GREETINGS FROM AUSTRALIA

Herbert W. Armstrong left for Australia May 6. His report from Sydney is followed by a journal of the trip by Robert Fahey, personal assistant to Mr. Armstrong. Page I photos are by Philip Weir, a member of the Sydney North church.

By Herbert W. Armstrong SYDNEY, Australia Mr. and Mrs. Robert Fahey, Mrs. Armstrong and I arrived in Sydney almost a week ago, Thursday evening, May 7. We rested from the trip Friday. Sabbath, May 9, I spoke to some 1,300 brethren in Sydney. Sunday we flew north to Brisbane where I spoke to another 1,300 brethren from that area. Tuesday we flew back up to our office at Burleigh Heads.

Seeing our office facility here was an inspiring experience for me. It is our own facility, with several executive and private offices, work rooms, an assembly room for the local church services, adequate storage rooms, reception, etc.

It is a larger complex than I had expected. Based on various reports, I had doubts about leaving the office there and intended to consider the advisability of moving the office back to Sydney. But on considering all fac-- transportation, communication, accessibility, along with other desirable features where it is - I could make no decision except to leave it where

It seems to be just as accessible for operation of the Work here where it is - and we do have a very splendid building complex there — with lower liv-ing costs for all the staff. Bob Morton, in charge of the Work

here and southeastern Asia, is fully in accord with that decision, as is Mr. Fahey.

Today we have the first of a two-day ministers' conference. with all the ministers of this continent and their wives in attendance - here in Sydney. I spoke to them at the morning session

and Messrs. Fahey and Morton this afternoon. The ministerial conference will continue tomor-

There is a new invigorating and enthusiastic spirit among the ministry in Australia. The Work has been turned here. All (See AUSTRALIA, page 3)

Chancellor addresses graduates, speaks on 'Education for Life'

By Jeff Zhorne
PASADENA — Forty-seven
Ambassador College graduates
received diplomas here at commencement exercises May 22. For the first time since 1976, Chancellor Herbert W. Armstrong delivered the graduation address.

In his address, entitled "Education for Life," Mr. Armstrong

exhorted seniors to "let your light so exhorted sentors to let your ingit so shine before men... that they may see your good works and glorify your Father which is in heaven." He told them they would be car-rying the light from Ambassador

College and from God. Chancellor

Armstrong explained to more than 800 persons present that the surge in knowledge over the past 10 years has failed to solve man's problems.

"The Creator will not give man life unless he can live it in happiness, peace . . . enjoyment and accom-plishment," continued Mr. Arm-

'Ambassador is a college where we disseminate knowledge for life not for a chemical existence," he

'Be strong'

Mr. Armstrong opened the cere-mony by giving the invocation and

opening remarks. Then, Student Body President Gary Shaffer spoke on the subject, "Be Strong and of Good Courage," in which he dis-cussed how an Ambassador education helps develop character, personality, poise and true culture

We have been given knowledge to develop ourselves - to be a whole individual," he noted. "We graduate to be able to give what we have been given."

The Ambassador Chorale, under the direction of John D. Schroeder, then performed "O Brother Man" and the "Hallelujah Chorus," Mr. (See GRADUATES, page 5)

FEFDING THE FLOCK - Pastor General Herbert W. Armstrong's schedule in Australia and New Zealand brought him together with more than 100 ministers and wives and thousands of brethren. Clockwise from upper left: Australian regional director Robert Morton escorts Mr. Armstrong on a tour of the Work's Burleigh Heads Office May 12; Mr. Morton, Mr. Armstrong and the pastor general's executive assistant Robert Fahey look over a map detailing God's Work in the South Pacific; Mr. Armstrong speaks to brethren assembled in Brisbane, Australia, May 10; the pastor general addresses 1,300 brethren at the Town Hall in Sydney, Australia. May 9: and Mr. Armstrong acknowledges a standing ovation after his May 10 sermon in Brisbane. [Photos by Philip Weir]

Schmidt battles for political life as German-American ties sour

PASADENA - Chancellor Helmut Schmidt of West Germany must be getting that lonely feeling

First of all, he is the only head of government left of the Western world's "Big Four" who met at Guadeloupe in 1979. Of the four -Jimmy Carter, James Callaghan, Valery Giscard d'Estaing and Mr. Schmidt — only the chancellor is still at the helm of his nation's ship of state. And lately, the hand of the sailor from Hamburg, ever photographed sporting his skipper's hat, has been slipping from the wheel.

Trip to Washington

In May, Mr. Schmidt journeyed to Washington on an official visit. He had four days of consultations with President Ronald Reagan, Secretary of State Alexander Haig and other top U.S. officials.

There is no doubt that the chancellor "hit it off well" with Mr. Rea-gan. Mr. Schmidt certainly enjoys more of a meeting of minds with the new man in the White House than he did with former President Carter, whom he continually criticized as being "unpredictable" and "moralistic

Mr. Haig said at the conclusion of the visit that Mr. Schmidt was "100 percent satisfied" with the outcome of his series of talks. In a joint statement, Mr. Reagan and Mr. Schmidt gave "equal weight" to twin provi-sions of a 1979 NATO resolution that calls for U.S. medium-range nuclear weapons in Western Europe, starting in 1983, and a simultaneous U.S.-Soviet effort to limit the basing of nuclear weapons on the continent.

The chancellor desperately

needed a good showing in Washing-ton, for he is in deepening trouble on his home front

On the eve of his departure for the United States, Mr. Schmidt threatened to resign his post in the face of mounting criticism generated by the youthful left wing of his Social Democratic Party (SPD).
The SPD leftists want Mr.

Schmidt to go back on the 1979 NATO decision to base new medium-range nuclear missiles in Europe. About 200 of the Pershing

II and Cruise missiles are to be sta-tioned on German soil by 1983. At the very least, Mr. Schmidt needs a solid U.S. commitment to start talks with Moscow soon over the entire "Euromissile" issue. On their side of the Iron Curtain, the Soviets have positioned a growing arsenal of city-flattening SS-20s. Washington, however, has not committed itself to a firm timetable, only a promise to explore the possibility of arms talks by the end of 1981.

Neutralism and anti-Americanism

The SPD's strident left wing, however, is not likely to be satisfied with any missiles-coupled-with-arms-talks compromise. Many just don't want the weapons, period. The fact is that a spirit of neutralism and pacifism is spreading among West

Germany's younger population. These moods are increasingly being coupled with growing anti-Americanism. Signs such as "Amis

Just one more thing

By Dexter H. Faulkner

raus" - Americans get out - are appearing with greater frequency U.S. military installations have been the target of three bombings in recent months.

Chancellor Schmidt is trying to counter the rising sentiment. He told an SPD party convention in Bavaria before he departed on his American trip, "You have to stop letting yourself be fooled into ingly influential alternative movement [such as the young protesters who won 7 percent of the vote in West Berlinl the United States. meanwhile, has become synony mous with the things one rejects: It stands for a ruthless growth society that sacrifices basic values to mate rialism for the technological world civilization which levels traditional cultures everywhere.

"German intellectuals perceive American consumerism as a new fascism which softly and without physical force destroys all communications media.'

Alice Siegert, West Germany, correspondent for the Chicago, Ill., Tribune, tells of the Washington correspondent of a national Germany, showed that those expressing right-wing leanings were blaming America for having forced West Germany to abandon traditional vir-"a culture of Coca-Cola, tues for Imperialism, beat and drug culture, disco, Hollywood and jeans.

"If a balance sheet were struck," summarized Ms. Siegert, "it would show without question that the majority of people here still have friendly feelings for the United States. But it also is a fact that Germans no longer look to the U.S. as a model country. And the political rift that is opening could be danger-

ous."
Even pro-American German officials have voiced negative U.S. views. German officials, Mr. Schmidt among them, are openly critical of the U.S. armed forces, contending that American troops don't measure up to German soldiers in quality. Finance Minister Hans Matthofer has noted that German soldiers "can all read and write" and "we don't have a drug problem."

Mr. Schmidt counters U.S. complaints of Bonn's failure to spend more on defense by saying that more is asked of Germany's young men— they are conscripts — than American youths today.

West Germany as a whole is beginning to display a bit of a split personality toward the United States. One poll commissioned by the U.S. International Communications Agency revealed that 60 per-cent of those questioned were against the deployment of the modern nuclear weapons. The poll did not point out the corresponding Soviet counterweapons, but it dis-turbed U.S. officials nevertheless.

At the same time, other polls still show widespread liking for the United States. One reported that 55 percent of Germans still consider America to be Bonn's "best friend." Runnerup "best friend"? France, with only 14 percent. Polls notwithstanding, evidence

indicates there is a definite change underway in U.S.-German rela-

believing the Americans are our enemies and the Russians our friends."

Anti-American resentments, however, go deeper than just the NATO missile controversy or even complaints about American "imperialism" in El Salvador. At issue the entire scope of the postwar German-American relationship.

Writing in the newspaper Frankfurter Allgemeine Zeitung, Annemarie Renger, deputy speak-er of the Bundestag (parliament) and a member of Mr. Schmidt's party, says this:

Gone are the days when Kennedy's or Johnson's concept of a Great Society served as a model for a social-liberal reform policy. At least for the kernel of the surpris-

man daily who went home on leave and noted a new approach to defense policy among the general public. It was summarized, the correspondent said, by the slogan 'Let's draw away from America.

This new approach, reported Ms. Siegert, was also reflected in a statement by a German scientist that the German reporter said he hoped no one in the White House or in Congress would read. The scientist told a German mag-

azine that any "responsible federal government would have to look for ways and means to prevent the Americans from making good their promise of defending the Federal Republic."

Interestingly enough, anti-Amer ican sentiments, traditionally found among leftist groups, are also expressed by the extreme right.

Most airlines today publish monthly magazines for their passengers to read while in flight. I was flipping through one on my way to San Francisco, Calif., when an advertisement caught my eye. It was for a tongue cleaner. All that the user had to do was hook some sort of band around his or her tongue and pull down. This procedure was guaranteed to make one's mouth cleaner

I laughed to myself when I read it, thinking that any device that could clean up a person's tongue would be a bargain at any price. It is some-thing we could all use. It reminded me of Proverbs 18:21: "Death and life are in the power of the tongue.

and fresher than ever before and for

only \$3.98.

By the very nature of our society all of us talk a great deal. Our speech is a determining factor in our interpersonal relationships. But because speaking is the most commonly used method of communication, usually we are not so careful about what we say, how we say it, to whom we say it or how it will be received. I'am co vinced that a majority of our prob lems stem either from the remarks we make or from the careless manner in which we make them.

The most common of all human-tongue sins is putting other people down. It's so common that many guilty of this kind of hasty speech never stop to think how wrong, how

truly harmful it is.
You know what "putting down"
means, of course. It's a useful phrase that young people have added to the language. It means substantially the same thing as "belittling" or "deni-grating," but it's much more vivid.

It manages to suggest both the moti-vation and the effect of remarks and gestures that are calculated to make nother person feel stupid or infe-

Some people use put-downs out of deliberate cruelty. But most of us put others down because we're trying to build ourselves up . . . to gain some edge of moral or intellectual superiority that will give us an advantage in our relations with the target of the put-down.

Put-downs may be directed at strangers, minorities or casual acquaintances. But they are most vicious when they take place in the context of an intimate relationship. An example is when a husband uses his wife as the brunt of his shortcomings, shifting the blame to her, making him feel superior. "We were late today because my wife took too long getting ready." Treating some-one like a second-class citizen is not Christian.

Another form of put-down is interrupting others who are talking. This is extremely rude. It is a top-notch put-down. This particular symptom is also common to married couples. One will start to relate a story and the other will "sweetly" interrupt to correct a statement or

add an "important" point.

It is characteristic of the putdown that the person doing it thinks he or she is being subtle, whereas the victim immediately recognizes the slap for what it was intended to be. To pretend we didn't mean to belittle or embarrass someone, when that was precisely what we hoped to do, is to compound malice with hypoc-

We have all practiced the art of put-down at one time or another. Is it sinful to put another person down? Christ said the supreme moral law, the one commandment in which all other rules of human conduct are assumed, is that we should love one another (John 13:34-35).

When Christ spoke of loving others, He did not mean just being fond of them or feeling affection for them. He meant that we have an overriding duty to deal kindly and charitably with everyone with whom we come into contact — to treat others (whether in the Church or not) as we'd like to be treated.

Does this apply to parent-child relationships? I think it does. Some parents consider it almost a duty to put down their teenage children at the slightest opportunity. Children subjected to this treatment quickly become equally adept at making parents feel foolish.

A Christian parent has a duty to teach, correct and admonish his or her children, provided it is done in a spirit of genuine love. However, caution should be taken not to condemn them or to belittle them by using put-downs at any age. Perhaps if we could all grasp this simple truth there would be less alienation and antagonism between genera-

Putting down is wrong because it is an offense against love. It is essen-tially an unloving act, no matter how hard we try to justify it in our minds as a comeuppance that the other person needs

Christ had extraordinary insight into human nature. He recognized how easy it would be to rationalize a put-down by saying, "I did it for his own good." In Matthew 7:1-5, He forestalled that alibi by warning that none of us has any business trying to judge, criticize or reform someone else. "Why do you see the speck that is in your brother's eye, but do not notice the log that is in your own eye." He said, Do not condemn others, and God will not condemn

Australia

(Continued from page 1) signs here are "GO." The Work here has sprung to new life since the first of the year. Tomorrow evening, following the afternoon ministerial conference, we will fly on to Melbourne. I will speak to our brethren from that area on

the Sabbath and then Saturday evening we fly on to Auckland, New Zealand

We will have a visit to our office there in the morning, and speak to the brethren assembled in the afternoon, with audio to Wellington and Christchurch. Monday, fly to Honolulu, Hawaii: Pasadena Tuesday.

HWA Diary

By Bob Fahey

It has been a full trip so far. After an overnight stop in Honolulu, we were to fly on to Sydney, Australia, on Wednesday, May 6. At present, there is a 17-hour time difference

Bob Morton and several other ministers were there to meet Mr and Mrs. Armstrong and the rest of our party (Ruth Nestor, Evelyn and). We went straight to our hotel, which was our home base while in the way of God's love, which is shed abroad in our hearts by His Spirit. Like Adam, we are being offered

We have to choose. We also have Satan's evil influence to contend with; it is not easy to qualify now But God helps us with His Spirit, and those who demonstrate that they want to follow God's way of life will be His firstfruits, the first to have life and a leadership role in God's Family forever.

It was the clearest presentation of the Gospel I have ever heard. So

inspiring.
But at dinner that night, Mr. Armstrong said he wasn't complete-ly happy with his presentation. He felt he should include that after God calls us and gives us His Spirit, we must grow. The next day, Sunday, May 10, we were to fly to Brisbane to speak to several churches there.

less like this Satan-inspired world. The sermon was two hours long.

Mr. Armstrong joked that it wasn't as long as Gerald Waterhouse spoke.

The revision from the day before had certainly been successful. A clear overview of God's plan and then showing how each of us individually must grow spiritually to fulfill our calling, was both inspiring and sobering. Monday the 11th was a "rest" day. Mr. Morton and I spent several hours talking with Mr. Armstrong

on points in his sermon, and variou other administrative things involv ing the Work in this part of the world. Later Mr. Armstrong worked on a letter he is writing to all newly baptized members, which includes reminder that they have been offered life.

On Tuesday we had a tour of the

television in relation to population Australia now uses 32 radio and 22 television stations after a 3½ year break. The radio stations are only weekly at present. Mr. Armstrong told Mr. Morton that five days a week is far more effective than once a week. Mr. Morton will begin seek-ing daily bookings. Television will remain weekly for the present.

Newsstand distribution has also begun again. By June 1 there will be 100,000 copies of *The Plain Truth* on newsstands throughout the country — 150,000 by the end of the

Mr. Armstrong was very pleased with these developments that spread Christ's Gospel in Australia.

Mr. Armstrong felt that there were too many small Feast sites in the country. Circumstances required this in 1981. It will be reviewed next year.

The 1981 budget for Australia puts 47 percent of expenditure into the great commission, 35 percent to serve the churches, 4 percent goes into the Feast and 14 percent toward administration expenses.

The Australians are able to help Southeast Asia receive the Gospel by The Plain Truth, other literature and regular visits. This will cost them \$175,000 this year. Canada is going to give additional help by pay-ing for Radio Ceylon to air *The* World Tomorrow daily. This sta-tion can be heard in Singapore, Malaysia, Burma, Bangladesh, Nepal, Bhutan, India, Pakistan, Afghanistan, parts of the Middle East and the east coast of Africa.

After the visit Mr. Armstrong told the office staff that he was only impressed, he was inspired. He had not realized how much God had built and blessed the Work in this area. He reminded us of the very humble beginnings of the Work when he and Mrs. Armstrong were the entire worldwide staff. God began small but He has established this office in Australia and many

(See AUSTRALIA, page 4)

BRISBANE ADDRESS — Herbert W. Armstrong speaks to more than 1,000 brethren in Brisbane, Australia, May 10. The pastor general presented a general overview of God's purpose for man, and encouraged the Church to grow in God's way of life. [Photos by Philip Weir]

between Los Angeles, Calif., and Sydney, and a 20-hour difference between Honolulu and Sydney. Our schedule was to depart Honolulu at 11 a.m. on Wednesday the 6th, and arrive Sydney after 11 hours of trav-el at 6 p.m. Thursday, May 7. The day and dates change as you cross the International Dateline.

But we had several delays.

First, after takeoff in Honolulu, we found we were losing fuel from our starboard-wing fuel tank. Cap-tain [Ed] Black quickly shut down the fuel flow from that tank so there was no danger. But we had to return to Honolulu immediately. No serious problem — the fuel cap had not been locked properly by ground staff. It was easy to fix, but we lost an hour in the process.

Next, our refueling stop took lon-ger than we had hoped. Faleolo is almost exactly halfway between Honolulu and Sydney. If you are interested, find it on the map in Western Samoa. Modern and effi-cient it is not. Turnaround took a half hour longer than expected.

The last delay was the worst. Headwinds, Just after Faleolo they began. At first they were not very strong. But they kept increasing. Our flight time should have been just over five hours. But as the headwinds increased, so our expected flight time kept being extended. While I was in the cockpit the highest INS (Inertial Navigation Sys-tem) reading was 138 knots.

For a time it looked as though we might have to divert to Auckland, New Zealand. The pilots were calculating and recalculating ground speed, fuel supply and fuel flow as they kept changing to make sure we could reach Sydney safely. They had to skirt a large thunderstorm, which was spectacular to view from 41 000 feet, but added to our fuel

Finally, at 9 p.m. local time, after 14 hours of travel time, we spotted the lights of Sydney. We were permitted to fly straight in and land. We were tired! Customs and Immigration seemed to appreciate our weariness and sped us through. Australia. It was about midnight when I got into bed. That was 4 a.m. in Honolulu and 7 a.m. in Los Angeles!

On the Sabbath, Mr. Armstrong was to speak to the combined Sydney churches. In the morning the flu and sore throat that had been troub-ling him for several weeks began to sap his strength again. The services were scheduled in the afternoon so he took extra time to rest in the

We arrived at the Sydney Town We arrived at the Sydney 10wn Hall right on time. The Town Hall in Sydney is an "oldie," but a beautifully maintained "goodie." The place was just about packed with God's people. Another 440 people in Perth on the extreme west coast of Australia listened in by phone line.

Mr. Armstrong spoke for about an hour and three quarters giving an overview of God's purpose for put-ting man on earth. When Adam was made a living soul he did not have real LIFE. He had only a physio-chemical existence that was winding down and would eventually come to an end.

God offered him the tree of life, which led to the indwelling of God's Holy Spirit. That spirit would have given Adam access to God's mind and God's power, which leads to eternal life.

Adam chose the way that leads to death. God told him if he chose that way he would surely die. And he

B

8

1

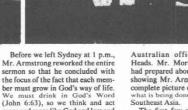

1

B

1

After he chose the wrong way, God cut him and his descendants off from access to the tree of life. Man was not cut off from God. Man was cut off from life. God would not give him life in the selfish attitude he was in. The fruit of that attitude would be sorrow for Adam and all those he came in contact with.

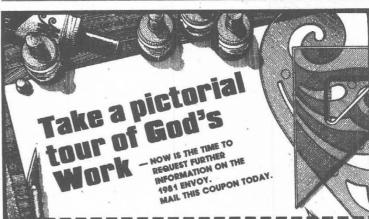

God dealt with Israel — but he never offered them life. No one had God's offer of life until Christ, the second Adam, established His Church and offered us eternal life. We are the first to be offered life since Adam was driven out of the garden. We are now being judged to see if we will follow the way of LIFE.

Australia

(Continued from page 3) others around the world. More next week

HONOLULU, Hawaii nesday, May 13, was the first day of the two-day Australian ministers' conference. Almost all the Australian ministry, even local elders from across the vast continent, were there to hear and meet Mr. Armstrong. Attendance was 101 ministers and

Mr. Armstrong had been experiencing some difficulty with his heart in the mornings on the trip, but he wanted to be with and speak to the assembled church leadership.

which he felt Mr. Armstrong was wrong in some way, he should not begin spreading it among the membership. He should discuss it first with his church pastor or Mr. Mor-ton. If those men could not help him the matter should be taken to Mr. Armstrong. If the man were right, Mr. Armstrong would acknowledge the point.

Mr. Armstrong wants to be in

complete agreement with Christ, right in God's eyes. If the man were wrong, provided he was in the right attitude, Mr. Armstrong would show him where he was wrong. In this way we would all speak the same, right thing.
At lunch several couples joined

Mr. and Mrs. Armstrong at their table. Actually, many ministers and

BURLEIGH HEADS VISIT — Pastor General Herbert W., Armstrong confers with Australian regional director Robert Morton at the Work's office in Burleigh Heads May 12. [Photo by Phillip Weir]

So, even though he was not feeling the best, he took the morning meeting to kick off the conference.

He began by explaining the over-view of God's purpose in giving mankind physical existence. God gave humans a temporary con-sciousness for a time of character building. The material goods and physical knowledge we accumulate during this time will be of no use to us in the Kingdom of God. All we will take with us is the character that we build during this brief, physical existence. Godly character is the qualifier for life. (You may wish to read John 5, 6 and 10. It will have new life in it.)

Then he began to explain to the ministers how he sticks to the over-view and that he expects us to back him up and fill in the details so the flock will have a complete under-

standing of God's way of life.

But just as he began to get specific about the minister's job, he told us that his heart was beginning to trou-ble him and that he would have to stop. He decided to stay right in his chair. He asked for oxygen to help him breathe more easily.

Aaron Dean went to get the oxy-gen, and I told everyone to take a break. Mrs. Armstrong and I went to him to offer what help we could. Everyone in the room prayed, asking God to give His apostle strength.
After about 10 minutes, Mr.

Armstrong stood up, began to rotate his shoulders, walked around the room swinging his arms and lifting his ankles under him to increase circulation. The meeting was reconvened.

Mr. Armstrong took his chair again and continued where he left off — but his power seemed to be doubled. The people I talked with afterwards said they were all think-ing of the same scripture — Zechariah 4.6

He then said our job was to feed the congregations under our charge the spiritual food, God's Word. That is what enables God's children to grow. He said that it wasn't enough that we all speak the same thing — we must all speak the right thing that which is right in God's eyes.
If any minister had a question in

their wives got acquainted with the Armstrongs over lunch or dinner during the Australian trip.

That is a blessing too few elders we had recently. Where possible, have had recently. Where possible, Mr. Armstrong is trying to make himself available for this kind of fellowship. He is as eager to know the

ministers as they are to know him.
Mr. Armstrong asked me to take
the afternoon session while he sat in the audience — in the front row. Does that ever help your prayer life! I covered how God teaches His Church through the apostles and what being "on the track" means. After a coffee break, I showed who the "angel of the church in Philadel-phia" is.

The next morning, Thursday the 14th, Mr. Morton started off. He expounded on "those that endure to the end shall be saved." He showed how the ministry has to set the example of faith and patience by trusting God and waiting on Him.

Mr. Armstrong took the last 45 minutes of the session to give a preview of his 1981 commencement address to be given in Pasadena May 22. (See article, page 1.) The title is

"Education for LIFE!" That is all I can share at this time. Don't want to steal his thunder.

Thursday afternoon, before Mr. Armstrong returned to the meeting, I spoke for about 30 minutes on naintaining the unity God had been building into the Australian minis-

After he arrived, Mr. Armstrong took over the meeting and began a fatherly talk to the assembled ministry. He said he was pleased that the Australian ministry was back on God's track. He was very pleased with what he had found in Austra-

He warned all present of the dan-gers they face when they return to their assignments - exalting the self, seeking a bigger position for self, and getting into a wrong atti-tude when we don't have other min-isters around to fellowship with.

He said when we are small in our sight, God will use us. But if we become big in our own sight, we

become very small in God's sight. There were many points, but the most important that he stressed was never to leave God out of the pic-ture. So many had left God's Church because they forgot that Christ is the living Head of His Church. He is the one who guides and directs this Work and He never falls asleep at the switch. If we forget that, we will drop out. If we are looking to Him, we will endure right to the end — and be given real life with Christ.

Before the conference closed, the Australian ministers presented Mr. Armstrong a crystal whale with a lonely, worried-looking Jonah inside

Mr. Morton said, "We want you to have this as a reminder that as God took drastic action to put Jonah back on the track, so we are grateful that you took drastic action to put us back on the track!"

Then Mr. Morton held up a large

kangaroo skin that had been signed on the back by all the Sydney mem-bers and gave it to Mr. Armstrong.

Immediately after the meeting Mr. Armstrong and his party flew from Sydney to Melbourne for the

final Sabbath in Australia.
On Friday, Mr. Morton told Mr. Armstrong the details of certain commercial ventures that were undertaken in the area several years ago. They all failed. A few loose ends remain. Mr. Armstrong told Mr. Morton never to get involved in those type projects again. He won't.

He also presented plans for an Australian Summer Educational Program site. Mr. Armstrong approved the project and the budget, in principle.

We had dinner that night with the ministers in the Melbourne area. There were 17 of us sitting around one large table. The fellowship was lively. It was one of the most enjoyable evenings of the trip.

I was pastor of Melbourne from 1966 to 1969 before my wife Evelyn

and I were transferred to South Africa. We were very eager to see everyone once again. We had met many Melbournites when we toured Australia during and after the Feast last year. But that was a difficult

time. This was a joyous one.

Because we were flying to Auckland, New Zealand, right after the meeting, we arrived by cah early so we could see as many as possible. Outside the hall were several people carrying placards against Mr. Arm-strong and the Worldwide Church of God. It looked like quite a group until one of the Melbourne pastors, Rod Dean, asked parents who were talking outside the hall to have their children withdraw from them. That

left five people standing there! When Mr. Armstrong arrived these dissidents were waiting in the front. They had invited a local tele-vision station to film their demon-stration. But Mr. Armstrong went to the rear of the hall as planned. The back gave better access to his seat in the front of the hall. If the television station got any footage at all. I would be surprised.

There were 1,550 people attend-ing in Melbourne that Sabbath. An additional 270 listened in at Ade-laide, Devonport and Hobart. Hobart had line difficulties and had to drop out. But they had been sent a tape of Mr. Armstrong's Sydney sermon for just such an occurrence

We were off to the airport and Auckland!

We arrived in Auckland at 9 p.m. local time. It was a quicker trip than usual because we had favorable tailwinds - for a change. Unfortunately, Customs and Immigrations were unhelpful. Regional director Peter Nathan was able to meet us at the plane, but we had to go through the normal channels for customs, immi-

gration and agricultural check.

A large group of ministers was at the airport to meet Mr. and Mrs. Armstrong. A number of office employees were there also. With the

employees were there also. With the nearly two-hour sermon in Mel-bourne and the travel time it was an extremely long day.

Our schedule was tight in New Zealand. Mr. Armstrong wanted to be back in Pasadena within two weeks of our departure. We flew after the Sabbath so we would have a full day available on Sunday. Mr. full day available on Sunday. Mr. Armstrong was to speak in Auck-land at 1:30 p.m. There was to be a

television hookup to Christchurch.
At 4 p.m. he was to talk to the
ministers and their wives as he has done on United States church visits. On Monday he was to depart Auckland at 11 a.m. after a brief visit to the office, between the hotel and air-

When Mr. Armstrong arose Sun day morning the pain in his chest was back with force. It was his worst

SABBATH IN SYDNEY - Mr. and Mrs. Herbert W. Armstrong listen to announcements before Mr. Armstrong's May 9 address in the Sydney, Australia, Town Hall. [Photo by Aaron Dean]

I led the songs and introduced Mr. Armstrong. He gave the same basic message that he gave in Bris-bane. Mr. Morton felt it was the strongest and clearest message of all. It seemed that way to me too.

Mr. Armstrong left the stage to thunderous applause and went directly to the car. The placard carriers had dwindled to two who stood silently beside the car as the Armstrongs entered it. The television crew was long gone. After the car drove away the two left quietly. They didn't seem to have any place

morning of the trip. He was taking oxygen when I entered the room just after midday. He told me he did not feel he could take the sermon and I would have to stand in for him.

Peter Nathan and I realized this

heart problem troubled Mr. Armstrong in the morning and usually left later in the day. As it was 10 a.m. Sydney time we decided to postpone the meeting in hopes that Mr. Armstrong would recover and take it himself.

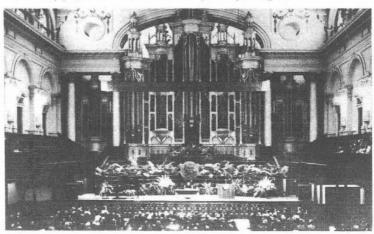

Captain Black asked the house doctor to give Mr. Armstrong a brief check to be sure nothing serious was developing. Nothing was. But predictably, the doctor recommended he not attend the meeting.

Mr. Armstrong decided to go anyway. He had not spoken to the New Zealand brethren before and wanted to very much. Additionally, many had come from outlying areas to see him. He went into his room at 2 p.m. to dress. But after he had put on a fresh shirt, he felt absolutely exhausted and realized he would be foolish to go.

As I left the hotel room for the meeting, I noticed that Mr. Arm-strong had already returned to bed. I arrived at the hall about 2:15. I

explained the morning's events and gave Mr. Armstrong's apologies for not being there himself. I stood in for him the best I could. That is a tough assignment, especially for a group that was so eager to hear Mr. Armstrong in person for the first time. God used him to build His Church doctrine by doctrine, year by year, trial by trial; no pinch hitter can come close. It is just not the

NEWS OF PEOPLE, PLACES & EVENTS IN THE WORLDWIDE CHURCH OF GOD

PASADENA - Cassette tapes PASADENA — Cassette tapes of Pastor General Herbert W. Arm-strong's books The Missing Dimen-sion in Sex, The Incredible Human Potential, The Wonderful World Tomorrow — What It Will Be Like and The United States and Britain in Prophecy are available for visually handicapped brethren from Edu-cational Services for the Handicapped, according to department

supervisor Garland Snuffer.

"Visually impaired persons can expect their tapes two to three eeks after requesting them," Joanna Burgess, an Educational Services employee who processes requests and handles incoming mail with assistant Lisa Ransdell.

PORTLAND, Ore. - Postal Center supervisor Eric Shaw gave a presentation about building membership for postal customer councils and organizing programs and train-ing sessions, at the Western region National Postal Forum here May 10 to 12. The U.S. Postal Service asked Mr. Shaw to give the presentation. He was accompanied to Portland by Coy Colbert, Postal Center produc-

tion foreman.

Mr. Shaw, chairman of the Foothill Postal Customer Council, noted, "We work to establish relations between post offices and major mailers." Business mailers (organizations that do large-volume mailing) account for 80 percent of mail rocessed by U.S. post offices, he added.

As council chairman, Mr. Shaw receives information directly from

the U.S. Postal Service.
The Pasadena council, which Mr. Shaw heads, serves about 500 mail-ers including BankAmericard, Walt Disney, Pacific Telephone, the Los Angeles, Calif., Zoo, churches and colleges. Several other employees of the Work are also members of the

LONDON - Pastor General Herbert W. Armstrong's full-page advertisements are being placed in leading British newspapers here, according to evangelist Frank

Mr. Armstrong's ad discussing modern education opened the new series in the Times, the Daily Tele graph and the Daily Mail. The ad "What's Wrong with Science and Technology?" [WN, Dec. 2, 1980] and "Coming Soon — A Staggering Turn in World Events" [WN, Jan. 12] will complete the series.

"Even though the primary func-tion of this campaign is to convey a message, more than 600 requests for The Plain Truth have already been received," said Mr. Brown May 22. He added that the 600 requests were the result of the first Daily Mail ad and that responses from the other

papers were still coming in.

tions, Mr. Brown reported. More than 2,000 responses were received from one ad in the British TV

COLLEGE FEATURED - Am bassador College was featured in the February Grounds Maintenance magazine as part of the award for excellence the college landscape crew received (WN. landscape crew received (WW, Nov. 24, 1980). The article stated that Ambassador "was founded on a philosophy emphasizing quality and excellence in the land-scape as well as the education." [Cover reprinted courtesy of Grounds Maintenance]

Australia

(Continued from page 4)

Mr. Armstrong was able to speak to the ministers and their wives at 5 p.m. All New Zealand ministers were there, plus the elders from Tonga and Fiji. He asked that the ministers inform their congregations of his disappointment that he was not able to speak to them him-self. Then he covered the high spots of the instruction he gave to the Australian ministers.

That night Mr. Armstrong and

his party had a quiet dinner with Peter and Karen Nathan.

The next day, Monday, May 18. Mr. and Mrs. Armstrong toured the New Zealand Office. He wanted to see every square foot — and did so While in Mr. Nathan's office, Mr Nathan gave him a complete report of New Zealand and the South Pacific islands administered by the New Zealand Office. Mr. Arm-strong was very pleased with every-thing he saw of God's Work in New Zealand.

Then it was off to the airport for the flight to Honolulu. This time Customs and Immigrations were helpful. We were able to drive right up to the G-II. Two customs men were already on board to stamp our passports. As soon as that was completed, we said good-bye to those who accompanied us to the airport and took off for Hawaii via Pago Pago in American Samoa

En route, in his "office in the sky," Mr. Armstrong completed the first draft of a semiannual letter to Plain Truth subscribers. That G-II

is a real asset to God's Work. With the exception of not being able to speak to the New Zealand brethren, Mr. Armstrong was very pleased as he looked back on the trip. It certainly was a full one. Even with the two-night stop in Honolulu (where I am writing this), the bathing suit I brought with me never go wet. I did get to jog once in Mel bourne

But Mr. Armstrong was inspired and encouraged by the zeal and dedication he found in God's people "down under." The members were enthusiastic, the offices well managed, working efficiently and financially sound. Mr. Morton and Mr. Nathan asked and were given per-mission to pay all hotel accommodations while we were in their area.

Reports from local ministers say the brethren were also inspired and encouraged because the pastor gen-eral, in his 89th year, came halfway around the world to visit and serve them. Accomplishment, mutual inspiration and encouragement is the fruit of God's way of give.

Through the end of April, 28,940 new subscrib-ers were added to La Pura Verdad (Spanish-language Plain Truth). At the present growth rate we will reach more than 100,000 new subscribers — the goal set by evangelist Leon Walker earlier this year. Income for the first quarter is up 33.7 percent.

Australia

In Australia April was an exciting month for television and radio, as the number of television stations carrying The World Tomorrow increased from 15 to 22, and the number of radio stations increased from 22 to 32.

Apart from one or two isolated areas, almost the entire population of Australia can now tune in to hear the message Christ has given His end-time apos: '. Plans include add-ing more television and radio sta-

tions as the year goes by.

Newsstands: A number of new outlets opened this month, includ-ing the prestigious Tullamarine International Airport in Mel-

bourne. Outlets at both domestic terminals and the international ter-minal will display The Plain Truth and we expect to distribute many thousands of copies each month through these three outlets.

Responses to the newsstand pro-gram continue to be excellent, and many readers are being added monthly to the regular subscription

Manpower notes

At the end of April, Mr. and Mrs. Colin Kelly, formerly serving in the New Zealand ministry, were assigned to Singapore to pastor the church there, and in Kuala Lumpur, Malaysia. But until immigration requirements are fulfilled, they will work from the Australian Office in Burleigh Heads.

Mr. and Mrs. Kelly graduated from Ambassador College in 1975, and served in the Christchurch and Auckland, New Zealand, churches. To replace him, Neville Fraser, a local elder in Auckland, is being employed on a full-time basis. When visiting the West African

churches during the Feast of Unleavened Bread, British regional director Frank Brown raised Melvin Rhodes, pastor of Accra and Kuma-si, Ghana, churches, to preaching elder.

In England, Tony Goudie was ordained a local church elder May 16. He will serve in the Luton

Tom Root, a local elder previous ly serving in West Germany, his wife Sylvia and their children, are being transferred to the Pasadena campus in July. Mr. Root will teach German, and will serve as liaison and editorial representative for the Bonn Office. His former church areas of Darmstadt and Stuttgart will be pastored from Bonn by office manager John Karlson.

Pacific

French is spoken on a number of South Pacific islands, and our sub-scribers there were offered the French edition of Mr. Armstrong's book, The Missing Dimension in

From the 421 letters sent out, 67 responses were received. Some of the subscribers to La Pure Verite (French-language Plain Truth) requested a ministerial visit, so in early June, regional director Peter Nathan and local elder Rex Morgan from the New Zealand Office will travel to Vanuatu (formerly the New Hebrides), Tahiti and New Caledonia.

Unleavened Bread roundum

Figures from around the world show God poured out His blessings during the recent feast days.

Attendances were up in the French-speaking churches France 415, Belgium 202, Switzerland 104, Martinique 275, Guadeloupe 88, Haiti 35, Cameroon 38. Offerings were up 35 percent on the average.

In the Netherlands church attendance was up 25 percent, and Holy Day offerings were up 30 per-cent and 73 percent respectively. In other areas: South Africa 58

percent and 42 percent; Australia 57 percent and 72 percent; New Zealand 42 percent and 58 percent (attendance was more than 1,000 for the first time); and Canada 32

percent and 31 percent.

The increased income in Canada enabled regional director Colin Adair to revise the budget upward and put the increase into more media outlets - radio, television and newsstands, and to assist other international areas of the Work, in addition to existing com-mitments to the Philippines, Scandinavia and France.

PASADENA PROGRAM — Participants in the May 18 to June 5 Ministerial Refreshing Program pause in front of Ambassador Hall. The ministers and their wives were joined by Pasadena Ambassador College faculty members and their spouses for the three-week program. Newly named ministerial trainees also took part.
