a a copy.
