Dear Mr McNair

Re: Researches into the migrations of the 'Lost 12 Tribes of Israel'

I decided to let you settle in before I dropped you a line. You might recall our brief chat last year when you were in Sydney. I have attached copies of our correspondence for your information.

I am also sending by separate mail a copy of my book on the *True Origins of the East Europeans* for you^{to} critique.

Recently I critiqued the theory that the USA = Ephraim and England = Mannasseh. I destroyed that idea (I reconfirmed what HWA taught.) It is not a new theory and several have taught it over the years, including G.G. Rupert over 70 years ago.

You might be interested to know that certain rabbis in Jerusalem have now proven, by unique study, that indeed the Anglo-Saxon-Kelts descend from Israel! Once I have further information, I will keep you informed.

I continue to search and have undertaken much unique research myself. It is a question only of typing it all up. So, do pray that I might be able to gain a computer (preferably a 486) before too long.

I have much more to write about, but this short note to re-activate our contact should suffice.

Please pray for me as I for you.

All the best,

Signed

Craig White.
